NORTH PLATTE R-I SCHOOL DISTRICT

North Platte Panthers

Summer 2026

A Message from the Superintendent:

The 2025-2026 school year has come to an end and our students once again had a great year academically and in their many activities at North Platte.

On May 10th, our 2026 senior class graduated from North Platte. They were an excellent group of 58 students who performed well in the classroom and their various activities. They will be remembered as an outstanding class who represented the North Platte community well throughout their years in the district.

This past year was one full of many great team performances by our high school students in their activities. This included a 3rd place finish in Class 3 for boys basketball, a 3rd place finish in Class 2 for boys track, and a 4th place finish in Class 2 for girls track.This is the 6th straight year the girls track team has finished on the podium at the state meet.That makes a total of 18 podium finishes in our sports programs in the past 5 years. The 2020's has been an unprecedented stretch in activities in North Platte history. This feat included a state championship run by Farrah Williams in the 800 meter run. This year also included winning seasons in softball, girls basketball, baseball, scholar bowl, as well as individual state medalists in cross country, an individual state medalist in wrestling, and excellent performances in our other activities.

The North Platte School District expects to end the 2025-2026 fiscal year with expenditures exceeding revenues by around $175,000. This will likely leave reserves at around $4,900,000. We do have significant concerns about rising costs of product, salaries, and other items that will likely affect the 2026-2027 budget and beyond.

Construction has begun on the football field, track, and concession stand. The football field and track are on pace to be completed by mid-September, with the first game on the new football field being homecoming on September 18th. The new concession stand and new HVAC units in the high school are scheduled to be in place and operational by the start of the 2026-2027 school year. Bids for the HVAC units at the elementary and roof repair are planned to be selected by the middle of June. These improvements are all made possible due to the passage of Proposition K.I.D.S. which received 73.5% yes votes on the April ballot.

The North Platte Foundation Golf Tournament was held on May 29th at Plattsburg Country Club. The proceeds from this tournament directly benefit our students at North Platte by providing funds to generate scholarships for our graduates to utilize as they pursue their post-secondary education. The tournament maxed out on teams with 24 teams and 26 different hole sponsors. This is the most participation the tournament has seen in years and we thoroughly thank the community for the support of our students.

I hope this summer is an enjoyable one for all in our community. Please contact me at 450-3511 if you have questions, ideas, or concerns.

Ryan Davis

NEWS FROM THE SCHOOLS

ELEMENTARY & INTERMEDIATE

This school year went by in a flash, like they all do! We enjoyed having the students this year. They all had a blast at field day and their grade level field trips! It was a busy fourth quarter.

In preschool the students enjoyed revisiting the letters of the alphabet that we had previously learned during the fourth quarter. We have loved learning through exploration and play. We ended the year with a "Kick Off to Summer" party. We played our new favorite game of "Duck, Duck, Goose," learned about the other playgrounds for our new kindergarten students, enjoyed snow cones, read some stories, played outside with a water table, and devoured freshly popped popcorn that was so much fun to watch pop. It was an amazing last day of preschool. It has been a privilege to watch the students grow as the year has progressed! Every single student has worked so hard learning new skills whether that be taking turns, what sound does a letter make, or what behaviors look like for each zone in the Zones of Regulation. We'd also like to thank Mid Continent Public Library in Camden Point for visiting us once a month and bringing story time to us. The students and preschool staff enjoyed it. Seeing everyone's growth and ability to sit quietly while listening to several books has been impressive. As you can see, it's been a fabulous year with a really great group of students. We're excited to see what the next school year will bring.

The kindergarten classes have been very busy finishing their end of the year units and projects. These have included plants, insects, and zoo animals. We have continued practicing our reading each day in small groups, whole class, and at home. Thank you for listening to your child read at home throughout the year. Please encourage your child to read and listen to you read throughout the summer. The libraries in our community have great resources and programs to encourage summer reading. The students have improved so much in their writing ability, enjoyed researching insects and zoo animals, then writing about them. Our students completed math units for 3-D shapes, numbers to 100, and measurement, as well as, practicing addition and subtraction facts. A lot of practice and hard work was put in by the students preparing for their spring concert and graduation ceremony. They loved performing for all of their families and friends!

The first grade has been full speed ahead this last quarter. We have finished up our reading and spelling lessons. The students have also conquered time, graphing, and fractions. We also had a lot of fun this quarter with field day, our field trip to InspireU, and making crafts for Mother's and Father's Day. We really want to encourage you to keep reading, writing, and growing your math skills over the summer. Second grade is right around the corner!

Second grade had a fun and busy fourth quarter. They learned about creating and reading picture, plot and bar graphs. They took their knowledge of shapes and applied the attributes of 2D and 3D shapes. Students focused on economics and Native Americans during social studies. In science students learned how sound comes from vibration. They researched and wrote about famous inventors for science. What really wrapped up the year was celebrating with the End of Year Bash. The second graders learned a lot this school year. They are ready to transfer their learning to third grade.

Fourth quarter flew by for third grade! Students wrapped up the final unit in their basal series and ended with the novel, *Trouble River. After finishing our book, we watched the movie and compared/contrasted the two. Many students definitely realized that books are better than the movie version! In social studies, we ended with our famous Missourians projects. Students conducted research on a Missourian of their choice. Then, they created a poster, dressed up as their famous Missourian, and gave a presentation. The day was wrapped up with our wax museum in the gym. Many parents attended and really enjoyed the hard work the students put into this project. Weather was our primary science unit for the fourth quarter. This is a great time of year to teach this since storms start to pop up, and severe weather is more frequent. Students learned how to stay safe and protected if they are ever caught in a dangerous weather related event. In writing, students were able to again, try out their research skills, and this time over an animal of their choosing. They created a slideshow that was presented to each class. Finally, students started off their final month of school with a field trip to Lego Land and Sea Life Aquarium. Whew! It was definitely busy for the final nine weeks of school. Third grade grew so much academically while adjusting to a new school and teachers. They are definitely prepared and excited to see what fourth grade will bring!*

Fourth quarter was a busy time in fourth grade! Our focus was on preparing for and taking the MAP test in both ELA and Math subject areas. We are so proud of the kiddos for working hard and doing their very best to demonstrate what all they have learned. In reading class, they enjoyed reading *Because of Winn-Dixie. We spent time reading different kinds of poetry and then writing and illustrating our own poems. We have some amazing authors!! In math we continued working with fractions and included decimals in the mix as well. We learned how to compare decimals and fractions. The end of the year was filled with field day, and the End of the Year Bash at Bode Ice Arena. In science we wrapped up the year with our rocks and fossils unit. Finally, we ended the year cleaning out our desks/lockers, and making a memory book to share with our families.*

Fifth grade students have practiced perseverance to finish strong at NPI. Students have been busy learning in the classroom in addition to completing MAP testing in reading, math, and science. In reading, the students read Where the Red Fern Grows and paid close attention to the figurative language. Students analyzed and examined the structure of both biographies and persuasive essays before composing their own essays in writing. In Social Studies the students learned the key events and the US involvement in the Korean, Vietnam and Cold War era. They also enjoyed experiencing and learning about how music, tv, and pop culture has changed over the last few decades. In math, students worked on a math decathlon featuring various math concepts as a game or short activity. The students' favorite was "Trashketball!" Students learned about the functions of various organs within the human body systems for science and how the organs work together to make the human body function properly. Fifth graders also took a field trip to Steamboat Arabia, participated in Field Day, Step Up Day, and the End of Year Bash.

It has been a busy quarter for NPE and NPI students in PE! We had a successful Field Day for both schools; beautiful weather, great fun and competition. Thanks to all parents and students who helped! This quarter all kids spent time practicing for their Field Day events. The elementary kids practiced their handoffs for their relays, learned gaga ball rules, ring toss, tug of war and a lot of racing! NPI

(Continued on page 4)

(Continued from page 3)
tried out every event and then signed up for their favorites like med ball toss, softball throw, limbo, jump rope, and long jump and the 4X100 relay. All grades worked hard and had a great time at Field Day!

NPE and NPI students spent a lot of time in the 4th quarter preparing for our Spring Concert in music class. They did an amazing job performing at the concert! Students at NPE also learned about different percussion instruments and different musical genres. Students at NPI learned about different singing voices and different musical genres. It has been a great year!

In the art room, the fourth quarter has been a busy one for sure! Both schools were busy preparing for the art show! Each school had an incredible art show, complete with a glow show featuring neon/black light artwork. As each grade level prepared for the art show, they had also been preparing for the next school year. For example, second grade students have been working on some harder multiple-step projects that are more similar to third grade. Fifth graders have been preparing for junior high art by learning about shading and value scale. We have also been working on decorating t-shirts to wear for field day! Overall, we've had a blast during the fourth quarter…..now we just have to pass it all back to bring home!

The 3rd-5th grade students and teachers ROCKED the MAP test! We are so proud of each student for trying their best. In counseling during the 4th quarter, students learned about their strengths and how to apply those skills to a future career. We also did some team building activities in K-2 to help build communication skills. Thanks for your support this school year!

Thank you for letting us spend time with your child. It is amazing to see how much each child grows and learns throughout the course of the school year. We hope they enjoy their summer and come back ready to learn in August. Preschool and Kindergarten's Back to School Night will be August 19th at 5:00 p.m. All incoming preschoolers and kindergarteners are invited to come in to meet the teachers, and parents can talk to the bus drivers. Back to School Night will be the evening of August 18th at NPI and August 19th at NPE (for first and second grade students) starting at 6:00. Students will find out their teachers this night and be able to drop off supplies. The first day of school will be August 24th. We are looking forward to another fabulous school year!

Kellie Goodlet

Junior High

We celebrated the end of another school year on Friday, May 15th. Our staff and students have had another successful school year both in and out of the classroom. We took an opportunity to recognize many of the academic achievements that our students have accomplished on our last day of school during our end of year awards assembly.

The following 8th grade students were selected to receive the following end of year awards. Keegan Servaes and Kinley Richardson received the Scholar Athlete Award. Mason Manthe and Sawyer Cary received the Scholar Musician Award. Lastly, Charlie Root and Caroline Tjelle received the Citizenship Award for our junior high. Additionally, Carter Colburn and Briar Munsterman were selected as April's Students of the Month, and Violet Tanumai and Maxwell Richardson were selected as Students of the Month for the month of May.

Our track and field teams wrapped up their season on May 2nd at the KCI Conference meet at Lathrop. Our NPJH track and field team had over 50 student-athletes participating, and there is a continued bright future for sustained success in our high school track programs.

Eighth grade students had the opportunity during their ELA poetry unit to submit an original poem to Creative Communications, a national poetry organization that conducts contests each year. Seventeen students were chosen to have their poems published in an anthology, which is the most ever for Mrs. Colburn's ELA class. They are now all published authors! The following students earned this designation: Kaitlyn Dale, Alesha Bilbruck, Leela Pawling, Allie McClellan, Josie Rougeau, Payton Koepke, Brilynn Frizell, Faith Zweibohmer, Creighton Kubly, Betsy Schmidt, Meagan Ball, Mayella Chance, Sadie Dyerson, India Anderson, Jason Stone, Darren Manville, and Emmalyn Hill

Junior high students took part in the state MAP assessment on April 28th through May 7th. Our 6th and 7th grade students were tested in the areas of math and english language arts. Our 8th grade students were tested in the aforementioned areas, as well as the area of science. Students had the opportunity to go outside each day after testing. NPJH students and staff did a great job during this time of assessment and we appreciate their efforts.

The junior high spring concert was held in the high school gym on Tuesday, May 5th. Our 6th grade band, 7th/8th grade band, and junior high choir performed at the concert. Students did a great job in each of their respective performances. Additionally, that same week, our NPJH students and staff visited Worlds of Fun on Friday, May 8th.

As previously referenced, the junior high end of year awards were held on Friday, May 15th. In addition to the 8th grade students that were selected for Scholar Athlete, Scholar Musician, and Citizenship, students were also recognized for participating in track, academic bowl and various extracurricular contests. Students were also acknowledged for perfect attendance, honor rolls, and high academic achievements in core classes. We would like to commend all of our students for their outstanding work and dedication to academics throughout the 2025/2026 school year.

We want to thank all of our North Platte community members for your support of the Proposition K.I.D.S. no tax increase initiative that was voted on by our community on April 7th. Work has already begun on the track, football field, and concession stand. We will also begin to see work begin on roofing and HVAC on our Dearborn and Camden Point facilities this summer as well. It is an exciting time to be a panther, and our community is such a tremendous part of that. We are very excited for how all of the work in the coming months will be of benefit to all NP students for years to come!

School will begin next year on Monday, August 24th for the 26/27 school year. Junior High orientation will be held on Wednesday, August 12th from 5:30 – 7:30 p.m. in the high school commons. Sixth graders and new students to the district are asked to attend beginning at 5:30 followed by seventh and eighth graders at 6:30. Students will have the opportunity to register, pick up schedules, take school pictures, and tour the building. Enrollment options are also available Monday August 10th-August 14th from 8am-3pm.

High School

We have concluded our 25/26 school year, and with that we have had many activities and celebrations. We have had another great school year, and we had the privilege of celebrating the graduating class of 2026. Our seniors final day of school was on Thursday, May 7th with our graduation ceremony on Sunday, May 10th. We hosted a senior breakfast for our seniors and their families on Friday, May 8th. Thanks to all of our families that helped with organizing this, and donating food! This spring we had 58 seniors graduate from the North Platte R-1 School District. We had a tie for Valedictorian this year between Chloe Heckman and Kate Wolf, and our Salutatorian was Emma Barrows. It can not be understated the impact of what the Class of 2026 has contributed to North Platte over the course of their time at NPHS, not just in athletics, but in the classroom and all other facets of our school. We wish them all the best on their future endeavors.

We celebrated the following students at the KCI Conference Scholar Athlete Banquet on May 3rd. Trystinn Walker, Chloe Heckman, Kate Wolf, Elizabeth Archer, Galen Christensen, Drake Keraus, and Hunter Palmer were recognized as KCI Scholar Athletes representing North Platte. North Platte had the most recipients of this distinguished honor this year amongst all of the conference schools.

The North Platte FFA Chapter held their third annual plant sale on May 1st in the Ag shop. Flowers were grown in our greenhouse by the plant systems class. Plants sold at the sale included hanging baskets, tomatoes, ferns and other common annual flowers. Our FFA also hosted their annual FFA Banquet on April 29th. We had a lot of attendance at the event, and it was a great opportunity to celebrate the accomplishments of our FFA chapter and its members. Officers for the 26/27 school year will be: President- Nolan Dehn, Vice President- Creighton Kubly, Secretary- Merilyn Payton, Treasurer- Hudson Yarc,Sentinel- Gunnar Lockard, Historian- Tate Gill, Chaplain- Jase Marx, and Reporter- Francis Kossen. Special thanks to our FFA Alumni for the donation of food and serving of the meal at the event.

Jackson Morelock, Jackson Cassity, Rayce Ralston, Spencer Hyde, Caden Rogers, Sawyer Dyerson, Cabe Hill, Darren Manville, and Simon Justus earned the opportunity to compete in the State Trapshooting event held at the Lake of the Ozarks at the beginning of May. That more than doubles the amount of students that competed at the event from last school year. Congratulations to our Trapshooting Team!

The Panther Pride Band received a Gold (exemplary) rating for their state performance on March 24th at the State Competition held at Park Hill South High School. This is the highest rating that the band can earn, and it is the first time that the band under the direction of Mr. Fedrizzi has received this rating, so congratulations to them on their hard work, and this distinguished achievement. Our North Platte Concert Choir performed at the State Choir festival at Platte County High School. This was their third time participating in the event in the past few years. Mr. Armstrong has continued to grow the vocal music program and has developed good interest in it among our student body. Finally, the junior high and high school students had the opportunity to watch the school play on March 26th. Our high school cast then had performances for the community on March 27th and 28th. The students performed "The Little Mermaid." Kudos to all of our staff, adult volunteers, and students who work tirelessly to put on a quality production.

In athletics, our baseball team finished their season with a record of 17-11. The boys had a lot of growth and improvement from the previous season, and we look forward to what they are able to achieve in the 2027 season of baseball! Additionally, as part of our baseball season (as well as softball, football, and basketball) Steve Boydston was recognized on April 30th by the MIAAA with a distinguished service award. This is well deserved, as he has volunteered much of his time and talents to being the PA announcer at our activities, as well as starting the North Platte Sports Radio program where he does internet streams for panther fans to listen in and keep up with our students in these various activities. This is well deserved and we appreciate his service to our school!

In track, both our boy's and girl's track and field team experienced many achievements and successes this year! Our boys team finished as both conference and district champs. At the state meet, our boys finished third, while the girls finished fourth in the MSHSAA Track and Field State Championships for Class 2. The state track and field meet was held May 22-23 at Jefferson City High School. Our girl's team took 5 athletes to the state meet, and their achievements can be seen on the next page of our newsletter. Additionally, our boy's track and field team had 10 state qualifiers with their achievements also listed on the next page of our newsletter. We want to congratulate both teams on tremendous seasons!

We were able to celebrate accomplishments for a few of our Hillyard students this spring. Congratulations to Luke Wilson and Alex Irvin. They both had the opportunity to participate in the apprenticeship signing day and will, as part of the Hillyard Program, have the opportunity to work/ apprentice at local businesses in Saint Joseph during the 26/27 school year.

The high school's end of year awards night was held on May 7th. This offered us the opportunity to celebrate the many accomplishments of our students this school year, both in the classroom and in extra-curricular activities. Part of the evening included awarding 33 senior students with various scholarships. Additionally, our North Platte Foundation presented $25,600 of scholarships to this year's senior class.

We want to thank all of our North Platte community members for your support of the Proposition K.I.D.S. no tax increase initiative that was voted on by our community on April 7th. Work has already begun on the track, football field, and concession stand. We will also begin to see work begin on roofing and HVAC on our Dearborn and Camden Point facilities this summer as well. It is an exciting time to be a panther, and our community is such a tremendous part of that. We are very excited for how all of the work in the coming months will be of benefit to all NP students for years to come!

We have been fortunate to have another great school year at NP. Our students have attained more accomplishments than can be noted in this newsletter. Achievements at the state level, broken records, distinguished recognitions for classroom performances, as well as musical and performance based have marked the 25/26 school year, and we are proud of our students and staff and their many achievements. With the close of another school year we want to thank all of our staff, families, and community members for their support of our school. State assessments, finals, activities, and events have encompassed much of the fourth quarter, and none of these

(Continued on page 6)

(Continued from page 5)
could have been completed successfully without the efforts and support of our stakeholders. We have appreciated the opportunity to be a part of each of our student's journeys this school year, and we look forward to what the 2026/2027 school year has in store for us. The first day of school for 26/27 will be Monday, August 24th, with registration night on Tuesday, August 11th beginning at 4:00 pm for seniors.
