Once you download the Greater Latrobe SD App, you will want to tap to allow Notifications.

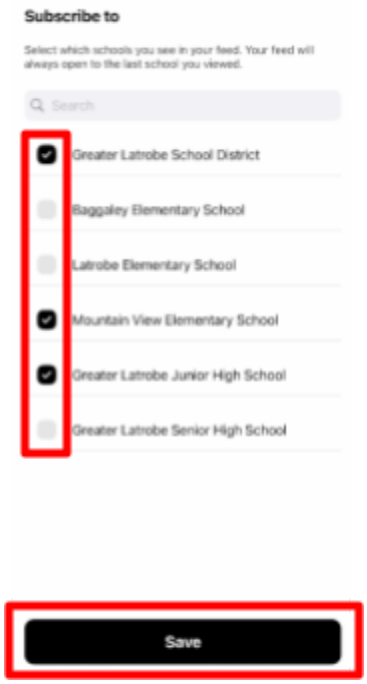

By default, you will be viewing the Greater Latrobe School District feed. In order to be able to toggle between the district and your child's school building, you will need to select which building(s) you want to be able to view.

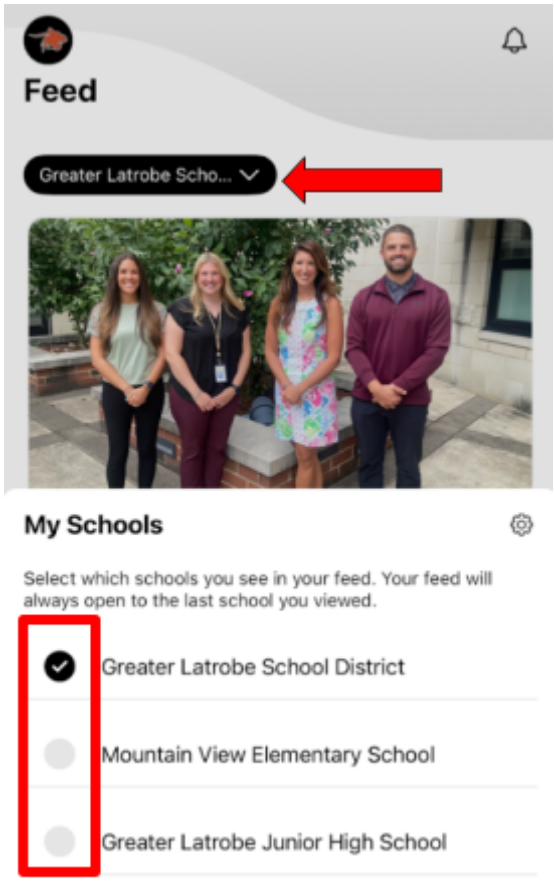

To do this, click on the down arrow next to "Greater Latrobe School District" and click on the Settings gear.

You will want to check the box next to the building(s) you want to be able to view and click "Save."

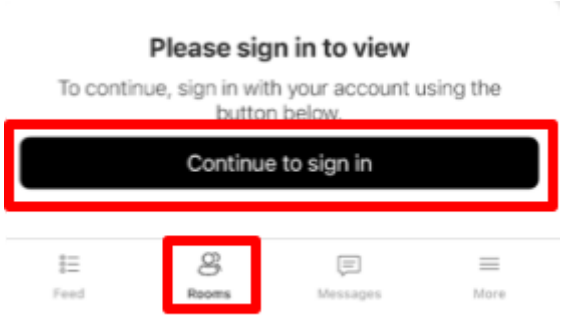

Now, when you click the down arrow next to “Greater Latrobe School District,” you will be able to check which building you would like to view. The building that is checked is the feed you will be viewing.
