BES Morning Drop Off Plan

- We will have **One** lane of cars in the morning.
- Do not pull around the cars in front of you.
- The unloading zone is the area before the main crosswalk.
- **If you have a child still in the car when the line moves, please stop at the crosswalk.**
- Your student(s) should quickly get out of the car.
- **Adults need to remain in the car.**
- If you realize you need more time to tie shoes, fix hair, or put on coats, please pull into the parking lot and park your car.
- Once your car crosses the first crosswalk, please continue moving unless you need to yield to pedestrians in the second crosswalk. Continue to exit to Carraway Dr or turn back into the parking lot and park your car.
- If you park in the parking lot, you should walk your student to the crosswalk and wait with them until they are safely across. You are welcome to walk them all the way to the front door.
