

APRIL ECLC NEWSLETTER

March Recap

NURSERY RHYMES AND CRITTERS

During the month of March, children in our toddler classrooms spent time reciting, acting, and coloring sceneries and characters from different nursery rhymes. The children in our preschool classrooms spent the month learning about different insects, their life cycles, and the way insects travel differently. They even got to witness real-life caterpillars in their classrooms.

What's Ahead

ANIMALS

As we look ahead, children will begin to explore and learn about animals. Toddler classrooms will focus on farm animals, whereas the preschool students will be introduced to different mammals, reptiles, sea life, and birds. Children will engage in read alouds, imaginative play, and sensory exploration to learn these new concepts.

Upcoming

- April 2nd - Easter Parties at 2:30
- April 3 & 6 - Easter Holidays
