NOTIFICATION OF MATH OR READING ISSUE

As required by WV HB3035

Dear Parent/ Guardian

When the West Virginia State Legislature passed HB3035 on March 11, 2023, one of the requirements is that the parent or guardian of a child in grades K-3 must be informed when a student has been identified as having a deficiency in reading and/or math (Ref. HB3035, p. 5.)

Please note, we have reached the middle of the school year and want to make you aware. We will still be working with your child to improve their proficiency. Students, Teachers, and Staff will continue to work together to improve their reading and math proficiency during the school year. If your child does not show improvement in math or reading or there are other concerns, a teacher will reach out to you to schedule a meeting with the Student Assistance Team (S.A.T.) All Marshall County Schools use the Multi-Tiered System of Supports to provide differentiated and individualized instruction to our students with additional supports provided by Intervention teachers, Title 1 Teachers, Early Child Classroom Assistant Teachers, and others as needed.

We are informing you that your child performed below grade level or had an identified deficiency according to the assessment used.
