

Vape/E-Cig Awareness

*Greetings to all parents and students. We want to make you aware of an important change the state of Texas has made to Chapter 37 of the Texas Education Code regarding vapes. Under House Bill 114, A student **must** be placed in District Alternative Education placement DAEP if the student: Uses, Sells, gives, or delivers to another person or even **possess a part of an e-cigarette** or vape device. KISD has installed vape detectors at all high school campuses and we encourage you to speak with your student about this new law. Killeen ISD is a drug free zone and therefore any and all drug related charges are automatically enhanced.*
