

CROSSROADS

A MOBILITY MANAGEMENT NEWSLETTER

April

Working in our community to bring
safe, convenient, affordable, and
accessable transportation options to
Logan County.

Please join us at the next
Transportation Advisory Committee
meeting

April 27, 2026
10am

Logan County Board of DD
Conference Room
1793 St Rt 47 W, Bellefontaine

What is the Transportation Advisory Council?

It's a group of people who live and work in our community who want to bring safe, accessible, and affordable transportation options to our county.

TRAVEL IMPACTS GOING THROUGH UNION COUNTY

STARTING FRIDAY, MARCH 27, U.S. 33 WILL BE REDUCED TO ONE LANE IN EACH DIRECTION BETWEEN SR 245 AND U.S. 36 FROM 6 P.M. TO 6 A.M. THESE RESTRICTIONS WILL REMAIN IN PLACE THROUGH FRIDAY, APRIL 10.

THE LANE REDUCTIONS WILL ALLOW CREWS TO PREPARE FOR AN UPCOMING TRAFFIC SHIFT NEEDED FOR A MAJOR REHABILITATION PROJECT INVOLVING EIGHT BRIDGES AT FOUR LOCATIONS ALONG U.S. 33 THROUGH MARYSVILLE. THE PROJECT INCLUDES REHABILITATING TWIN STRUCTURES OVER RAYMOND ROAD, WALDO ROAD, SR 245, AND NORTHWEST PARKWAY.

New Round About Project

UPDATE FROM ODOT ON THE NEW ROUNABOUT PROJECT.

U.S. 33 will remain open for the duration of the project with just reduction to one lane and flagger for paving operations. S.R. 274 will have the "north" leg (going to Huntsville) closed the entire project. The "south leg" (from Jackson Center) will be closed up to Phase 2 (the bulk of the work happens in Pre-phase 1 and Phase 1 under full closure of SR 274). The project has a Begin Construction date of 5/1/26 with an Interim Completion Date of 10/15/26. Most of the construction is expected to be done by 10/15/2026 with final light pole installation next year.

Recent Ohio Transportation Law Changes: What to Know

Ohio Governor DeWine signed House Bill 54, the state transportation budget, into law last Spring.

Shoulder Use for Pedestrians and Bicyclists

- Ohio law now clearly defines what a roadway “shoulder” is and confirms that paved shoulders may be used by people walking or biking in the absence of other pedestrian or bicycle facilities.
- Explicitly allows people to walk or bike on paved shoulders when other facilities are not present, the law helps reduce confusion and supports safer, more predictable interactions among all road users—especially on roads where dedicated pedestrian or bicycle facilities are limited.

No Parking in the Bike Lane

- Bicycle lanes have been added to the list of locations where vehicles may not park.
- Keeping bicycle lanes clear helps ensure safer, more predictable travel for people biking and reduces conflicts between road users.
- This change supports the growing network of bike facilities across Ohio and reinforces their intended use as dedicated space for bicyclists.

“Vulnerable Road Users” Recognized in Ohio Law for the First Time

Ohio law clarifies that public roads are intended for many forms of travel, including vulnerable road users such as:

- Pedestrians
- Bicyclists
- Micromobility users (e-scooters, skateboards, etc.)
- People using wheelchairs or mobility devices
- Motorcyclists
- Children
- Older adults

This clarification supports community efforts to design and operate roads that better consider safety and comfort for everyone, especially those at greater risk of injury in a crash.

Almost Every Intersection Is a Crosswalk, Painted or Not...

- Marked crosswalks, like painted crosswalks at intersections or mid-block locations, continue to be recognized wherever they are installed.
- An unmarked crosswalk exists only at intersections where sidewalks are present on one or both sides of the street.
- This is a change from the previous definition, which treated all intersections as crosswalks.
- Why this matters: This amendment could impact the assignment of right-of-way at intersections that lack sidewalks and which are not marked with a crosswalk.
- This may further underscore the need to stripe crosswalks in location where pedestrian right-of-way is important.
