# 2025-26 SAISD Family-School Relationships Survey
## Campus Results - Brackenridge High School

Each year, SAISD families are asked to complete the Family - School Relationships Survey. Questions span six domains -- ***School Safety***, ***School Climate***, ***School Fit, Family Engagement and Input***, ***Family Efficacy***, and ***Family Involvement***. Each question and domain are given two ratings (Percent Favorable and Percent of Maximum Possible [POMP]). The data gathered helps campuses better understand how to build effective partnerships with families, as well as strengthen family engagement to support strong academic and social outcomes for students.

The following tables show the questions that make up each domain, along with two measures: **percent of favorable responses** and **percent of maximum possible (POMP)**. Summary scores for the entire domain are in the top right of each table.

**Percent Favorable** (show in green below) is the percentage of responses where either *Strongly agree* or *Agree* was selected.

**Percent of Maximum Possible/POMP** (shown in blue below) assigns a point value to each answer (*Strongly disagree* = 1, *Disagree* = 2, *Agree* = 3, *Strongly agree* = 4), which is then used to calculate a score from 0% to 100%. This score is used in calculating School Performance Framework (SPF) measures related to the family survey.
