§ 181-14. Exceptions.

A dwelling unit in a single-family, two-family, or multiple rental dwelling shall not be subject to inspection and evaluation for the presence of lead-based paint hazards, or for the fees for such inspection or evaluation, if the unit:

§ 181-15. Fees.

- a. Notwithstanding any other fees due pursuant to this Chapter, a fee in the amount of \$200.00 shall be paid for each lead-based paint inspection. Said fee shall be dedicated to meeting the costs of implementing and enforcing this subsection and shall not be used for any other purpose. Alternatively, a dwelling owner or landlord may directly hire a private lead evaluation contractor who is certified to provide lead paint inspection services by the Department of Community Affairs to satisfy the requirements of Section ###-## in which case no additional Lead-Based Paint inspection fee shall be paid.
- b. The fee for the filing of a lead-safe certification or lead-free certification shall be \$50.

 - (10) In addition, the Planning Board may participate in the preparation and review of programs or plans required by state or federal law or regulation, assemble data on a continuing basis as part of a continuous planning process and perform such other advisory duties as may be assigned to it by ordinance or resolution of the governing body for the aid and assistance of the governing body or other municipal agencies or offices.

- B. The Planning Board shall also have the following powers formerly exercised by the Zoning Board of Adjustment, except that the Class I and Class III members of the Planning Board shall not participate in applications for development which involve relief pursuant to Subsection d of N.J.S.A. 40:55D-70:
- (1) To hear and decide appeals where it is alleged by the appellant that there is an error in any order, requirement, decision or refusal made by an administrative officer based on or made part of the enforcement of Chapter 233, Zoning.
 - (2) To hear and decide, in accordance with the provisions of any such ordinance, requests for interpretation of Chapter 233, Zoning, or the Zoning Map or for decisions upon other special questions upon which such Board is authorized to pass by any Zoning or Official Map Ordinance in accordance with this chapter and the Municipal Land Use Law.
 - (3) Variances and certain building permits in conjunction with subdivision, site plan and conditional use approvals.
 - (4) Where, by reason of exceptional narrowness, shallowness or shape of a specific piece of property or by reason of other extraordinary and exceptional situations or conditions of such piece of property, the strict application of any regulation as contained in Chapter 233, Zoning, would result in peculiar and exceptional practical difficulties to or exceptional and undue hardship upon the developer of such property, to grant, upon an application or an appeal relating to such property, a variance from such strict application of such regulation so as to relieve such difficulties or hardship; provided, however, that no variance shall be granted under this section to allow a structure or use in a district restricted against such structure or use.
 - (5) To grant a variance in particular cases and for special reasons to allow a departure from the express provisions of Chapter 233, Zoning, including but not limited to allowing a structure or use in a district restricted against such structure or use, but only by affirmative vote of at least five members of the Board.
 - (6) To direct the issuance of a permit for a building or structure in the bed of a mapped street or public drainageway, flood-control basin or public area reserved pursuant to N.J.S.A. 40:55D-32 whenever one or more parcels of land situate within any of the areas herein described cannot yield a reasonable return to the owner unless a building permit is granted by an affirmative vote of the majority of the full authorized membership of the Board under terms which will, as little as possible, increase the cost of opening such street or will tend to cause a minimum change of the Official Map, and provided further that the issuance of such a permit may be conditioned upon such requirements as shall ensure the promotion of the health, morals, safety and general welfare of the public.
 - (7) To direct the issuance of a permit for a building or structure not related to a street, as required pursuant to N.J.S.A. 40:55D-35, where it is demonstrated that the enforcement of such provision would entail practical difficulty or unnecessary hardship or where the circumstances of the case do not require the building or structure to be related to a street, subject to terms and conditions that will provide adequate access for firefighting equipment, ambulances or other emergency vehicles necessary for the protection of health and safety and that will protect any future street layout shown on the Official Map or on a general circulation plan element of the Municipal Master Plan.
 - (8) To grant subdivision or site plan approval or conditional use approval, where appropriate, whenever the proposed development requires approval by the Board of a variance pursuant to N.J.S.A. 40:55D-70d. The developer may elect to submit a separate application requesting approval of the variance and a subsequent application for any required approval of a subdivision, site plan or conditional use. In such case, the separate approval of the variance shall be conditioned upon the granting of all required subsequent approvals by the Board. No such subsequent approval shall be granted unless such approval can be granted without substantial detriment to the public good and without substantial impairment of

the intent and purpose of the zone plan and Chapter 233, Zoning. The number of votes of the Board members required to grant any such subsequent approval shall be as otherwise provided in this chapter for the approval in question, and the special vote pursuant to the aforesaid Subsection **B(5)**.

- (a) Whenever an application for development requests relief pursuant to Subsection **B(8)** above, the Board shall grant or deny approval of the application within 120 days after submission by a developer of a complete application to the administrative officer or within such further time as may be consented to by the applicant. In the event that the developer elects to submit separate consecutive applications, the aforesaid provision shall apply to the application for approval of the variance. The period for granting or denying any subsequent approval shall be as otherwise provided herein. Failure of the Board to act within the period prescribed shall constitute approval of the application, and a certificate of the administrative officer as to the failure of the Board to act shall be issued on request of the applicant and it shall be sufficient in lieu of the written endorsement or other evidence of approval herein required and shall be so accepted by the County Recording Officer for purposes of filing subdivision plats.
- (b) Whenever review of approval of the application by the County Planning Board is required by Section 5 of P.L. 1968, c. 285 (N.J.S.A. 40:27-6.3), in the case of a subdivision, or Section 8 of P.L. 1968, c. 285 (N.J.S.A. 40:27-6.6), in the case of a site plan, the Board shall condition any approval that it grants upon timely receipt of a favorable report on the application by the County Planning Board or approval by the County Planning Board by its failure to report thereon within the required time.
- (c) An application under Subsection **B(8)(a)** and **(b)** may be referred to any appropriate person or agency pursuant to the terms of this chapter and the provisions of Chapter 291 of the Laws of New Jersey 1975, as amended by Chapter 216 of the Laws of New Jersey 1979.

§ 230-12 Ancillary powers.

- A. The Planning Board, when reviewing applications for approval of subdivision plats, site plans or conditional uses, shall have the power to grant, to the same extent and subject to the same restrictions as a Board of Adjustment:

§ 230-21 Architectural control and site review; purpose.

The Borough Council hereby finds and determines that it is important to the borough that excessive uniformity, dissimilarity, inappropriateness or poor quality of design in the exterior appearance of buildings has an adverse effect on the desirability of the immediate area and neighboring areas and by so doing impairs the benefits of occupancy of existing property in such areas, impairs the stability and value of both improved and unimproved property in such areas, prevents the most appropriate development of such areas, produces degeneration of property in such areas and destroys a proper relationship between the taxable value of real property in such areas and the cost of municipal services provided therefor. It is the purpose of this section and the following sections to prevent these and other harmful effects of such exterior appearances of buildings and thus promote and protect the health, safety, morals, values and general welfare of the community.
