9 NOVEMBER DCHS

12 NOVEMBER CWHS

6-8PM

YOU'RE INVITED

Dickson County School District would like to invite you to our second annual mental health awareness nights for our community. We will be hosting a presentation for our families focused on mental health, social media, and suicide awareness. Our goal is to share strategies and resources to help families better support their children. In addition, there will be a mental health resource fair available for families to explore helpful tools and services.
