March 10, 2026

Randolph Community,

Our Randolph Public Schools district takes pride in supporting the needs of the whole child, and to ensure that all children are safe, supported, engaged, and challenged each school day. Research indicates that initiatives focused on improving aspects of students' well-being in schools — such as addressing childhood obesity, preventing bullying, supporting students mental health, and restricting use of exclusionary discipline — have been found to be successful in improving student success and academic excellence. We have assessed our wellness policy as part of the USDA requirements. Below are the results of our assessment.

Step #1- Summarize results of the wellness policy assessment.

1. **List areas of strength in the wellness policy:**
    a. Goals for nutrition education promote student wellness and are integrated beyond health education.
    b. Food and beverages sold in vending machines are regulated during the school day.
    c. Physical education promotes a physically active lifestyle.

2. **List opportunities for improvement in the wellness policy:**
    a. Addressing purchasing local foods for the school meals program.
    b. Encouraging staff to model healthy eating and physical activity behaviors.
    c. Establishing an ongoing school building level wellness committee.

Step #2- Summarize results on progress made. (Nutrition, Activity, and Wellness Awareness)

- Water filler was added to fountains so water is accessible at lunchtime. Fresh Fruits and Vegetables offered daily.
- Providing opportunities throughout the day for physical activities.
- Posters promoting the lunch program started this year.
