District Goals for 2026-2027

1. To implement instructional strategies that integrate movement and promote student communication, increasing engagement and active participation in learning

2. To enhance our communication with families and the larger community via, for instance, new website and messaging platforms

3. To further align our schools and students across the district in meaningful ways through, for example, student programming

4. To continue to engage in our bond referendum that is enabling us to upgrade our facilities

5. To continue to enhance our early childhood education program through our third year in the Preschool Education Aid (PEA) process
