

Fall River JUSD

Insurance Request

Back to School

Dear Parents & Guardians,

As we begin a new school year, our priority is to ensure every student has access to the health and mental health services they may need to thrive.

To do this, we are asking all families to submit their child's current health insurance information and give permission to securely share it, only if school-based services are provided.

Why we're collecting this information:

- It allows our school to access funding that helps support health and mental health programs.
- **There is no cost to you** and it does not affect your insurance or premiums.
- It ensures we're prepared to help your student if services are ever needed.

It only takes a minute to complete!

Scan the QR code below or click the link to submit your child's insurance information and consent

Thank you for helping us build a healthier, stronger school community. If you have any questions or need help completing the form, please contact our school office.

Wishing you and your student a successful school year!
