**North Boone CUSD 200 Adopts New Policy Manual**

Poplar Grove, IL — The North Boone CUSD 200 board of education has completed its policy manual development project and voted to adopt a new district policy manual at its meeting held on Tuesday, January 20, 2026.

"Board members who worked on this project spent numerous hours to ensure that our district policies are in compliance with current laws and accommodate our students and the community," said Nan Schilling North Boone School board president. "I want to thank everyone for their hard work and time spent to make this happen."

"The policy committee, which included district staff members and board members, worked diligently for approximately seven months to complete this project. During that time, the committee held several meetings, each lasting between ninety (90) minutes and three (3) hours," added Superintendent Dr. Matt Cascio. "We are committed to keeping this manual current and staying up-to-date with needed policy changes and additions." The Board will utilize a subscription to IASB's *PRESS Plus* service to keep its policy manual up to date going forward.

Following processing from IASB, the policy manual will be available at https://www.nbcusd.org/board/policy/.
