FLAG SALUTE

ADEQUATE NOTICE OF MEETING
In accordance with the Open Public Meetings Act, P.L. 1975 Chapter 231 as amended by P.L. 2025 Chapter 72, adequate notice of this meeting was provided on March 3, 2026 by posting notice on the Glen Rock Public Schools website where legal notices and advertisements are listed glenrocknj.org/board_of_education/notices

MISSION STATEMENT
The Glen Rock School District founded on principles of education, in partnership with a supportive community, provides an exceptional education to all students to cultivate resilient, responsible and engaged global citizens.

STATEMENT TO THE PUBLIC
Often times it may appear to members of our audience that the Board of Education takes action with very little comment and in many cases by unanimous vote. Before a matter is placed on the agenda at a public meeting, the administration has thoroughly reviewed the matter with the Superintendent of Schools. If the Superintendent of Schools is satisfied and Board of Education President concurs that the matter is ready to be presented to the Board of Education, it is then placed on the agenda at the next Board of Education

meeting. The members of the Board work with the administration and the Superintendent of Schools to assure that they fully understand the matter. After the Committee of the Whole approves the matter, it is placed on the agenda for action at a public meeting. In rare instances, matters are presented to the Board of Education for discussion at the same meeting that final action may be taken.

APPENDIX

A

P 5516 STUDENT USE OF INTERNET-ENABLED DEVICES

The Board of Education prohibits student use of internet-enabled devices on school grounds during the school day in accordance with N.J.S.A. 18A:36-40b. The Board adopts this Policy and Regulation 5516 pursuant to N.J.S.A. 18A:36-40b. and the guidelines developed by the Commissioner of Education concerning student use of internet-enabled devices during regular school hours, on a school bus, or during school-sponsored events when the student is under the direct supervision of a teaching staff member or employee of the Board.

For the purpose of this Policy and Regulation 5516:

1. "Bell-to-bell" means the timeframe when the bell rings at the start of the school day until the dismissal bell rings at the end of the academic day. Bell-to-bell includes time in between class periods and lunch.

2. "Digital citizenship" means the development of thoughtful, empathetic citizens who can wrestle with important ethical questions at the intersection of technology and humanity. Model digital citizens focus on using technology to make communities better, engage respectfully online with others, and leverage technology to amplify voices and perspectives. They are careful to determine the validity of online sources of information and are always respectful of ideas different than their own.

3. "District-managed tools" means school-issued technology or platforms used for educational purposes (e.g., laptops, tablets, learning management systems, etc.).

4. "Internet-enabled device" means any device capable of connecting to the internet and accessing online content (e.g., smartphones, tablets, smartwatches, smart glasses, etc.), including social media applications. An internet-enabled device does not include an internet-enabled device provided by the Board when used for educational purposes.

5. "Non-internet-enabled device" means a basic communication device that is not capable of connecting to the internet or enabling the user to access content on the internet (e.g., basic flip-style cell phones, two-way radio/walkie-talkie, etc.).

6. "School grounds" means and includes land, portions of land, structures, buildings, and vehicles, not to include school buses, owned, operated, or used for the provision of academic or extracurricular programs sponsored by the district or community provider and structures that support these buildings, such as school wastewater treatment facilities, generating facilities, and other central facilities including, but not limited to, kitchens and maintenance shops. "School grounds" also includes athletic stadiums; swimming pools; any associated structures or related equipment tied to such facilities including, but not limited to, grandstands; greenhouses; garages; facilities used for non-instructional or non-educational purposes; and any structure, building, or facility used solely for school administration. "School grounds" also includes other facilities as defined in N.J.A.C. 6A:26-1.2; playgrounds; and other recreational places owned by local municipalities, private entities, or other individuals during those times when the school district has exclusive use of a portion of such land.

A student's use of an internet-enabled device on a school bus or during school-sponsored events when the student is under the direct supervision of a teaching staff member or employee of the Board will be in accordance with the age-appropriate and grade-level differentiated requirements outlined in Regulation 5516.

District-issued technology and sponsored platforms are permitted to be used in classrooms for educational purposes. The district may use existing information technology systems to proactively establish and monitor restrictions to the district's network. The district may utilize device management software to restrict or monitor student browsing on school-issued devices or from devices connecting to the district's Wi-Fi. If the district chooses to use software or other technology to block students' use of their internet-enabled devices, the district may collaborate with the local municipality to determine that there are no safety or security concerns. The Board shall notify students and parents about the monitoring practices in Policy and Regulation 2361.

The Board shall assume no responsibility for the security of or damage to a student's internet-enabled device brought onto school grounds. If a student brings an internet-enabled device to school, the internet-enabled device must remain off and may be required to be stored in a storage system as indicated in Regulation 5516. An internet-enabled device required to be stored in a district storage system shall be password

protected by the student so only the student owner of the internet-enabled device can use the internet-enabled device.

The district shall provide instruction aligned to the New Jersey Student Learning Standards (NJSLS) on Digital Citizenship and shall ensure classroom instructional time is entirely free of internet-enabled devices. Teachers shall not incorporate students' personal technology into lesson plans. All digital engagement shall occur through district-managed tools and devices.

The district shall communicate behavioral expectations for student use of internet-enabled devices to students and their parent(s) and reinforce these behavioral expectations throughout the school year. Communication of this Policy and Regulation 5516 may include, but not be limited to, school-wide notifications, signage, and reinforcement as part of classroom routines.

The district shall comply with all applicable State and Federal laws that protect the rights of students with disabilities or health related needs, including, but not limited to, the Individuals with Disabilities Act (IDEA) and Section 504 of the Rehabilitation Act of 1973.

Students shall be permitted to use their internet-enabled device on school grounds during the school day, on the school bus, and at school-sponsored events in the following circumstances in accordance with N.J.S.A. 18A:36-40b.:

1. To fulfill accommodations provided in a student's individualized education program (IEP);

2. To support the implementation of a 504 Plan;

3. To implement a student health plan established to monitor or address a student's health condition (upon submission by a parent of documentation from a healthcare professional indicating that the use of an internet-enabled device is necessary for the health or well-being of the student);

4. For translation services;

5. For a student caregiver who is routinely responsible for the care or well-being of a family member;

6. When no reasonable alternative to the use of the internet-enabled device for a specific purpose exists (upon authorization by the Superintendent, Principal, or designee);

7. When required by law; and

8. In the event of an emergency.

The Superintendent or designee will inform students and parents of their right to request an internet-enabled device accommodation. The parent(s) shall submit a written request to the Superintendent or designee. The written request shall include, but not be limited to, supporting documentation from the student's physician, child study team, and/or any other documentation as required by the Superintendent or designee as to why the student requires an internet-enabled device accommodation. The Superintendent or designee shall inform the parent(s) of the approval or denial of the written request for an internet-enabled device accommodation within five school days of receiving the written request. The Superintendent or designee shall base such an accommodation determination on documented educational, medical, developmental, accessibility, or other needs or specific purposes and review them on a regular basis.

In preparation for the 2026-2027 school year, please find attached our IDEA contract, to be approved by your school district.

Please compete this as soon as possible and return to our office to allow us to effectively plan implementation of the chosen services. Our experience has led us to believe that it is best to select a multitude of services in order to facilitate any unforeseen service and prevent the need for an amendment.

Once your IDEA carryover from the 2025-2026 school year is confirmed, please contact us so that we may send an additional agreement.

We continue to appreciate your district's support and look forward to another successful school year.

Thank you,
