Our integrated preschool classrooms offer a vibrant, inclusive environment for 3 and 4-year-olds to grow, learn, and play together.

Why Families Love Our Program:

- **A Place for Everyone:** We celebrate children of all abilities and backgrounds, fostering a supportive community where kids learn from one another.
- **Learning Through Play:** Our "Center-Based" approach is designed to spark creativity and build social, motor, and thinking skills at each child's unique pace.
- **Standards Aligned Learning:** We use the Connecticut Early Learning & Development Standards (CT-ELDS) to ensure your child is getting a top-tier educational foundation.
- **Partnership with Parents:** We believe you are your child's first teacher! Collaboration and communication between school and family is critical to your child's success.
