

Name Date Quarter

Actual Classroom Enrollment Number(s)

Class size computations will be made on the 20th day of each quarter.

Class size relief will be provided to those staff members whose class size exceeds the Target Class Size number as defined in Article VIII, Section 3, Paragraph D, of the Collective Bargaining Agreement. Exceptions from Teacher Class Size Relief: Band and Secondary Choir.

<u>Grade Groupings</u>	<u>Target Size</u>	<u>Grade Groupings</u>	<u>Target Size</u>
K	20	5	26
1	21	Elem Specialist	26
2	23	6-8	29
3	24	6-12 PE	38
4	25	9-12	30

INSTRUCTIONS

1) Compensation, 2) Para Ed hours, or 3) Supplies, materials and/or equipment purchases or any combination may be used at the teacher's discretion. Please fill in the amount according to the selection. Return the completed form to your building Principal for approval. Employee compensation will be made based upon specific class overload eligibility and calculations as listed below.

Grades K-5 Class size relief (\$700 quarterly) shall be provided when the actual enrollment number exceeds the class size target. Beginning with the second student above target, an additional \$100 per student per quarter shall be provided. Class load relief for specialists (\$700 quarterly) shall be provided when the actual enrollment number exceeds the target number. Beginning with the second student above target an additional \$100 per student per quarter shall be provided. Compensation shall be provided using the same formula as grades 6-12.

Grades 6-12 Class size relief shall be provided when the actual classroom enrollment number exceeds the class size target. Class size relief for traditional teaching schedules shall be calculated by dividing the number of classes which exceed the target number by the number of classes taught, then multiplying that percentage by the level of compensation (\$700 quarterly). Beginning with the second student above target an additional \$100 per student per quarter shall be provided.

Grades 6-12 PE Class size relief shall be provided when the actual classroom enrollment number exceeds the class size target. Class size relief for traditional teaching schedules shall be calculated by dividing the number of classes that exceed the Target (Paragraph D) number by the number of classes taught, then multiplying that percentage by the identified level of of compensation (\$700 quarterly).

You are eligible to receive (If compensation is selected. See worksheet on back for calculations)

Compensation.....

Para Educator Assistant.....
