"Education is Power"

August 2025

Hello Families!

Welcome to the new school year! We are excited to continue to offer telemedicine counseling services.

This program is designed to allow for the students in our school district to have access to mental wellbeing services through telemedicine. This year, tele-counseling services are offered through a contracted school psychologist from Sunbelt Staffing, LCC. This will be a change from last year's service provider.

This is an amazing (free) opportunity to further support the growth and overall well-being of your child with minimal disruption to their learning and class time.

Any questions can be directed to the following numbers:
Brent Beyer, District School Psychologist – (530) 336-5515

Parents/Guardians, if your child is under 12 years of age, you will need to complete and sign this consent form before your child can begin receiving services. If your child is over 12 years of age this is for informational purposes.

If you would like to consent now that your child can use this service, please sign below and return this form to school.
