

DECEMBER ECLC NEWSLETTER

November Recap

FRIENDS AND FAMILIES

November was a short but impactful month. Children spent their time learning about the community members around them and how they contribute greatly to our everyday lives. Children also got to learn how to make positive influences within their own classroom communities and families by learning how to be kind, healthy, and helpful. As we move forward, we will continue to highlight the significance each child brings to a classroom and the difference they can make towards others.

What's Ahead

OPPOSITES

For the month of December, children will explore opposites in the world around them. Toddlers will begin to be introduced to propositional words that are opposites, such as: up, down, in and out. Preschoolers will extend their learning by comparing and contrasting differences between opposites, such as: living and non living items.

Upcoming

- ECLC Winter Fest @ 2:30 on December 12th
- Early Release @ 1:30 on December 19th
- Christmas break December 22nd-January 2nd

SUPPORTING YOUR CHILD'S LEARNING FROM HOME
