This notification is not the full policy. The District's full School Climate policy is available at: BOE Policy [5006](#)

The Board of Education is committed to promoting a positive sustained school climate and has adopted the Connecticut School Climate Policy and administrative regulation (Policy [5006](#)) for implementation beginning in the 2025-2026 school year. The policy sets forth the framework for an effective and informed school climate improvement process, which includes a continuous cycle of (i) planning and preparation, (ii) evaluation, (iii) action planning, and (iv) implementation, and serves to actualize the Connecticut School Climate Standards, as detailed in the policy.

Students, parents or guardians of students enrolled in the District, and school employees may file a written report of alleged challenging behavior or alleged bullying using the [Challenging Behavior Reporting Form](#), which is available in the Appendix of this handbook. Such reports may be filed with the building principal, program administrator, and/or the School Climate Specialist, and all reports shall be forwarded to the School Climate Specialist for review and actions consistent with the Connecticut School Climate Policy.

In addition, each school has developed a School Climate Improvement Plan to address school-wide instructional practices and relational practices that prevent, identify, and respond to challenging behavior, including but not limited to alleged bullying and harassment, in the school environment. The School Climate Improvement Plans are available at the following links: <https://www.eastgranby.k12.ct.us/page/school-climate>
Under the school climate framework:

- Challenging behavior means behavior that negatively impacts school climate or interferes, or is at risk of interfering, with the learning or safety of a student or the safety of a school employee.
- Bullying means unwanted and aggressive behavior among children in grades kindergarten to twelve, inclusive, that involves a real or perceived power imbalance. Bullying includes cyberbullying, which means any act of bullying through the use of the Internet, interactive and digital technologies, cellular mobile telephone or other mobile electronic devices or any other electronic communication.

The Board of Education has also adopted a [Restorative Practices Response Policy](#). Such policy reflects the Board's commitment to identifying strategies to improve school climate, including, but not limited to, by responding to challenging behavior and implementing evidence and research-based interventions, including restorative practices. Restorative practices may be implemented by school employees for incidents of challenging behavior, bullying, and/or harassment in the school environment, or other forms of student conflict that is nonviolent and does not constitute a crime.

In addition to addressing challenging behavior in accordance with the Connecticut School Climate Policy and Restorative Practices Response Policy, the District shall address challenging behavior, bullying, and harassment in accordance with the Board's Student Discipline policy and any other applicable Board policy, administrative regulations, and/or school rules.

To report challenging behavior, including bullying, please complete the attached form and return it to the building principal and/or School Climate Specialist.

Title IX Notice of Prohibition of Discrimination on the Basis of Sex

This notice is not the full policy. The District's full Title IX policy and Grievance Procedures are available at: [BOE Policy 5032](#)

It is the policy of the Board of Education (the "Board") for the that any form of sex discrimination or sexual harassment is prohibited in the Board's education programs and

activities, whether by students, Board employees or third parties subject to substantial control by the Board. The Board does not discriminate on the basis of sex in the education programs or activities that it operates and the Board is required by Title IX of the Education Amendments of 1972 and its implementing regulations (“Title IX”) not to discriminate in such a manner. Students, Board employees and third parties are required to adhere to a standard of conduct that is respectful of the rights of students, employees and third parties. Any student or employee who engages in conduct prohibited by this policy shall be subject to disciplinary action, up to and including expulsion or termination, respectively.

For conduct to violate Title IX, the conduct must have occurred in an education program or activity of the Board; the conduct must have occurred within the United States of America; and the complainant must be participating in or attempting to participate in the education program or activity of the Board. Conduct that does not meet these requirements still may constitute a violation of Connecticut law or another Board policy.

Sex discrimination occurs when a person, because of the person’s sex, is denied participation in or the benefits of any education program or activity receiving federal financial assistance.

Sexual harassment under Title IX means conduct on the basis of sex that satisfies one or more of the following:

- (1) An employee of the Board conditioning the provision of an aid, benefit, or service of the Board on an individual’s participation in unwelcome sexual conduct (*i.e., quid pro quo*);
- (2) Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the Board’s education programs or activities; or
- (3) “Sexual assault” as defined in 20 U.S.C. 1092(f)(6)(A)(v), “dating violence” as defined in 34 U.S.C. 12291(a)(10), “domestic violence” as defined in 34 U.S.C. 12291(a)(8), or “stalking” as defined in 34 U.S.C. 12291(a)(30).

It is the express policy of the Board to encourage victims of sex discrimination and/or sexual harassment to report such claims. Students and employees are encouraged to report complaints of sex discrimination and/or sexual harassment promptly in accordance with the appropriate process set forth in the Administrative Regulations. The Board directs its employees to respond to such complaints in a prompt and equitable manner. The Board further directs its employees to maintain confidentiality to the extent appropriate and not tolerate any reprisals or retaliation that occur as a result of the good faith reporting of charges of sex discrimination and/or sexual harassment. Any such reprisals or retaliation will result in disciplinary action against the retaliator, up to and including expulsion or termination as appropriate.

Any Board employee with notice of sex discrimination and/or sexual harassment allegations shall immediately report such information to the building principal and/or the Title IX Coordinator, or if the employee does not work in a school building, to the Title IX Coordinator.

Any individual may make a report of sex discrimination and/or sexual harassment to any Board employee or directly to the Title IX Coordinator using any one, or multiple, of the following points of contact:

Notification of Rights Under FERPA

The District's full policy regarding student records is available at: [BOE Policy 5028](#)

The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, *et seq.*, affords parents and eligible students (*i.e.*, students over 18, emancipated minors, and those attending post-secondary educational institutions) certain rights with respect to the student's education records. They are:

(1) The right to inspect and review the student's education records within forty-five (45) calendar days of the day the District receives a request for access.

Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parents or eligible student of the time and place where the records may be

inspected.

(2) The right to request the amendment of the student's education records that the parents or eligible student believe are inaccurate or misleading, or otherwise violate the student's privacy rights.

Parents or eligible students who wish to ask the District to amend a record should write the school principal, clearly identify the part of the record the parents or eligible student want changed, and specify why it should be changed.

If the District decides not to amend the record as requested by the parents or eligible student, the District will notify the parents or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parents or eligible student when notified of the right to a hearing.

(3) The right to privacy of personally identifiable information in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception that permits disclosure without consent is disclosure to a school official with legitimate interests. A school official is a person employed by the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Education; a person or company with whom the District has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing official tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill the official's professional responsibility.

Upon request, the District discloses a student's education record without consent to officials of another school, including other public schools, charter schools, and post-secondary institutions, in which the student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. Further, and in accordance with state and federal law and guidance, the District may disclose education records to another school for enrollment purposes, which may include exploration of educational placement options by the District or educational placement decisions made by a planning and placement or Section 504 team, or in order to explore placement options for the provision of alternative educational opportunities.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Student Privacy Policy Office

U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-8520

Directory Information

Unless notified in writing by a parent or eligible student to the contrary within two weeks of the date of this notice, the school district will be permitted to disclose “Directory Information” concerning a student, without the consent of a parent or eligible student. Directory Information includes information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, the parent’s name, address and/or e-mail address, the student’s name, address, telephone number, e-mail address, photographic, computer and/or video images, date and place of birth, major field(s) of study, grade level, enrollment status (full-time; part-time), participation in school-sponsored activities or athletics, weight and height (if the student is a member of an athletic team), dates of attendance, degrees, honors and awards received, the most recent previous school(s) attended and student identification numbers for the limited purposes of displaying a student identification card. The student identification number, however, will not be the only identifier used when obtaining access to education records or data. Directory information does not include a student’s social security number, student identification number or other unique personal identifier used by the student for purposes of accessing or communicating in electronic systems unless the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user’s identity, such as a PIN or password.

The school district may disclose directory information about students after they are no longer in enrollment in the school district. Notwithstanding the foregoing, the district will continue to honor any valid objection to the disclosure of directory information made while a student was in attendance unless the student rescinds the objection.

An objection to the disclosure of directory information shall not prevent the school district from disclosing or requiring a student to disclose the student’s name, identified or institutional email address in a class in which the student is enrolled. Parents and/or eligible students may not use the right to opt out of directory information disclosures to prohibit the school district from requiring students to wear or display a student identification card.

The written objection to the disclosure of directory information shall be good for only one school year. School districts are legally obligated to provide military recruiters and institutions of higher learning, upon request, with the names, addresses and telephone numbers of secondary school students, unless the secondary student or the parent of the student objects to such disclosure in writing. Such objection shall be in writing and shall be effective for one school year. In all other circumstances, information designated as directory information will not be released when requested by a third party unless the release of such information is determined by the administration to be in the educational interest of the school district and is consistent with the district’s obligations under both state and federal law.

Management Plan and Guidelines for the Management of Food Allergies, Glycogen Storage Disease and/or Diabetes

This statement is not the full plan. The District's full plan is available at: [BOE Policy 5010](#)

The school district recognizes that food allergies, glycogen storage disease (“GSD”) and diabetes may be life threatening. For this reason, the district is committed to developing strategies and practices to minimize the risk of accidental exposure to life-threatening food allergens and to ensure prompt and effective medical response should a student suffer an allergic reaction while at school. The district is also committed to appropriately managing and supporting students with glycogen storage disease and diabetes. The district further recognizes the importance of collaborating with parents, adult students (defined as students age eighteen (18) and older) and appropriate medical staff in developing such practices and encourages strategies to enable the student to become increasingly proactive in the care and management of the student’s food allergy, glycogen storage disease or diabetes, as developmentally appropriate. To this end, the district adopts the following guidelines related to the management of life-threatening food allergies, glycogen storage disease, and diabetes for students enrolled in district schools.

Identifying Students with Life-Threatening Food Allergies, Diabetes and/or Glycogen Storage Disease

Early identification of students with life-threatening food allergies, diabetes and/or glycogen storage disease is important. The district therefore encourages parents/guardians of students and adult students with life-threatening food allergies to notify the school of the allergy, providing as much medical documentation about the extent and nature of the food allergy as is known, as well as any known effective treatment for the allergy. The district also encourages parents/guardians of students and adult students with GSD and diabetes to notify the school of the disease, providing as much medical documentation about the type of GSD or diabetes, nature of the disease, and current treatment of the student.

Students with life-threatening food allergies and diabetes are virtually always considered students with disabilities and should be referred to a Section 504 team, which will make a final determination concerning the student’s eligibility for services under Section 504 of the Rehabilitation Act of 1973 (“Section 504”). The Section 504 team may determine that the only services needed are in the student’s Individualized Health Care Plan (“IHCP”) and/or Emergency Care Plan (“ECP”); in that case, the IHCP and/or ECP will also serve as the student’s Section 504 plan. The Section 504 team will also ensure that parents receive appropriate notice and are informed of their rights under Section 504, including their right to request an impartial hearing if they disagree with the provisions in the Section 504 plan.

Students with GSD and less severe food allergies should be referred to a Section 504 team if there is reason to believe that the student’s GSD or food allergy substantially limits a major life activity. To determine whether a food allergy is severe enough to substantially limit a major life

activity, the team should consider the impact on the student when the student has been exposed to the allergen and has not yet received treatment.

Major life activities include, but are not limited to:

- (i) Caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, sitting, reaching, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, interacting with others, and working; and
- (ii) The operation of a major bodily function, including functions of the immune system, special sense organs and skin; normal cell growth; and digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine, hemic, lymphatic, musculoskeletal, and reproductive functions. The operation of a major bodily function includes the operation of an individual organ within a body system.

Individualized Health Care Plans and Emergency Care Plans

1. If the district obtains medical documentation that a student has a life-threatening food allergy, GSD, or diabetes, the district shall develop an IHCP for the student. Each IHCP should contain information relevant to the student's participation in school activities.
2. The IHCP shall be developed by a group of individuals, which shall include the parents, the adult student, if applicable, and appropriate school personnel. Such personnel may include, but are not limited to, the school nurse, school or food service administrator(s), classroom teacher(s) and the student, if appropriate. The school may also consult with the school's medical advisor, as needed.
3. IHCPs are developed for students with special health needs or whose health needs require daily interventions. The IHCP describes how to meet the student's health and safety needs within the school environment and should address the student's needs across school settings. Information to be contained in an IHCP should include a description of the functional health issues (diagnoses); student objectives for promoting self-care and age-appropriate independence; and the responsibilities of parents, school nurses and other school personnel. The IHCP may also include strategies to minimize the allergic student's risk for exposure. For the student with life-threatening food allergies, GSD, or diabetes, the IHCP may include strategies designed to ameliorate risks associated with such disease and support the student's participation in the classroom. IHCPs for such students may include considerations such as:
 - a. classroom environment, including allergy-free considerations, or allowing the

- student with GSD or diabetes to have food/dietary supplements when needed;
 - b. cafeteria safety;
 - c. participation in school nutrition programs;
 - d. snacks, birthdays and other celebrations;
 - e. alternatives to food rewards or incentives;
 - f. hand-washing;
 - g. location of emergency medication;
 - h. who will provide emergency and routine care in school, including monitoring of continuous glucose monitor (CGM) alerts as may be appropriate, in school;
 - i. risk management during lunch and recess times;
 - j. special events;
 - k. field trips, fire drills and lockdowns;
 - l. extracurricular activities;
 - m. school transportation;
 - n. the provision of food or dietary supplements by the school nurse, or any school employee approved by the school nurse;
 - o. staff notification, including substitutes, and training; and
 - p. transitions to new classrooms, grades and/or buildings.
- 4. The IHCP should be reviewed annually, or whenever there is a change in the student's ECP, changes in self-monitoring and self-care abilities of the student, or following an emergency event requiring the administration of medication or the implementation of other emergency protocols.
- 5. For a student with a life-threatening food allergy, GSD, or diabetes, the IHCP shall not prohibit a parent or guardian, or a person designated by such parent or guardian, to provide food or dietary supplements to a student with a life-threatening food allergy, GSD, or diabetes on school grounds during the school day.
- 6. In addition to the IHCP, the district shall also develop an ECP for each student identified as having a life-threatening food allergy. The ECP is part of the IHCP and describes the specific directions about what to do in a medical emergency. For the student with a life-threatening food allergy, the ECP should include the following information:
 - a. The student's name and other identifying information, such as date of birth, grade and photo;
 - b. The student's specific allergy;
 - c. The student's signs and symptoms of an allergic reaction;
 - d. The medication, if any, or other treatment to be administered in the event of exposure;
 - e. The location and storage of the medication;
 - f. Who will administer the medication (including self-administration options, as

- appropriate);
 - g. Other emergency procedures, such as calling 911, contacting the school nurse, and/or calling the parents or physician;
 - h. Recommendations for what to do if the student continues to experience symptoms after the administration of medication; and
 - i. Emergency contact information for the parents/family and medical provider.
7. In addition to the IHCP, the district shall also develop an ECP for each student identified as having GSD and/or diabetes. The ECP is part of the IHCP and describes the specific directions about what to do in a medical emergency. For the student with GSD or diabetes, the ECP should include the following information, as may be appropriate:
- a. The student's name and other identifying information, such as date of birth, grade and photo;
 - b. Information about the disease or disease specific information (*e.g.*, type of GSD or diabetes);
 - c. Whether the student uses a CGM, and how the CGM will be monitored in school;
 - d. The student's signs and symptoms of an adverse reaction (such as hypoglycemia);
 - e. The medication, if any, or other treatment to be administered in the event of an adverse reaction or emergency (*e.g.*, Glucagon or insulin);
 - f. The location and storage of the medication;
 - g. Who will administer the medication (including self-administration options, as appropriate);
 - h. Other emergency procedures, such as calling 911, contacting the school nurse, and/or calling the parents or physician;
 - i. Recommendations for what to do if the student continues to experience symptoms after the administration of medication; and
 - j. Emergency contact information for the parents/family and medical provider.
8. In developing the ECP, the school nurse should obtain current medical documentation from the parents/family and the student's health care provider, including the student's emergency plan and proper medication orders. If needed, the school nurse or other appropriate school personnel, should obtain consent to consult directly with the student's health care providers to clarify medical needs, emergency medical protocols and medication orders.
9. A student identified as having a life-threatening food allergy, GSD, or diabetes is entitled to an IHCP and an ECP, regardless of the student's status as a student with a disability, as that term is understood under Section 504, or the Individuals with Disabilities Education Act ("IDEA").
10. The district shall ensure that the information contained in the IHCP and ECP is

distributed to any school personnel responsible for implementing any provisions of the IHCP and/or ECP, and that any procedures in the IHCP and/or ECP comply with the district's policies and procedures regarding the administration of medications to students.

11. When making eligibility determinations under Section 504 and/or the IDEA, schools must consider the student's needs on an individualized, case-by-case basis.

Training/Education

1. The district shall provide appropriate education and training for school personnel regarding the management of students with life-threatening food allergies, GSD and diabetes. Such training may include an overview of life-threatening food allergies, GSD and diabetes; prevention strategies; IHCPs and ECPs; monitoring of blood glucose alerts transmitted by the CGM of the student to a dedicated receiver, tablet/smartphone application, or other appropriate technology during the school day and during school-sponsored activities; and food safety and sanitation. Training shall also include, as appropriate for each school (and depending on the specific needs of the individual students at the school), training in the administration of medication with cartridge injectors (*e.g.*, epi-pens), and/or the specific preventative strategies to minimize the risk of exposure to life-threatening allergens and prevent adverse reactions in students with GSD and diabetes (such as the provision of food or dietary supplements for students). School personnel will be also be educated on how to recognize symptoms of allergic reactions and/or symptoms of low blood sugar, as seen with GSD and diabetes, and what to do in the event of an emergency. Staff training and education will be coordinated by the District Nurse Coordinator. Any such training regarding the administration of medication shall be done in accordance with state law and Board policy.
2. Each school within the district shall also provide age-appropriate information to students about food allergies, GSD and diabetes, how to recognize symptoms of an allergic reaction and/or low blood sugar emergency and the importance of adhering to the school's policies regarding food and/or snacks.

Prevention

Each school within the district will develop appropriate practices to minimize the risk of exposure to life-threatening allergens, as well as the risks associated with GSD and diabetes. Practices that may be considered include, but are not limited to:

1. Encouraging handwashing;
2. Discouraging students from swapping food at lunch or other snack/meal times;
3. Encouraging the use of non-food items as incentives, rewards or in connection with celebrations;

4. Training staff in recognizing symptoms of anaphylaxis and hypoglycemia; and
5. Planning for school emergencies, to include consideration of the need to access medication, food and/or dietary supplements.

Notice of Parent/Student Rights Under Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans With Disabilities Act of 1990

The District's full policy regarding Section 504 and the ADA is available at: [BOE Policy 5024](#)

Section 504 of the Rehabilitation Act of 1973 ("Section 504") is a non-discrimination statute enacted by the United States Congress. Section 504 prohibits discrimination on the basis of disability by recipients of federal funds. Title II of the Americans with Disabilities Act ("ADA" or "Title II") also prohibits discrimination on the basis of disability by state and local governments. To be protected under Section 504 and the ADA ("collectively, "Section 504/ADA") as an individual with a disability, an individual must (1) have a physical or mental impairment that substantially limits one or more major life activities; (2) have a record of such an impairment; or (3) be regarded as having such an impairment.

Under Section 504, the District has specific responsibilities to identify, evaluate and provide an educational placement for students with a disability. The District's obligation includes providing such eligible students a free appropriate public education ("FAPE"). Section 504 defines FAPE as the provision of regular or special education and related services that are designed to meet the individual educational needs of a student with a disability as adequately as the needs of students without disabilities are met, and that are provided without cost (except for fees similarly imposed on nondisabled students/parents).

A student is eligible for regular or special education and related services under Section 504 if it is determined that the student has a mental or physical disability that substantially limits one or more major life activity such as (but not limited to): caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating or working. A major life activity may also include the operation of a major bodily function, such as an individual's immune, digestive, respiratory or circulatory systems.

A student can have a disability and be covered by Section 504/ADA even if the student does not qualify for, or receive, special education services under the IDEA.

The purpose of this notice is to provide parents/guardians and students 18 years of age or older with information regarding their rights under Section 504. Under Section 504, you have the right:

1. To be informed of your rights under Section 504;

2. To have your child take part in and receive benefits from the District's education programs without discrimination based on his/her disability;
3. For your child to have equal opportunities to participate in academic, nonacademic and extracurricular activities in your school without discrimination based on your child's disability;
4. To be notified of decisions and the basis for decisions regarding the identification, evaluation, and educational placement of your child under Section 504;
5. If you suspect your child may have a disability, to request an evaluation, at no expense to you and to have an eligibility determination under Section 504 (and if eligible, placement decisions made) by a team of persons who are knowledgeable of your child, the assessment data, and any placement options;
6. If your child is eligible for services under Section 504, for your child to receive a free appropriate public education (FAPE). This includes the right to receive regular or special education and related services that are designed to meet the individual needs of your child as adequately as the needs of students without disabilities are met;
7. For your child to receive reasonable accommodations and services to allow your child an equal opportunity to participate in school, extra-curricular and school- related activities;
8. For your child to be educated with peers who do not have disabilities to the maximum extent appropriate;
9. To have your child educated in facilities and receive services comparable to those provided to non-disabled students;
10. To review all relevant records relating to decisions regarding your child's Section 504 identification, evaluation, and educational placement;
11. To examine or obtain copies of your child's educational records at a reasonable cost unless the fee would effectively deny you access to the records;
12. To request changes in the educational program of your child, to have your request and related information considered by the team, a decision made by the team, and if denied, an explanation for the team's decision/determination;
13. To request an impartial due process hearing if you disagree with the District's

decisions regarding your child's Section 504 identification, evaluation or educational placement. The costs for this hearing are borne by District. You and the student have the right to take part in the hearing and to have an attorney represent you at your expense;

14. To file a local grievance/complaint with the District's designated Section 504 Coordinator to resolve complaints of discrimination including, but not limited to, claims of discrimination directly related to the identification, evaluation or placement of your child; and
15. To file a formal complaint with the U.S. Department of Education, Office for Civil Rights.

Notification Regarding Student Attendance

This notification is not the full policy. The District's full Attendance policy is available at: [BOE Policy 5003](#)

Regular and punctual student attendance is essential to the educational process. Connecticut General Statutes Section 10-184 provides that “each parent or other person having control of a child five years of age and over and under eighteen years of age shall cause such child to attend a public day school regularly during the hours and terms the public school in the district wherein such child resides is in session, unless such child is a high school graduate or the parent or person having control of such child is able to show that the child is elsewhere receiving equivalent instruction in the studies taught in the public schools.... [A] student who is eighteen years of age or older may withdraw from school. Such parent, person or student shall personally appear at the school district office and sign a withdrawal form. Such withdrawal form shall include an attestation from a guidance counselor, school counselor or school administrator of the school that such school district has provided such parent, person or student with information on the educational options available in the school system and community. The parent or person having control of a child seventeen years of age may withdraw such child from school and enroll such child in an adult education program pursuant to Connecticut General Statutes section 10-69. Such parent or person shall personally appear at the school district office and sign an adult education withdrawal and enrollment form. Such adult education withdrawal and enrollment form shall include an attestation (1) from a school counselor or school administrator of the school that such school district has provided such parent or person with information on the educational options available in the school system and in the community, and (2) from such parent or person that such child will be enrolled in an adult education program upon such child's withdrawal from school. The parent or person having control of a child five years of age shall have the option of not sending the child to school until the child is six years of age and the parent or person having control of a child six years of age shall have the option of not sending the child to school until the child is seven years of age. The parent or person shall exercise such option by personally appearing at the school district office and signing an option form. The school district shall provide the parent or person with information on the educational opportunities available in the school system.”

In order to assist parents and other persons in meeting this responsibility, the Board of Education (the “Board”) monitors unexcused student absences and makes reasonable efforts to notify parents or other persons by contacting them when a student fails to report to school. State law provides that any person who, in good faith, gives or fails to give such notice shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding which results from such notice or failure to give such notice. The Board, therefore, must obtain a telephone number or other means of contacting parents or other persons during the school day.

Attendance/Excused Absences

Regular and punctual student attendance in school is essential to the educational process. Connecticut state law places responsibility for assuring that students attend school with the parent or other person having control of the child. To assist parents and other persons in meeting this responsibility, the administration has adopted and maintains procedures to implement the Board's policy.

Students and families are encouraged to consult the District's policy and regulations related to student attendance ([link above](#)) which address, among other things, attendance and truancy and incorporate the following terms:

“Absence” - any day during which a student is not considered “in attendance” at the student's assigned school and/or participating in an activity sponsored by the school (*e.g.*, field trip) for at least half of the regular school day.

“Excused absence” - a student is considered excused from school if the school has received written documentation describing the reason for the absence within ten (10) school days of the student's return to school, or if the student has been excluded from school in accordance with Conn. Gen. Stat. § 10-210 (regarding communicable diseases), and the following criteria are met:

- a. Any absence before the student's tenth (10th) absence is considered excused when the student's parent/guardian approves such absence and submits appropriate written documentation in accordance with District regulations.
- b. For the student's tenth (10th) absence and all absences thereafter, a student's absences from school are, with appropriate documentation in accordance with this regulation, considered excused only for the following reasons:
 - i. student illness (verified by an appropriately licensed medical professional);
 - ii. religious holidays;
 - iii. mandated court appearances (documentation required);
 - iv. funeral or death in the family, or other emergency beyond the control of the student's family;
 - v. extraordinary educational opportunities pre-approved by the District administrators and in accordance with Connecticut State Department of Education guidance and District regulations; or
 - vi. lack of transportation that is normally provided by a District other than the one the student attends.
- c. A student, age five (5) to eighteen (18), inclusive, whose parent or legal guardian is an active duty member of the armed forces who has been called for

duty, is on leave from or has immediately returned from deployment to a combat zone or combat support posting, shall be granted ten (10) days of excused absences in any school year, and, in the discretion of the administration, additional excused absences to visit such student's parent or legal guardian with respect to the parent's leave or deployment. In the case of such excused absences, the student and parent or legal guardian are responsible for obtaining assignments from the student's teacher prior to any period of excused absence, and for ensuring that such assignments are completed by the student prior to the student's return to school.

"In attendance" - any day during which a student is present at the student's assigned school, and/or participating in an activity sponsored by the school (*e.g.*, field trip) for at least half of the regular school day.

"Mental health wellness day" - a school day during which a student attends to such student's emotional and psychological well-being in lieu of attending school.

Any student enrolled in grades kindergarten to twelve, inclusive, shall be permitted to take two mental health wellness days during the school year, during which day such student shall not be required to attend school. No student shall take mental health wellness days during consecutive school days. Mental health wellness days shall be excused when permission by the student's parent/guardian is documented by the student's school, regardless of the number of absences a student has accrued in the school year. Mental health wellness days will not be included in reporting or referrals related to truancy. Mental health wellness day will count as an "absence" for determining chronic absenteeism.

"Truant" - any student five (5) to eighteen (18) years of age, inclusive, who has four (4) unexcused absences from school in any one month or ten (10) unexcused absences from school in any school year.

"Unexcused absence" - any absence from a regularly scheduled school day for at least one half of the school day, which is not excused or considered a disciplinary absence.

The determination of whether an absence is excused will be made by the building principal or designee. Parents or other persons having control of the child may appeal that decision to the Superintendent or designee, whose decision shall be final.

Wellness

This notification is not the full policy. The District's full Wellness policy is available at:

[BOE Policy 5035](#)

It is the policy of the Board of Education (the "Board") to promote the health and well-being of district students. In furtherance of this policy, the Board has created an Advisory Council on Wellness ("Advisory Council") to review available state or federal guidance on wellness issues

and to assist in formulating recommendations for specific goals and guidelines aimed at promoting lifelong wellness practices among district students. This Advisory Council involves parents, students, representatives from the school food authority (i.e., any private company employed to provide food services), teachers of physical education, school health professionals, school administrators, the Board, and members of the public and may also involve Supplemental Nutrition Assistance Program (“SNAP”) coordinators or educators. The Advisory Council will be involved in the development and implementation of the policy, the triennial assessment and periodic updating of the policy.

The Board, following consultation with the Advisory Council, has adopted goals and guidelines in order to promote student wellness. The goals and guidelines are available in the full Wellness policy, linked above.

Oversight of the Wellness Policy

The Board shall designate the Superintendent to be responsible for the oversight of the district’s wellness program. The Superintendent will be responsible for ensuring that the goals and guidelines relating to nutrition education, physical activity, school-based wellness activities and nutritional value of school-provided food and beverages are met, that there is compliance with the wellness policy, and that all school policies and school-based activities are consistent with the wellness policy.

Triennial Assessment

At least every three years, the Board will measure and make available to the public an assessment on the implementation of the wellness policy. In this triennial assessment, the Board will indicate the extent to which district schools are in compliance with the wellness policy and how the Board’s wellness policy compares with model school wellness policies. In addition, the triennial assessment will provide a description of the progress made in attaining the goals of the wellness policy.

Informing and Updating the Public

In accordance with federal law and applicable regulations, the Board will inform and update the public (including parents, students and others in the community) about the content and implementation of its wellness policy as well as the results of the Triennial Assessment

Notification Concerning Asbestos Management Plan

The Board of Education (the “Board”), in compliance with federal law, has developed an asbestos management plan, concerning the presence or suspected presence of asbestos-type materials within district school buildings, and required inspections and preventive measures related thereto. In accordance with federal law, members of the public, including parents,

teachers and other employees, shall be permitted access to the asbestos management plan of the Board.

Upon request, the district shall permit members of the public, including parents, teachers and other employees, to inspect any asbestos management plan. The district shall grant access to such management plans within five working days after receiving a request from a member of the public.
