II. AGREEMENT

A. DESCRIPTION OF SERVICES

The FFLV's Fulfillment Fundamentals college access program has successfully helped boost graduation rates and college admission rates among thousands of students. Beginning in Grade 9, the program provides students with mutually agreed upon post-secondary access services described in each School Participant's community responsive program plan.

All program services are delivered by FFLV's own specially trained advisors and Fulfillment Fundamentals utilizes a comprehensive curriculum that incorporates a "student-centered" approach to the path of personal and academic success. Through interdisciplinary lessons, the curriculum promotes critical awareness of self, community, and schools. While in-classroom lessons target student populations, FFLV works to include families through parent workshops in partnership with School Participants. Students have access to in-person/virtual one-on-one post-secondary advising and college counseling. Moreover, FFLV supports opportunities for students to visit college campuses, locally and around the United States, by providing individualized college tour scholarships to families to attend out-of-state college visits or by financially supporting school-sponsored college tours.

The FFLV agrees to work with the District to provide each School Participant a community responsive and agreed-upon combination of the following services to students attending a Participating School during the 2026-2027, 2027-2028, and 2028-2029 school years, unless this MOA is terminated earlier or extended by mutual agreement between the Parties:
