# Back to School

Welcome back to the 26-27 school year. We are hoping this school year will be filled with fun and excitement for all. This year we look forward to a lot of sports again, including a girls basketball team for the second year. Many music related activities to continue. The student council is continuing to plan fun events for students and staff. Even though many have to do state testing we hope the fun will keep you from stressing too much. We wish everyone the best school year possible.

# Harmony Fair

The opening ceremony was on Tuesday September 22nd 2026. The harmony choir opened the fair and followed by that was the Northern Cambria Community band and the rides opening up at 6.

Wednesday and Thursday not much went on except the tractor pulls and some singers on stage.

Friday was a fair day to all the kids in harmony. All the kids at harmony got to go over to the fair at 12:00. So many kids rode rides and enjoyed the fair. There were also truck pulls later that night at 7:00pm.

Saturday was the Harmony parade with the Harmony band in front and a whole bunch of tractors and fire stations all from Westover, Mahaffy, and Cherry tree.

There were tractor pulls for the kids early Saturday morning.

There was no fee getting into the harmony fair but if you paid the \$5 fee to park or \$25 for the week then that money that was raised got to go to the senior class trip and juniors for prom.

# Elementary Fire Prevention

Elementary students recently participated in an important fire prevention and safety lesson designed to teach them how to stay safe during a fire emergency. The presentation covered several important topics, including firefighter gear, fire safety, and how to properly call 911.

One of the most interesting parts of the lesson was learning about firefighter gear. Students learned about the protective clothing firefighters wear, including their helmets, coats, gloves, boots, and air tanks. They learned that this equipment protects firefighters from heat, smoke, and other dangers while they work.

The students also learned about fire safety at home and at school. They were reminded to never play with matches, lighters, or other materials that can start a fire. They also learned the importance of having smoke alarms and knowing multiple ways to safely exit a building .

Another important topic was calling 911. Students learned that 911 should only be called during a real emergency. They were taught to stay calm, clearly explain what happened, and give the dispatcher their location. Students also learned that they should never hang up until the dispatcher tells them to do so.

The lesson helped students understand that firefighters do more than put out fires. They also work to prevent fires and educate the community about staying safe. By learning these important skills at a young age, students can be better prepared to protect themselves and others during an emergency.

Overall, the fire prevention lesson was both educational and engaging. Students left with a better understanding of fire safety, firefighter equipment, and what to do if an emergency occurs.
