

# Agronomic Schedule 2026

*Cultural and Chemical application schedule for the year 2026*

*Subject to change*

## March/April

Balanced organic fertilizer Inspection for root-zone grub activity Broadleaf weed assessment	Alumni Field Back football/softball HS Baseball HS Front Field
Fertilizer Double disc seeding Insect/weed scouting	Fowler Field
Double disc seeding Organic fertilizer	Alumni Field HS Baseball

## May/June

Balanced organic fertilizer Broadleaf weed treatment Insect scouting	Alumni Field Back football/softball HS Baseball HS Front Field
Turfgrass disease/insect scouting Double disc seeding Organic fertilizer	Alumni Field HS Baseball Fowler Field

## July/August

Balanced organic fertilizer Turfgrass disease/insect scouting	Alumni Field Back football/softball HS Baseball HS Front Field
Fertilizer/Insect/Weed Treatment Wetting agent Cultural practice deep tine aeration	Fowler Field

Double disc seeding Organic fertilizer Weed treatment Wetting agent	Alumni Field HS Baseball
--	-----------------------------

### September/October

Balanced organic fertilizer Overseeding Insect scouting	Alumni Field Back football/softball HS Baseball HS Front Field
Core aeration Double disc seed Drag	Fowler Field

### October/November

Pelletized limestone	Alumni Field Back football/softball HS Baseball HS Front Field
Deep tine aeration Organic fertilizer Gypsum	Fowler Field
Core aeration Double disc seed Organic fertilizer	Alumni Field HS Baseball

Applications/products/cultural practices are subject to change based on scouting thresholds, environmental conditions, traffic patterns, turf quality etc.

Anticipated Products to be used

- Border 2.0
- Earthworks Replenish 5-4-5
- Precip G
- Pylex
- Q4 Plus
- Earthworks Myco Replenish 3-3-3
- Earthworks Renovate Plus
- EC+ Gypsum with Humoxy
- Nutrite 28-0-10 SGN 200
- Nutrite+Caliber+K 0-0-12
- Proscape 20-0-5 0.067% Acelepryn SGN 220
