

JANUARY ECLC NEWSLETTER

December Recap

OPPOSITES

December was a memorable month full of laughter, cheer, and learning! Students had a wonderful time learning about opposites. They explored opposites with sound, texture, taste, and size and had meaningful conversations over the differences and similarities objects have. Children also got to participate in holiday festivities by singing songs, making crafts, and receiving gifts.

What's Ahead

COLORS AND CREATION

Children will be learning about colors with their senses by feeling, tasting, and seeing colors in different environments. They will also use their creativity and imagination to construct objects with tools and instruments of their choice. Children are going to have a great time bringing their creations to life!

Upcoming

- ECLC closed on January 19th
- ECLC early release on January 30th at 3:30

SUPPORTING YOUR CHILD'S LEARNING FROM HOME
