THE CAVALIER CHRONICLE

VOLUME 25. EDITION 1

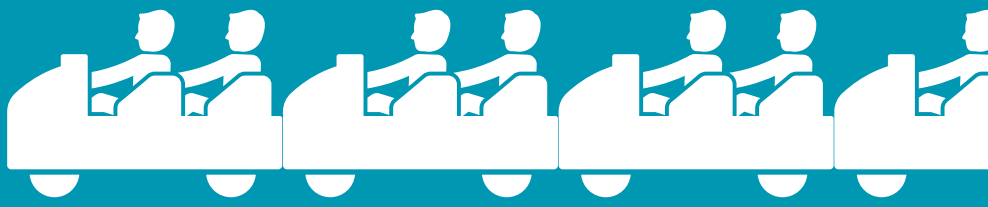

PRINCIPAL'S POINT

The 2026-2027 school year is off to a great start! It is hard to believe that the first quarter has already ended, but our Siegel Cavaliers have accomplished many things! Our students have been hard at work to achieve learning expectations while demonstrating a true Cavalier spirit. Our faculty and staff have been dedicated to student growth and learning, and we have had incredible support from parents and the community. Our first fundraiser, Invest in your Cavalier, was a huge success! We raised over $30,000. Thank you to our students, parents, community members, and business partners for investing in our students! We also hosted the Cavalier Carnival before fall break. It was exciting and rewarding to see students have a great time with all of the activities and games. I am thankful for a successful lst nine weeks, and I look forward to the rest of the first semester. Thank you for your support of our Siegel Middle School students.

Kim Stoecker,
Principal

6TH GRADE

In Science, students learned about particles in different sources of heat. Students are completing different labs and analyzing how different elements work together to make change happen.

By Lottie Mae Pearcy, 6B

In Math, students learned about coordinate planes, dividing fractions and decimals, and muliplication. The first quarter felt like a review of key concepts to students, who are eagerly looking forward to learning more and building their knowledge!

By Lottie Mae Pearcy, 6B

In ELA, students spent the quarter reading “Boy: Tales from Childhood” by Roald Dahl and learning everything there is to know about dialogue, inferences, and grammar. They finished the quarter the way they started it - working on narrative writing.

By Rose Foy, 6C

In Social Studies, students learned about what makes a civilization. They completed a poster activity with the seven key elements on it. Students then spent the rest of the quarter learning about Mesopotamia.

By Rose Foy, 6C

7TH GRADE

In Science, students learned about the Law of Conservation of Mass and if a chemical equation is balanced or unbalanced. They practiced using many different labs and hands on experiments!

By Riley Smart, 7B

In Math, students learned all about adding, subtracting, multiplying, and dividing different groups of numbers. They started with fractions, then moved on to integers, rational numbers, and ratios. Then, students finished up quarter one focused on unit rates and ratios.

By Josephine Allen, 7C

In Accelerated Math, students learned square roots, exponents, integers, and rational numbers. They have been keeping up with the flow by bouncing around 7^{th} and 8^{th} grade topics!

By Riley Smart, 7B

In ELA, students spent most of the quarter reading the novel, The Outsiders. They focused on characters and the development of theme throughout a novel. After finishing the novel, students have been writing their essay on how Ponyboy's point of view changes. With one pagers coming in and articles of the week starting to be passed out, students will continue to display their ELA skills!

By Josephine Allen, 7C

In Social Studies, students are feeling like travelers! It's hard to pinpoint where in the world they are, as they are moving on often! They can say, however, that students are constantly learning about customs, development, and inventions of empires.

By Josephine Allen, 7C

8TH GRADE

In Science, students spent quarter one learning about forces and motion. This consisted of Newton's Laws. Students began their new unit toward the end of the quarter, which was sound waves. Their main question in the unit was "could sound move an object?"

By Sylvi Carlin, 8C

In Math, 8th grade students have been leanring about real numbers, particularly rational and irrational numbers, scientific notation, and solving linear equations. Solving linear equations is the unit that they finished the quarter with, but students are excited to move on to analyzing and identifying unit rate.

By Elizabeth Dennis, 8C

The students in Algebra l have had a great start to the year! They have finished Topic l, which included equations, compound inequalities, and absolute value. To finish the quarter, students began working on Topic 2, which includes linear equations, function notation, and domain and range.

By Ella Gaither, 8C

In ELA, students have learned a lot this quarter! Students spent some time reading stories like "Fish Cheeks" and "My Mother's Garden." They wrote narratives connected to those texts. Then, to finish the quarter, students began their study of Frederick Douglass's life and works.

By Anabel Funderburk, 8B

In Social Studies, students spent quarter one learning about the events leading up to the American Revolution, particularly the different acts such as the Stamp Act, the Quartering Act, and the Intolerable Act. Students are excited to soon move on to the American Revolution!

By Elizabeth Dennis, 8C

EXPLORATORIES

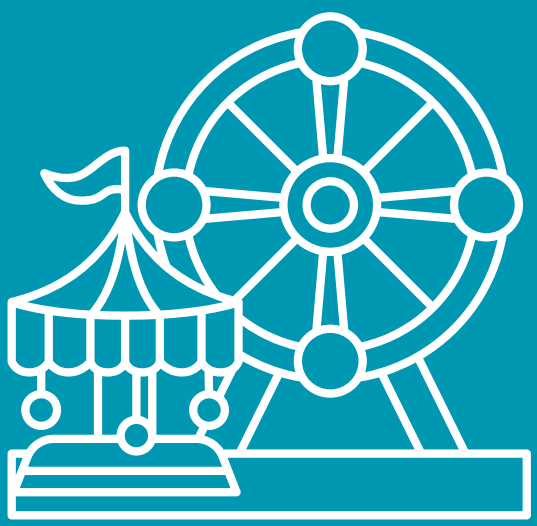

In Choir, students are preparing for their winter concert. In 7th and 8th grade, they are preparing songs “Oh Come Emmanuel,” “Glow,” and “Like It Was Christmas”. 6th graders are working on “Santa Claus is Coming to Town”, “Las Navidades”, and “Joy to the World.”

By Anabel Funderburk, 8B

In Health Science, 6th graders learned about blood pressure, CPR, BPM, and basic health things. 7th graders focused on the skeletal and musculature systems in quarter one and began learning directional and medical terms. 8th graders began working through the body systems, including endocrine, neurological, and lymphatic systems.

By Lottie Mae Pearcy, 6B

In Band, students are preparing for their winter concert.
6th grade already presented their learnings for the first quarter to their parents, including the pieces that they have begun earning mastery!
7th and 8th graders have been busy! They make up the pep band group and are gearing up for their winter concert.

By Daisy Lee, 8C

SPORTS

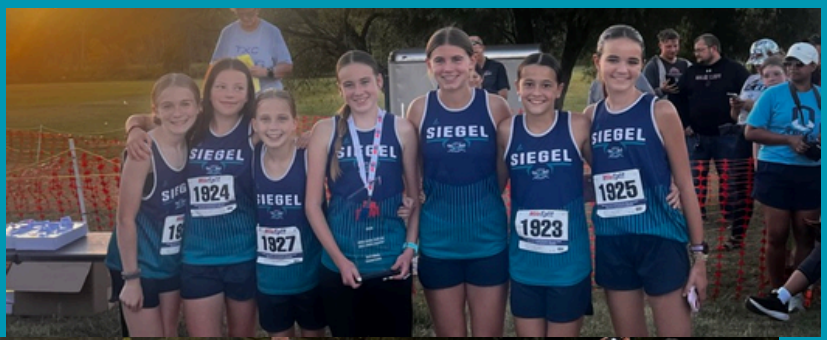

Our Lady Cavs soccer team had a great season! They were district, regional, AND sectional champions. They finished fourth in the state, which is an awesome honor! Way to go, girls!

By Sylvi Carlin, 8C

Our football team has had a good season! They had several wins and have worked hard. Remember: Attitude determines Altitude. They will miss Coach Doc and hopes that he returns home safely!

By Rose Foy, 6C

After a long (and hot!) Cross Country season, our teams are ready for a break! Both of our cross-country teams, girls and boys, finished tenth overall at state competition. Aleeya Pilkington was state runner up. Way to go, runners!

By Riley Smart, 7B

FUN EVENTS @ SIEGEL

Cavalier Carnival was the best day yet! Students played on inflatables, dunked their teachers, ate lots of sweets, and hung out with friends much of the day!
By Sylvi Carlin, 8C

We've had two pep rallies so far this year! Students love doing the color shout, playing pep rally games, and recognizing the school teams!
By Daisy Lee, 8C
