Parent Square Account Instructions

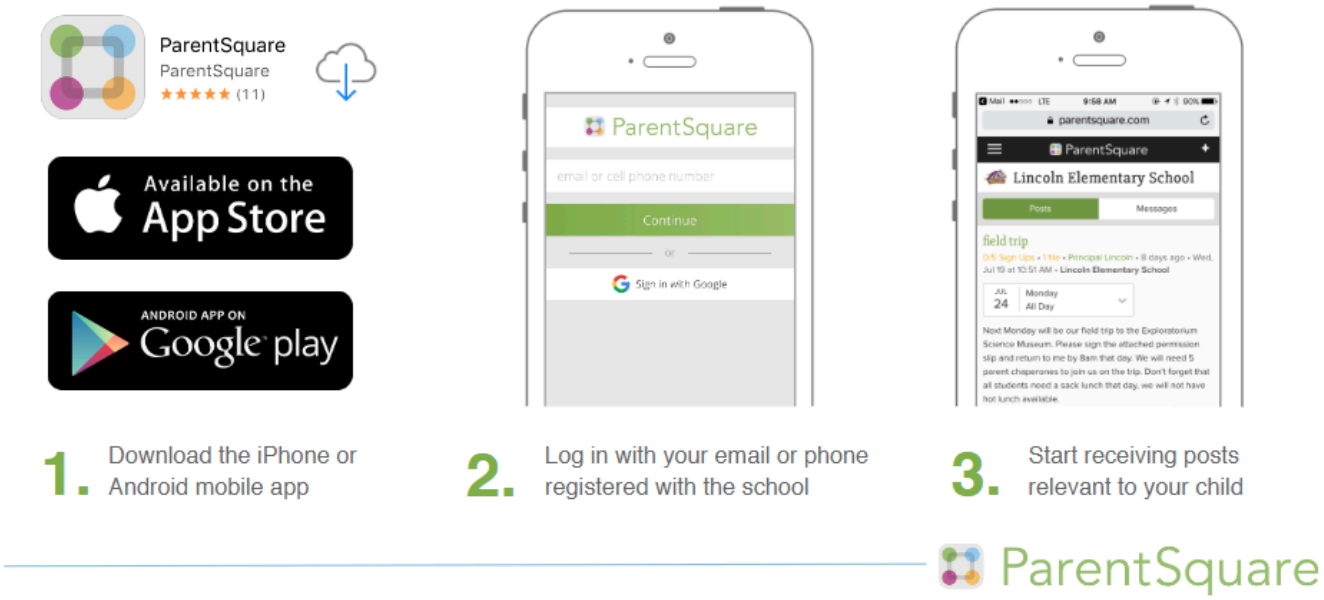

Parent Square is a communication tool designed to keep parents informed and involved in their child's learning and school activities.

- Receive all school, classroom, and group communication via email, text, or app notification
- Send private messages to teachers or staff
- See important calendar events and RSVP
- See photos, links, and attachments
- Sign up to volunteer or bring items

1. Go to www.parentsquare.com/signin.
2. Use your email or your phone number to set up your account. Your email/phone number must match the contact details in the school's database.
3. **If your contact details are not recognized, contact your School Office to get them updated**. After we update your information in our database, the new contact details will appear in ParentSquare after the next daily sync, and you will be able to create an account.
4. Note: After you are added to ParentSquare, you will receive school communications *even if you have not registered your account*. However, you will need to register your account in order to participate in two-way communications and to access any confidential student-specific documents or forms.
