

Theological Virtues: Foresight

October's virtue is foresight. Foresight means consideration of the consequences of one's actions. It means thinking ahead about what might happen. We need foresight in little decisions and in big decisions in our lives. Foresight looks like deciding how you will react in a situation before it happens.

Dear Jesus, when I don't think before I act, bad things usually happen. I want to make good decisions, but I forget to think ahead. Help me today to pause before acting and think about what might happen as a result of my decision. I want to make good decisions that give You glory. Amen.
