PRESCHOOL CURRICULUM

3

Must be 3 by September 1 and bathroom independent

Our 3-year-old preschool program provides a wonderful introduction to learning in a classroom environment. Developmentally appropriate activities, aligned with the South Dakota Early Learning guidelines introduce children to faith, language development, reading readiness, number skills and social/emotional development. The curriculum also includes art, music and physical education. This program meets two to five days per week with options to attend half days.

4

Our 4-year-old preschool program is a great step in your child's early education. Students will be introduced to Kindergarten readiness skills through developmentally appropriate activities. The curriculum introduces children to faith, language development, reading readiness, number skills, and social/emotional development with curriculum aligned to the South Dakota Early Learning guidelines. The curriculum also includes art, music and physical education. This program meets three to five days per week with options to attend half or full days.

5

Our 5-year-old preschool program is for children who are already 5 years of age and have chosen to wait to start Kindergarten or for students who will turn 5 shortly after the school year begins and do not meet the state age requirement for Kindergarten enrollment. In this program, students will hone their skills in preparation for Kindergarten. Students meet 5 half days or full days per week, Monday through Friday. The curriculum builds on Kindergarten readiness skills including reading readiness, number skills, language development, faith development and social/emotional learning.
