(The password is case-sensitive)

If you don't order by midnight on photo day, you will have to wait until the photos are returned to the school (approximately three weeks after photo day). At that point, you will receive a proof slip with a unique code to order your photos online. Prices are higher and shipping will be charged.

You can choose any background for your photo package, but per school and yearbook requirements, it may be changed to gray for the yearbook, admin software, and ID card.
