Dear Dayton & Deans Preschool Families,

It is a sincere privilege and honor to serve as Principal of our new Dayton & Deans preschool community. Our dedicated team of educational professionals look forward to partnering with you and your children as they begin their educational journey. Whether new to preschool at Dayton & Deans or as returning students, it is our commitment to ensure you feel safe and confident sending your child to school each day.

Our South Brunswick School District preschool program is renowned for its dedication and commitment to our youngest learners! As the old African proverb states, "It takes a village to raise a child," we are excited to work in tandem with you, ensuring our children enjoy a robust early childhood educational experience. Together we will build a foundation grounded in high quality preschool programming, dynamic adult-child interactions, and inclusive learning experiences that combine to create the best possible school day for each child.

Building upon the philosophy that "one-size *doesn't* fit all," I am committed to leading our team in supporting students so each child performs effectively and productively. Key is cultivating a learning environment that engages the diverse learning styles of *all* children. Because I passionately believe in the notion that "all children can learn," be assured that Dayton & Deans students will participate in rigorous daily instruction and content created to maximize their individual potential and success in preschool and beyond.

You may be asking yourself, "*What is my role in all this?!...*"

*In addition to information outlined within the District's Preschool Parent Handbook, it is extremely important that we partner in ensuring your child's development and learning.* We ALL contribute to the success of the Dayton & Deans preschool programs! I encourage you to stay in contact with our schools in order to learn and be aware of your student's exciting daily experiences, as well as ways in which we can support each other in nurturing the children's social, emotional and healthy development. Social media, such as our [Facebook](#) and [Instagram](#) pages, as well as signing up for School Messenger texts are all excellent information sources. Additionally, please visit our preschool district webpage as well as refer to our weekly newsletter, "The Preschool Connection".

Effective, open communication is the cornerstone in supporting our children. Questions and concerns may arise, so please know I am available to you and your family if you need to reach out. We are all on the same team with one common goal: Our preschool children. Together with you, let's look forward to a 2023-24 school year filled with promise and possibilities for our youngest, most inquisitive, and *oh-so-fun* learners!

Warm Regards-

Megan Plummer, Principal
