HAZLETON AREA SCHOOL DISTRICT NEWSLETTER

SEPTEMBER/OCTOBER 2026

HAZLETON AREA SCHOOL DISTRICT

Dear staff, students, and families,

As we began this school year, I want to extend a warm welcome to every member of our school community. Each of you brings experiences, hopes, strengths, and perspectives that help make our schools places of learning, care, and belonging.

The first two months of school have given us many opportunities to reconnect, settle into new routines, and begin the important work of growing together. Thank you for the energy, patience, and care you have brought to this shared beginning. Across our community, we have seen the steady work of learning take shape. Students have challenged themselves, asked questions, practiced new skills, and supported one another. Staff have guided, encouraged, adapted, and created the conditions for students to feel known and able to learn. Families have partnered with our schools in ways that strengthen the connection between home and school.

These first weeks have also reminded us that progress is built through relationships. In classrooms, hallways, activities, and everyday moments, we are learning more about one another and building trust. Every act of perseverance, welcome, collaboration, and kindness contributes to our shared accomplishments.

As the holidays approach, I am especially grateful for this community and for the many ways you help one another feel valued and included. This season can be a meaningful time to practice kindness, make room for connection, and notice those who may need extra care or encouragement.

Families and loved ones celebrate in different ways, and every tradition, observance, and choice deserves respect. Whatever this time of year looks like for you, I hope it offers opportunities for rest, reflection, and meaningful time with the people who matter to you.

May we carry the spirit of gratitude, belonging, and shared purpose with us as we continue the school year. Let us return ready to keep learning, keep listening, and keep building a community where every student, staff member, and family feels welcome and supported.

Thank you for all that you do to make our schools stronger and more caring places. I am grateful to begin this year with you and encouraged by all we will continue to accomplish together.

With gratitude,

ARTHUR STREET

Arthur Street Elementary School recently brought the joy of reading to life with a special Build-A-Bear reading activity designed to encourage students to develop a love of reading and continue reading at home.

Under the direction of interventionists Angela Hoffman and Tara Masias along with the Build-A-Bear representatives, parent and caregivers were invited into the school to participate alongside their children in the memorable experience. Students had the opportunity to create a special connection between reading and home by receiving a cuddly new companion to become their very own reading buddy. Each student was gifted a bear and book, creating a perfect pair for reading adventures at home.

The bears will serve as reading buddies, encouraging students to curl up with a good book, practice reading skills at home, and make reading a regular part of their home routine. The event provided more than just a fun activity- it created an opportunity for families to share in their children's learning and reinforced the important message that reading at home matters.

A special thank-you goes out to Michelle Zukoski, Director of Federal Programs, for bringing this wonderful program to Arthur Street Elementary. Arthur Street Elementary is proud to support literacy and looks forward to seeing students gain a love for reading!

ARTHUR STREET

Arthur Street Elementary School recently delighted second-grade students and their parents with a special magic show that brought the wonder of science to life. Under the direction of the interventionists Angela Hoffman and Tara Masias, Joe Romano presented an engaging and entertaining program that connected magic tricks with fascinating scientific principles.

Students had the opportunity to watch, participate, and discover the science behind the magic, making learning both exciting and memorable. The event provided a fun interactive way for students and families to explore how science can be found in unexpected- and sometimes even in a little bit of magic.

A special thank you goes out to Michelle Zukoski, Director of Federal Programs, for helping make this exciting learning experience possible.

DRUMS

Our first-grade students had a very special surprise today—they each received their very own Build-A-Bear reading buddy! 🧸✨

Each student was given a bear, a book, and a special box to take home. Before sending their new friend home, students placed a little heart inside the box, symbolizing the love and joy that comes from reading and having a special reading buddy. ❤️📖

We hope these adorable bears become the perfect companions for bedtime stories, quiet reading time, and countless adventures through the pages of a book! 🥰📚

Thank you Dr. Zukoski for this opportunity!

FREELAND

On Friday, September 18, our first-grade students enjoyed a fun-filled Build-A-Bear Family Literacy Event. Students created their own stuffed bears while families participated in literacy activities together. Parents also learned practical strategies to support reading at home and help their children become successful readers. The event was a wonderful opportunity for students and families to learn together while reinforcing the important connection between home and school. Students also received a surprise visit from the FEMS mascot Wally!!!

HEIGHTS

First grade students at Heights-Terrace Elementary/Middle School enjoyed an unforgettable literacy experience when Build-A-Bear Workshop® visited to help them create their very own reading buddies! Funded through Parent & Family Engagement funds, this hands-on event welcomed parents and family members into the classroom to assist their children in designing a special stuffed friend that will become a partner in reading success.

This exciting event strengthened home-school connections, fostered a love of reading, and empowered families to play an active role in their child's educational journey. Together, students, parents, and reading buddies are creating lifelong readers, one story at a time!

ELC

On September 17, 2026, first-grade students at the Hazle Township Early Learning Center participated in a Title I federally funded Build-A-Bear Workshop. This event was organized to promote literacy and encourage a love of reading among young children. Families were invited to participate in this unique activity, which supported both literacy development and social-emotional learning.

During the workshop, parents and children read books to their newly created bears. The books and bears were provided by Title I funding. The event encouraged families to read with their children at home and to play an active role in their child's education. We know that family reading helps children develop strong literacy skills while creating meaningful connections between school and home. This sets the foundation for future academic and social success. Parents also learned new strategies to support reading and learning at home and become active partners in their child's education.

BUILD A BEAR 2026

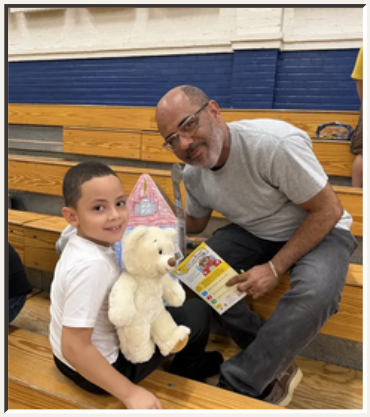

WEST HAZLETON

1st grade students and their families at the annual Build A Bear event at West Hazleton Elementary Middle School.

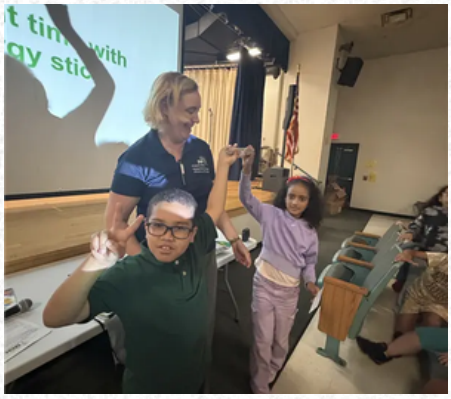

WEST HAZLETON

On Friday, third grade students at West Hazleton Elementary participated in the PPL Electric Utilities Bright Kids Program. The program teaches students about energy conservation and ways to save energy at home. As part of the experience, each student received a free energy-saving kit containing supplies that families may choose to use in their homes. Students enjoyed learning practical tips to help conserve energy and make a positive impact on the environment.

WEST HAZLETON

On Tuesday, October 6, 2026, fourth and fifth grade students and their families enjoyed an engaging and educational presentation by Joe Romano, who combined science and magic to create an unforgettable learning experience.

During the program, parents and students discovered ways to reinforce and promote science in their everyday lives. Through interactive demonstrations, they learned how scientific inquiry extends beyond the science classroom and can be applied to all subjects assessed on the PSSA.

The presentation emphasized the importance of critical thinking skills, including making predictions and drawing inferences. Students and parents explored how these strategies can support success in science, mathematics, and reading, while also helping them make informed decisions in everyday situations.

Joe Romano's entertaining blend of science and magic inspired students and families to view learning as a fun, hands-on process and encouraged them to continue exploring the world around them through curiosity and inquiry.

WEST HAZLETON

On Tuesday, October 13, 2026, third-grade parents and family members at West Hazleton Elementary/Middle School participated in a special Literacy and Art Program centered on the novel Third Grade Angels. Students and their families made meaningful connections between the story and their own lives, reflecting on the importance of perseverance, kindness, and personal growth. Following the literacy activity, participants expressed their aspirations through art by creating “Reach for the Stars” paintings. Each painting symbolized the students' commitment to achieving their literacy goals and reaching their full potential as readers and learners. The event provided a wonderful opportunity for families to engage in learning together while celebrating creativity, literacy, and student success.

WEST HAZLETON

On November 5, 2026, author Heidi Mottin and her rescue dog, Jax, visited the second-grade students at West Hazleton Elementary/Middle School. Through her book, Rescuing Reed, Heidi shared a powerful message that everyone has worth and a purpose. She emphasized the importance of love, compassion, and second chances, showing students how even small acts of kindness can make a meaningful difference in the lives of others.

Heidi also highlighted the importance of literacy by discussing her journey as an author and explaining the process of writing and publishing her own book. Students were fascinated to learn how an idea becomes a story and enjoyed hearing about her writing experiences.

The presentation was a wonderful success, and second-grade students and their families thoroughly enjoyed meeting Heidi and Jax. The visit inspired young readers while reinforcing valuable lessons about kindness, perseverance, and making a positive impact on the world around them.

HAZLETON ELEMENTARY MIDDLE SCHOOL

On Wednesday, October 7, Ohio's Historical Archaeological Society brought their Natural History Adventure Traveling Museum to Hazleton Elementary Middle School for a presentation about dinosaurs and fossils for our third through fifth grade classes. Corrina Barati from the Archaeological Society started the program with a presentation about dinosaurs in front of a volcano scene where they were able to inspect real dinosaur relics. After the presentation was over, the students had the opportunity to explore various hands on stations and learn about dinosaur alley rocks, fossils, insects and plant lifecycles. They also got to make a dinosaur rub that they got to take home with them.

Pictured are Mrs. Bogansky's 4th Grade Class in front of the volcano scene.
Pictured are Dayanari Argueta and Lionel Paz inspecting the dinosaur alley rocks.
Pictured are Rosely Solares and Ariana Nunez looking at fossils.

HAZLETON ELEMENTARY MIDDLE SCHOOL

On Thursday, October 15, our fourth graders learned about the butterfly life cycle, complete with exploring caterpillars and feeding butterflies. Our annual butterfly program presented by the Folk family of Folk's Butterfly Farm was a huge success!

MAPLE MANOR

Mrs. Correll's 4th grade reading class read about natural disasters this week. The class participated in a building challenge "Marshmallow Disaster Challenge"
Each student drew blueprints for a building idea that would withstand a classroom earthquake. The students then had 15 minutes to use marshmallows and toothpicks for the build. Everyone did an amazing job learning what the vocabulary words meant. Some words were "Alter, Collapse, Destruction, Unpredictable, and Severe".

MAPLE MANOR

MMEMS LIBRARY boogie EDUCATIONAL MUSICAL AND READING Program for 3rd grade Students and families

MAPLE MANOR

MMEMS parent and students Learned about Fire Prevention on Tuesday, October 13th, 2026. Thank you to the Hazleton and Hazle Township Fire departments for an informative and interactive day. Parents and students listened to an educational assembly teaching them about fire safety in their homes. Then, Parents were invited into the classrooms while firefighters read to the students and families and answered questions. The program was concluded with a tour of the fire trucks while applying new knowledge of what they read in the classroom and learned from the assembly.

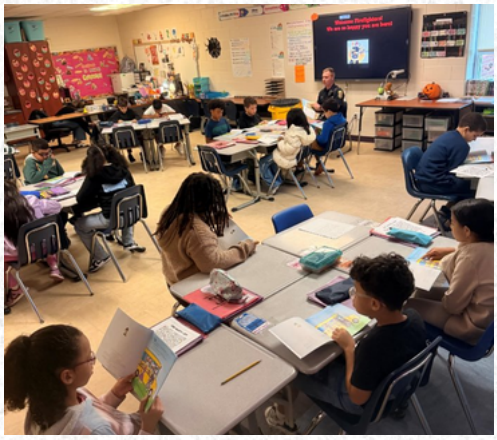

MAPLE MANOR

MMEMS Fire safety Parent engagement Program Integrating Reading in the Classroom

Title I Federal programs purchased fictional leveled books and BookMarks about fire Safety for all 3rd grade students.

MAPLE MANOR

MMEMS LIBRARY boogie EDUCATIONAL MUSICAL AND READING Program for 3rd grade Students and families

all families were engaged with their child learning about different genres of books and songs to go along with reading while learning ways to explore at home. This program kicked off the school year promoting literacy to all children while getting them excited to learn and read with their parents.

MAPLE MANOR

Students, parents, and families in grades 3rd through 6th grade enjoyed an educational, engaging, and interactive performance on Thursday, October 8th at Maple Manor Elementary Middle School. Parents and families learned about physical and chemical science while distinguishing between science or magic. Students participated on stage and observed examples of how to explore science at home. Joe Romano has been a crowd favorite over the years bringing our school and families together!

MMEMS 3rd grade Title I Parent engagement program Celebrating October Fire Prevention Month through reading in the classroom and at home.

MCADOO

On November 4th, 2026, McAdoo-Kelayres Elementary Middle School welcomed approximately 100 parents/guardians to the parent engagement activity “Is it Magic or Science?” by Joe Romano held for students in grades 3-6.

This event is organized by MKEMS interventionists and funded through Title 1; this interactive program was designed to bring families together through the power of science. Parents and students explored how science is found in our everyday lives and discovered how learning science can be both magical and meaningful.

FREELAND

Our 4th, 5th, and 6th grade students, along with their parents, enjoyed an exciting presentation by Joe Romano, Is It Magic or Science? Through fun demonstrations and audience participation, students discovered how science can explain things that seem like magic. The program encouraged curiosity, critical thinking, and a love of learning while showing that science is all around us. It was an engaging and memorable experience for everyone!

HEIGHTS

The Joe Romano Science Show, Is It Magic or Science?, was an exciting and engaging educational event for 4th- and 5th-grade students and their families at HTEMS. More than 100 parents attended with their children, making it a wonderful opportunity for parent engagement & the home-school connection.

. Through a series of entertaining demonstrations, Joe Romano combined science and mystery to spark curiosity and encourage critical thinking. Students and parents alike were actively involved, discovering the science behind seemingly magical experiments. The show provided a fun and memorable learning experience that inspired a greater appreciation for science while bringing families together for an afternoon of exploration and discovery.

EARLY LEARNING CENTER

On October 5, 2026, second-grade students at the Hazle Township Early Learning Center participated in a Title I federally funded parent engagement program, Joe Romano's Is it Magic or Science? This event was organized to promote literacy within science and encourage a love of reading and STEM activities among young children. Families were invited to participate in and enjoy this unique activity with their children.

During the program, science and STEM vocabulary were taught to the children as they enjoyed learning it through the tricks of science. Each student received a book provided by Title I funding that was science related to take home and read with their families. The event encouraged families to read with their children, review vocabulary, and play an active role in their child's education.

EARLY LEARNING CENTER

On November 6, 2026, Kindergarten students at the Hazle Township Early Learning Center participated in a Title I federally funded parent engagement program, Decoding and Donuts. This event was organized to promote confidence in learning how to read by teaching the students how to decode words through segmenting and blending them. Families were invited to learn ways to help their children decode words at home to help build a successful foundation for reading.

During the program, students were taught how to segment words into phonemes and blend them back together to create a complete word. The students used magnetic tile boards to practice these skills. In addition, the students learned a song that reminded them how to segment and blend words. Title I funding provided each student with a delicious donut treat and a book to take home and read with their families. The event encouraged families to read with their children, review vocabulary, and play an active role in their child's education.

ECOLOGY CLUB COMPLETES FALL CAMPUS CLEANUP

Twelve students and two teachers from the high school Ecology Club spent about an hour on the afternoon of Wednesday, Oct. 21 tackling litter in the high-traffic areas around campus.

The group stuck to the busiest zones, working the main entrance, bus loop, and areas around the back and side of the school. Armed with gloves and trash bags, they picked up wrappers, bottles and paper scattered along walkways and near doorways where foot traffic is heaviest.

When asked what they picked up the most, they all agreed that it was candy wrappers and lollipop sticks.

SECURITY OFFICER APPRECATION

ECOLOGY CLUB FUNDRAISER

HAZLETON ROTARY CLUB

The Hazleton Rotary provides a variety of philanthropic sponsorships and events throughout the year to support our community and at times these efforts directly benefit our students.

Rotary purchased approx. 800 coats in fall 2025 to be given to students, partnered with the City of Hazleton Parks and Recreation and HIP to provide funds to support an Elementary Basketball Program, provided gifts for children at Christmas. In the springtime, several significant scholarships are provided to graduating seniors each year to support students attending four-year post-secondary school and toward further education in technical fields. Additionally, the club sponsors the full cost of several high school students to attend an overnight, multiple day leadership experience at a college with students from other school districts in Northeastern Pennsylvania. The Rotary Club works throughout the year to make a positive contribution to our community, and these are just a few student specific examples.

Rotary raises funds to be able to make these programs happen. One of these fundraisers is the Lotto Calendar Card. 1000 tickets will be sold with winners each day of 2027.

How does it work?

If the 3-digit number comes up in 2027 in the evening drawing for the ticket purchased, a check will be sent in the mail. Some days winners receive $25, Sundays $30 and special holidays $100. One can win as many times as the number is drawn. Over $10,000 will be sent out throughout the year with the remaining money going to philanthropic projects.

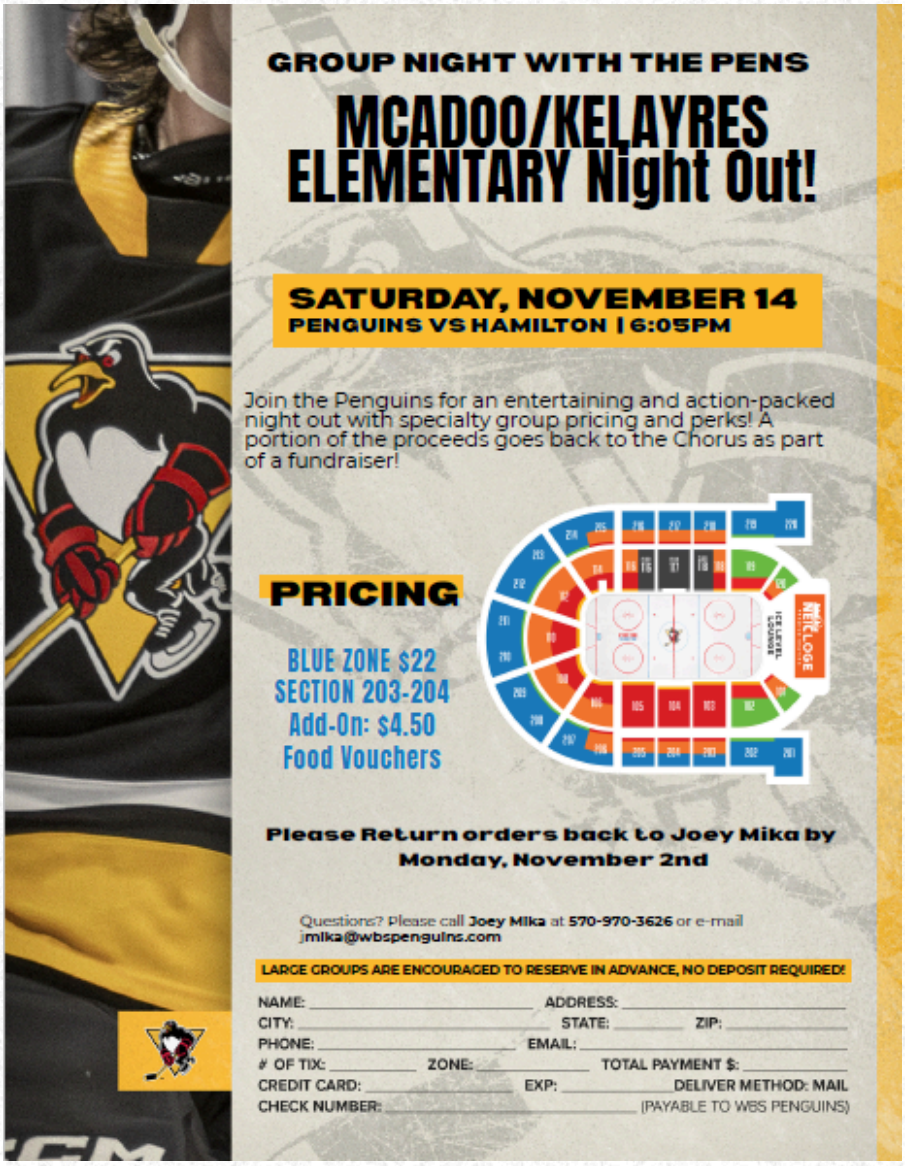

These tickets are fun to have surprise money arrive in the mail and to give as gifts with the holidays approaching.

Cost: $20 (Cash or Check made out to Rotary Club of Hazleton)

If anyone is interested in purchasing a ticket, you are welcome to email me at roslevegea@hasdk12.org and I can arrange to get you a ticket.

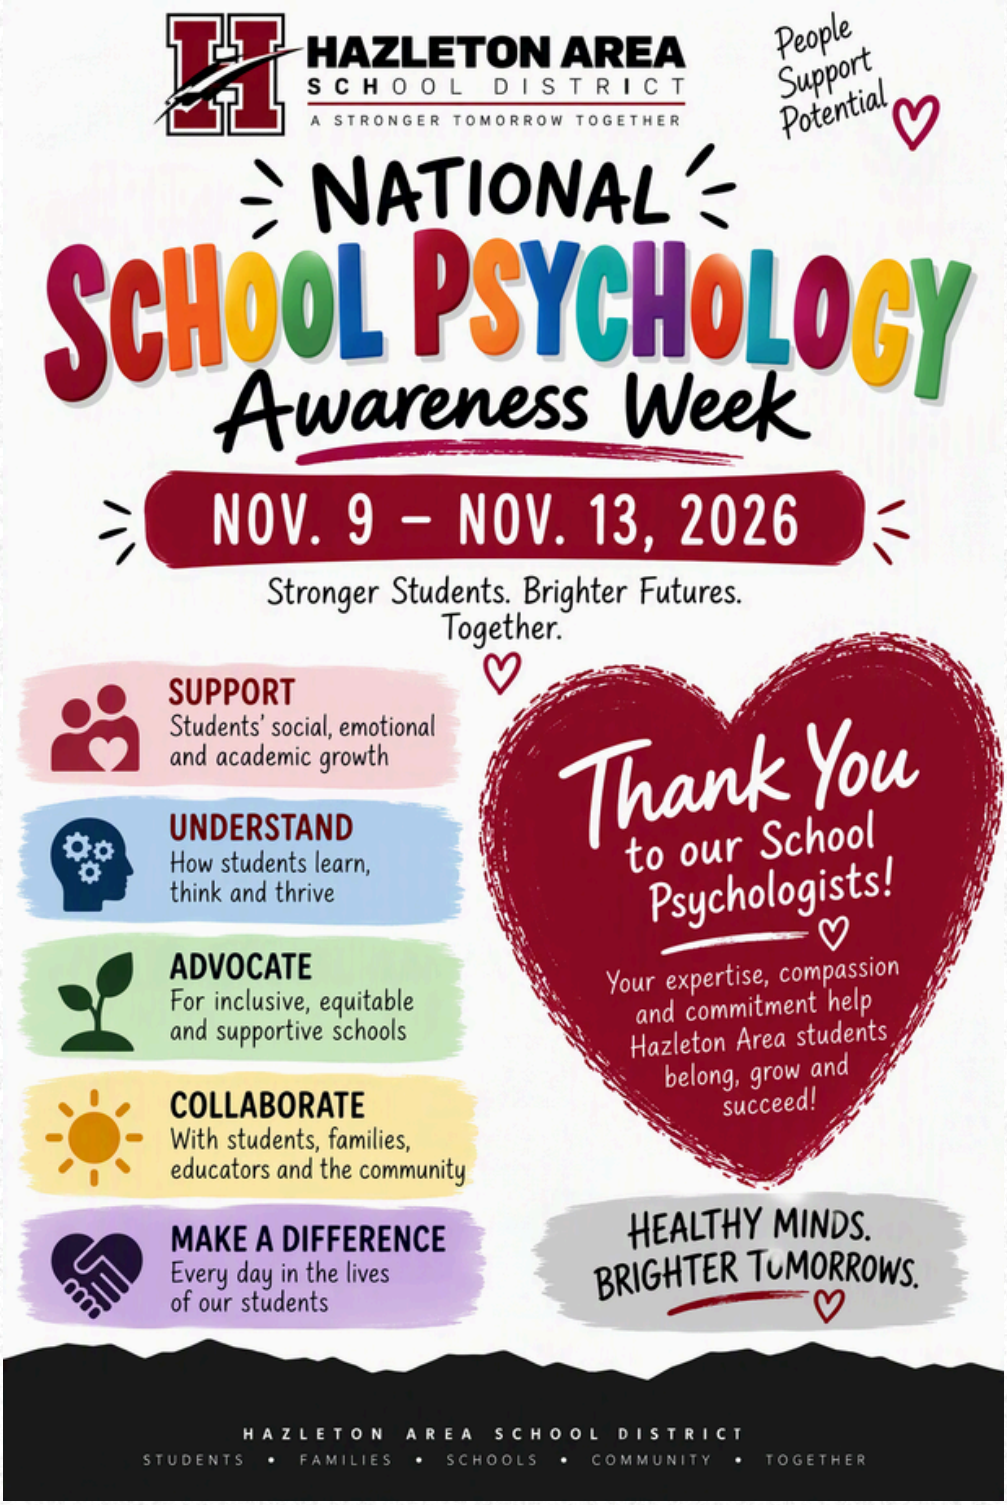

Thank you in advance for your consideration of supporting the Rotary Club of Hazleton through purchasing a ticket.

MKEMS PERFORAMNCE AT THE WBS PENGUINS GAME

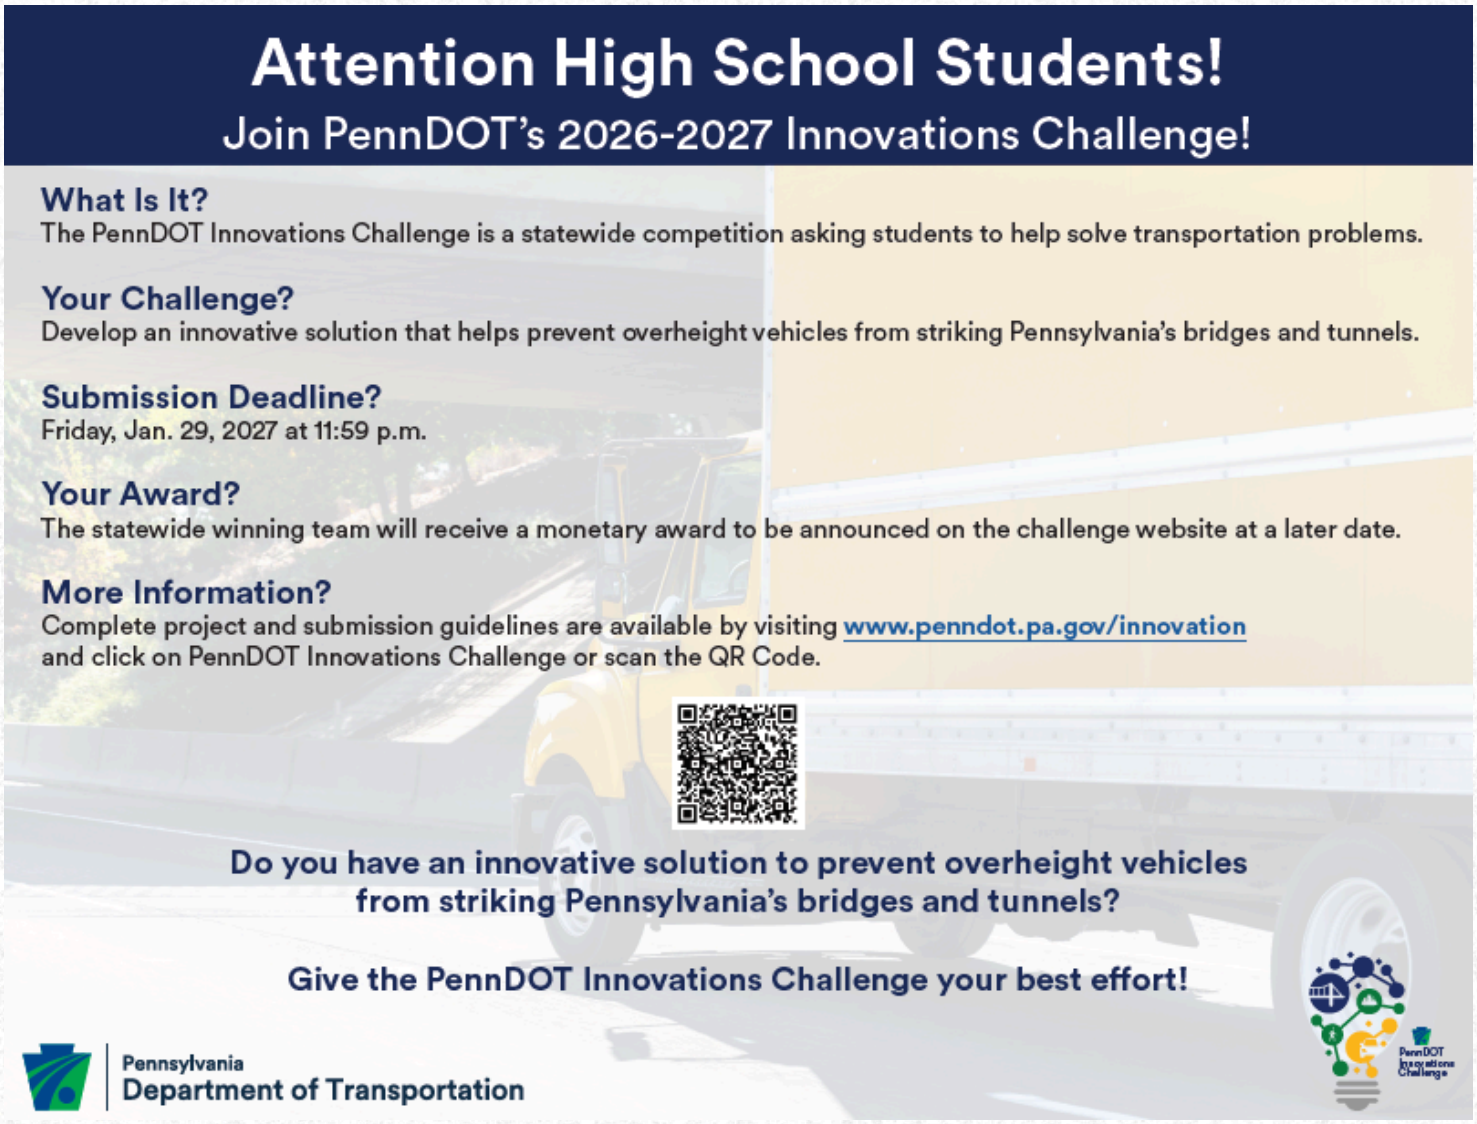

The MKEMS Chorus will once again be performing our national anthem along with the Canadian national anthem on Saturday, Nov. 14th as 6:00 at the Mohegan Sun Arena as the WBS penguins take on the newly formed Hamilton Hammers! A great night out for all!

NATIONAL SCHOOL PSYCHOLOGY AWARENESS WEEK

STUDENTS FROM YOUR SCHOOL DISTRICT ARE CORDIALLY INVITED TO PARTICIPATE IN PENNDOT'S 2026-2027 INNOVATION CHALLENGE!

Develop an innovative solution that helps prevent overheight vehicles from striking Pennsylvania's bridges and tunnels. Your proposal should focus on identifying potential hazards before a collision occurs while improving safety, protecting infrastructure, and minimizing disruptions to travelers and local communities.

HAZLETON AREA EDUCATION FOUNDATION

The Hazleton Area Education Foundation is excited to share several updates about our programs and upcoming opportunities! As we continue working to support our students, staff, and families, we want to thank everyone who has contributed to the Foundation's continued growth and success.

❤️🤍 The Red & White Club

The Red & White Club continues to grow, and we are grateful to all district employees who have joined us in supporting our schools! Through monthly payroll contributions, members help fund educational opportunities while enjoying benefits such as dress-down days, monthly classroom grant drawings, staff appreciation giveaways, and a 10% discount at the student store.

Congratulations to our October winners!

- October Classroom Mini-Grant: Tracey Grohol
- October Staff Appreciation Gift: Leighann Feola

📚 Beyond the Classroom Grant Program

We are excited to announce the application dates for our next round of Beyond the Classroom Grants!

- Applications Open: January 28, 2027
- Applications Close: June 3, 2027
- Grant Awards Announced: First day of the 2027–2028 school year
- Maximum Grant Award: $1,500 per teacher

The Beyond the Classroom Grant Program provides funding for creative classroom projects, educational resources, and unique learning experiences that go beyond the traditional school budget.

We encourage eligible teachers throughout the district to begin thinking about projects that could make a meaningful difference for their students.

🎓 Cougar Welcome – September 2027

We are excited to introduce Cougar Welcome, a new initiative launching in September 2027!

Through this program, incoming Hazleton Area High School freshmen will receive a special welcome notebook to help kick off their high school experience.

With the assistance of our senior students, Cougar Welcome will help introduce freshmen to the many opportunities available at Hazleton Area High School, including clubs, athletics, activities, and ways to become involved in the school community.

Our goal is to make every incoming freshman feel welcomed, supported, and proud to be a Cougar!

❤️ Hazleton Area Care Grant

The Foundation is also excited to introduce the Hazleton Area Care Grant, a new initiative focused on supporting district families experiencing unexpected financial hardships.

Through this program, each of our 16 schools will have the opportunity to help a family in need by providing a $250 grant.

Working alongside our school guidance offices, we hope to provide assistance when families need it most.

This program is being made possible through the generosity of local businesses, community sponsors, and the Hazleton Area Education Foundation.

Thank You for Your Continued Support!

The Hazleton Area Education Foundation remains committed to creating opportunities for our students, supporting our dedicated staff, and helping families throughout the Hazleton Area School District.

Whether you participate in the Red & White Club, apply for a classroom grant, or help spread the word about our programs, you are helping us make a difference in our school community.

We look forward to another exciting year of giving back!

Thank you for everything you do for our students and our district.

Hazleton Area Education Foundation

Supporting Students. Empowering Educators. Strengthening Our Community.
