

HOW CAN YOUR SCHOOL COMMUNITY SOCIAL WORKER HELP?

School Community Social Workers strive to support students and families in meeting their basic needs, identifying resources, and assist in eliminating practices that may act as barriers to the enrollment, attendance, and success in school. All from a strengths based practice

**We serve as a bridge
between the school, the
student, the family, and
the community.**

Referrals are welcomed. We encourage parents, school staff, and agencies to connect with us.

Our Vision

**We believe in the potential
of all students and strive to
empower them and their
families for success.**

Jennifer, Cynthia, and Michelle express their gratitude to the many community partners who support their efforts in supporting students and their families.
