ABOUT THE ASVAB CEP:

The ASVAB CEP is an opportunity at a complete, no cost, career planning assessment. The ASVAB CEP is an aptitude test that identifies skill strengths. The FYI is an interest inventory that highlights work-related interest areas. The results are used to guide career exploration. Following the test, a guided session provides an explanation of ASVAB CEP scores and FYI results, followed by an opportunity to discover potentially satisfying career fields and all the ways to gain career field entry using the OCCU-Find. Our hope with the completion of the ASVAB CEP, is for students to gain knowledge and make concrete career plans with these tangible outputs of their career exploration.
