Edward Grande
Superintendent of Schools

SY 2025-26

Dear Parents/Guardians,

It has been brought to our attention that there are preschool students who have nut allergies. It is extremely important that we safeguard students in the class that have an allergy to peanuts and/or tree nuts. Contact with peanuts or oils from peanuts can cause a child with this serious allergy to suffer a reaction merely by touching a nut or peanut-containing food.

- *Please do not send any nuts, peanuts, peanut butter, or foods containing these items to be eaten as snacks in the classroom.*
- *Please remind your child not to share food, utensils, or containers.*
- *If your child ate peanut butter at home, we would greatly appreciate your making sure that his/her hands are washed with soap and water before leaving for school.*

Parents should check food labels on packages very carefully. Since peanut oils can be left on food processing machinery, a “peanut-free” product may still be dangerous.

Thank you for your cooperation in this safety matter. Please reach out to Mrs. Lori Kowalski with any questions.

Sincerely,

Lori Kowalski
