City of Manassas Park
Fire & Rescue Department

2022 Annual Report

James Soaper

A MESSAGE FROM THE CHIEF

On behalf of the City of Manassas Park Fire and Rescue Department, it is my pleasure to present the 2022 Annual Fire and Rescue Annual Report.

We found 2022 to be a busy year for our department, not just dealing with the increased 911 calls for service, but also with training, department activities, community risk reduction efforts, inspections, and planning. These efforts take a toll on a department of our size always working at minimal staffing levels. It takes dedicated personnel to pull off all that's asked of them daily, always being asked to go above and beyond. They do this daily with the highest level of professionalism and compassion.

Our efforts within our community to reduce and respond to fire and EMS accidents remains a top priority. This year, we provided the community with the first ever "Community Fire Academy", which was received in a very positive manner with all of those in attendance. This fire academy was used to enlighten the community members of the daily activities of the fire department and how we prepare for both administrative and operational tasks. We were also preparing for our community risk reduction evaluation by the Office of Insurance Services (ISO). Currently our city holds a rating of 4, which our goal is always to lower this rating to its lowest possible rating of 1.

We continue to support our Northern Virginia (NOVA) partners with resources for special events as well as regional 911 AVL CAD to CAD dispatching. This year the department assisted with the Memorial Day Wreath Laying, Annual Marine Corp Marathon, and The Wreath Across America at Arlington National Cemetery.

We continue to make every effort to stay updated with technology to maintain our response data, training, activity records and inspections records. Our current record management system (RMS) is on the Image Trend data base, while department staffing and time keeping is done by Aladtec. We have a preplan data base with First Due that is used by NOVA region, which allows for preplans to be utilized no

matter where the call for service my lead you.
We maintained a fleet of apparatus throughout the year giving the increased length of lead time on parts and labor. We continue to house two engines, two ambulances (Medic), one ladder truck and one command response unit. We did receive a new Braun Ambulance this year, as well as placed an order for a new 2022 Pierce Enforcer pumper to replace the 2008 Pierce Enforcer.

Our department remains committed to providing the best service it can provide with the manpower and apparatus. We are provided through the city's budgeting processes. We applied for a FEMA Assistance to Firefighters Grant (Radio Upgrade Equipment) and Staffing for Adequate Fire and Emergency Response Grant (15 personnel requested). We are currently still awaiting an official word on these grants.

In closing, I would like to thank the excellent staff that makes up the City of Manassas Park Fire and Rescue Family for the dedication to our community. Our mission to provide a high level of quality service with professionalism and compassions has been noticed and supported by the city's elected officials. We will always remain committed to finding ways to improve our service delivery model.

Respectfully,

James Soaper, Fire Chief

Mission Statement

Our mission is to save lives and preserve property, to maintain the highest levels of training and education, and to promote health and safety throughout the community.

Core Values

Integrity, Teamwork, Competence, Professionalism, Customer Service

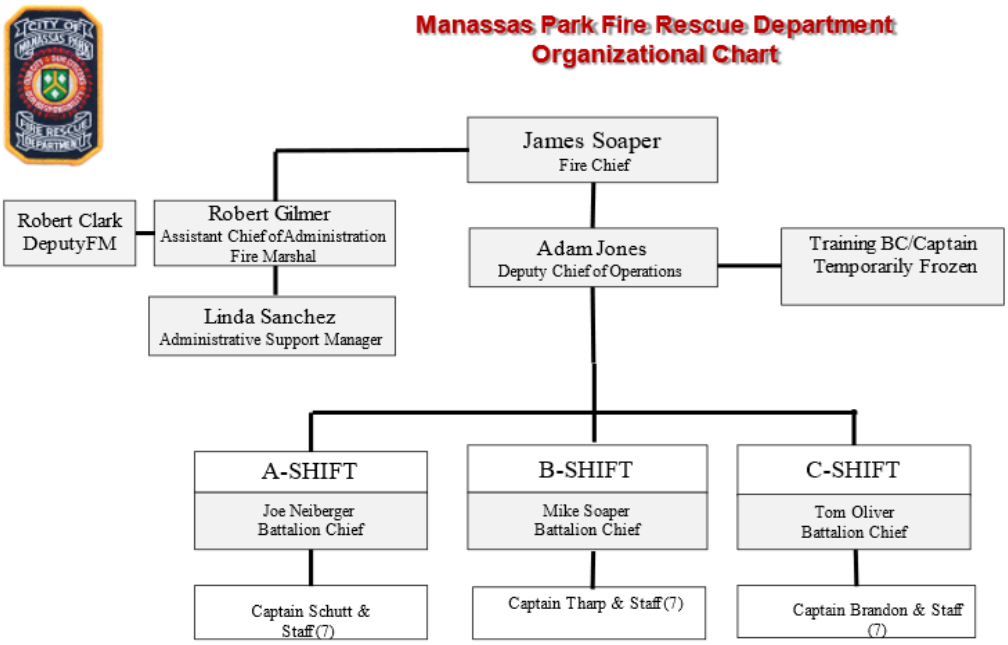

City Overview

The City of Manassas Park sits roughly 29 miles the nation's capital Washington D.C. and is part of the National Capital Region (NCR). The city's estimated population of 18,200, lives within a dense area of approximately 3 square miles. The 3 square miles of are comprised of multiple different types of residential living (single family homes, multiply family complexes, condos, townhomes, educational facilities, commercial, industrial, and green space parks). The City of Manassas Park became an incorporated city in 1975. It was the last incorporated city in the Commonwealth of Virginia leaving it with the nickname of Virginia's Newest City. Economic development continues to happen within the city causing to rapidly grow, while increasing it property values to match that of its neighbors in the NOVA region. The city has a north and south rail line running through the middle of it for commuter trains, passenger trains (Amtrac), and Norfolk Southern fright line. The major roadways are Centreville Road (Rt. 28) and Manassas Drive.

Organizational Chart

Organizational Overview

The City of Manassas Park Fire and Rescue Department consist of three divisions. The department is led by the Fire Chief, with assistance from the Deputy Fire Chief and Assistant Chief with an approved FTE count of 29 with 2 over hires assigned to operations. The department staffs daily one ALS engine, one ambulance (Medic unit), and a Command Unit. The department has recent added back into its apparatus fleet a 100' aerial platform. We receive automatic aid from our Northern Virginia (NOVA) Fire and EMS partners. Currently, we share a consolidated dispatching agreement with Prince William County and City of Manassas Fire Departments. All three fire and EMS agencies receive 911 dispatching from Prince William County Communications utilizing the Automatic Vehicle Locator (AVL) for closest unit dispatch. We continuously monitor the Manassas Park Police Dispatch for situational awareness within our community. Currently the organization holds an Insurances Services Offices (ISO) rating of 4.

The Operational Division is led by the Deputy Fire Chief, which is staffed 24 hours per day, 365 days a year. The operations division works a 24 hour on duty, 48 hours off duty schedule, with an assigned Kelly day for each staff member. Each shift is assigned a Battalion Chief and Captain. These individuals run the day-to-day training, operations, and activities under the direction of the Deputy Fire Chief. All three shifts are staffed with equal amounts of personnel consisting of an FTE count of 27.

The Administrative Division is led by the Assistant Fire Chief, which works a 40-hour work schedule. The administrative staff handles all the departments account payable, account receivables, budgeting, purchasing, and other administrative duties. The administrative team consist of the Fire Chief, Assistant Fire Chief, and administrative manager, with support from the three Battalion Chief's.

FY22 Adopted Budget	Fiscal Year	FY23 Adopted Budget
$3,069,978.38	Salary& Benefit	$3,148,849.81
$361,136	Operational Funds	$426,124.95
$60,000	Grant Funds	$60,000
$3,501,114,38	Total	$3,644,930,53

The Fire Marshal's Office is the code compliance and enforcement officer of the department. This division is led by the Assistant Fire Chief with assistance from the Deputy Fire Marshal. This division handles all annual inspections, investigations, plan reviews, and community risk reduction educational events. This division has someone on call 24 hours a day, 365 days a year.

Response Data

Currently the Manassas Park Fire and Rescue Department participates in the Virginia Fire Reporting Incidents System (VFRIS) and the National Fire Incident Reporting System (NFIRS). This data is submitted monthly for tracking and analysis of response trends within the community to assist with risk management, fire loss, and service delivery.

Fire Marshal's Office Data

Code Administration

The Manassas Park code administration division promotes life and property safety through code compliance and public education. The division is led by an Assistant Chief, who serves as the city's fire official, fire marshal, and fire code enforcement official. Currently the fire marshal's office is a division of two, with assistance from other trained staff personnel as needed. The fire marshal's office is divided into four main sections: Community Risk Reduction, Fire Investigations, Environmental Crimes, and Administration.

Community Risk Reduction

Community Risk Reduction requires the Fire Marshal to work with the public, business owners, building owners, Manassas Park schools, Commissioner of Revenue, Community Development, developers, and engineers.

- Fire Inspection Program
- Public Education (fire prevention, emergency planning, school events, in house training for operations staff, smoke detector program)
- Plans Review (site plans, fire system plans, special event emergency planning).

Fire Investigations

Investigations requires the Fire Marshal to work with area law enforcement, Magistrate, City Attorney, Commonwealth Attorney, Medical Examiner, and the State Forensic Labs.

- Background checks for new hires.
- Fire investigations (structure fires, outdoor fires)
- Explosives investigations (bomb threats, suspicious packages, homemade explosives per MP City Code Sec. 9-112)

Environmental Crimes

Environmental Crimes requires the Fire Marshal to work with Environmental Protection Agency (EPA), Department of Environmental Quality (DEQ), Department of Consolidated Lab Services (DCLS), Prince William County Haz-mat Team, clean up contractors and excavation companies.

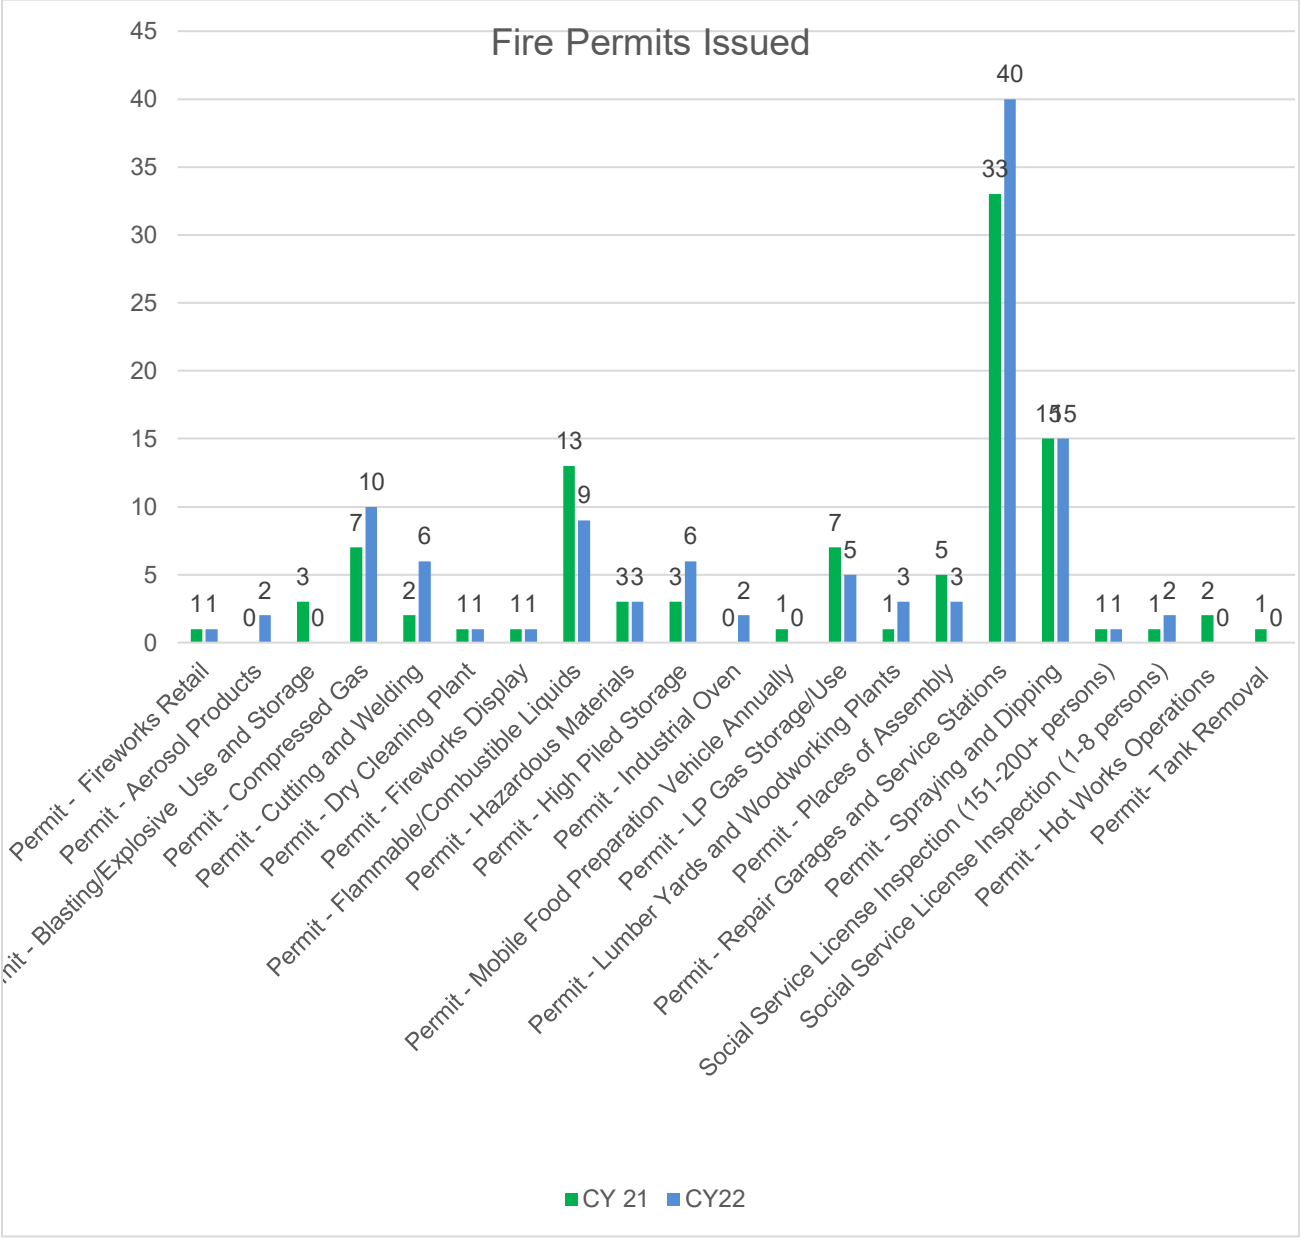

- Illegal dumping (trash, chemicals, illegal junk yards)
- Hazardous materials release (commercial accidents)
- Underground fuel oil storage tank removal. (Heating oil tanks, fuel tanks)

Administration

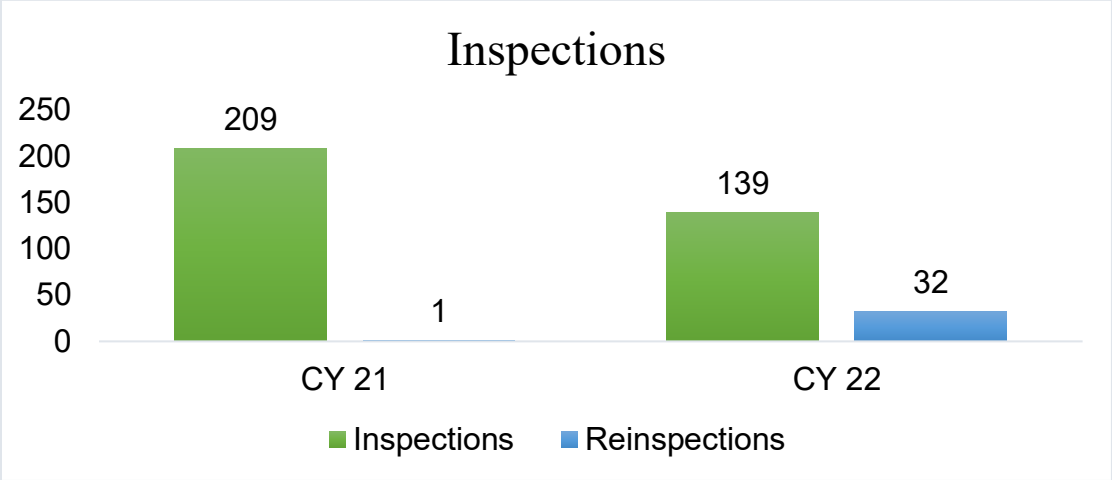

Administration requires the Fire Marshal to work with City staff. Primarily, but not limited to the Fire Department senior staff.

- Serves as lead financial officer for the department.
- Handles department procurement contracts.
- Division equipment management.

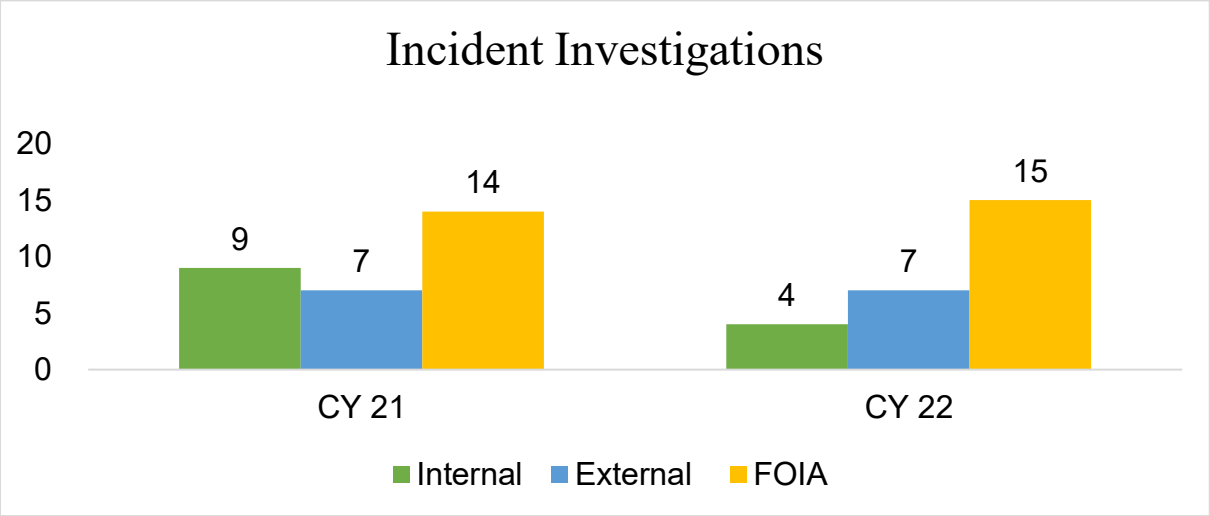

Fire Permits 2021-2022

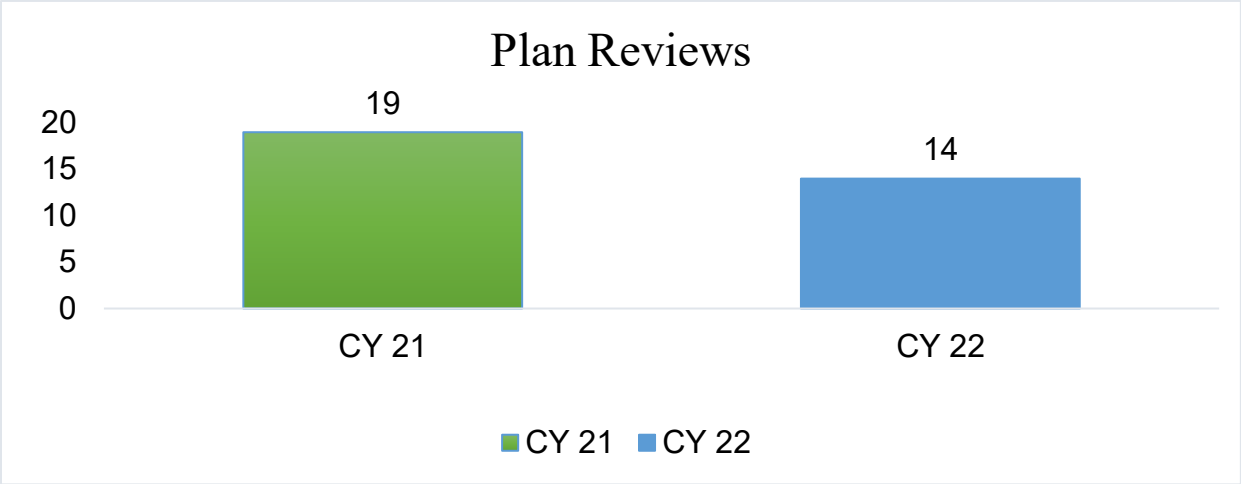

Fire Inspections / Re-Inspections 2021-2022

Investigations 2021-2022

Plans Reviews 2021-2022

Highlights for Fire Marshal's Office 2022

- Maintained inspections of city's high Hazard Occupancies with minimal staffing.
- Facilitated the departments first ever "Residents Fire Academy".
- Firework and Food Truck Inspections at the city's annual July 4th firework celebration.
- Community outreach tent established with fire safety supplies at city events (City Hall Grand Opening, National Night Out, Latino Festival, and Trunker Trick Halloween.
- Fire Departments Annual Open House which included live fire demonstrations.
- Meet with over 400 kids at the Manassas Park Elementary Campus.

Manassas Park Fire and Rescue Training

The current plan in place for keeping personnel updated and trained with the current standards to deliver the highest level of quality service is led by the Battalion Chief of Training. The training division is a division of one. The Battalion Chief in charge is an adjacent training instructor for Virginia Department of Fire Programs (VDFP) and sits on the Northern Virginia Training Committee.

The nature of the services provided to our residents, business owners, employees, and guests within our city a focus on first-due familiarity. A solid understanding of the community we serve provides an environment of personal safety, efficiency, and effective procedures that inherently protect life and property and to preserve a healthy environment for all.

Training is a key activity that supports our Departments Mission Statement. The importance of training is expressed in our aggressive efforts to solicit outside mentors and training staff for unique and new perspectives on our craft. The structure of our annual training program has the following focus points:

Driver Operator skills and abilities
City Facility familiarity
High Risk occupancy familiarity
HAZMAT training
EMS skills and abilities
Officer training/development
Administration training
Occupational Health and Wellbeing

There are training outlines/assignments for each topic assigned each month for each operational member. Training expectations are not limited to those who have already been cleared/released for those specific operations. These training opportunities are seen as an avenue for individual growth and development in their career development.

Driver Operator skills and abilities is a broad topic that includes over the road safety and skills; however, due to the nature of the job, skills such as street familiarity and apparatus tool and equipment familiarity are equally important. NFPA 1410 drills are utilized to test and measure operator efficiency in accordance with national standards.

City Facilities are visited at least once a year to assure familiarity with our facilities and to orient new employees. These visits include consideration of both fire and EMS type scenario considerations, hazard locations, staging considerations to name a few. This same approach is taken with High-Risk occupancies such has high hazard locations and multi-family dwellings.

Officer Training is such a broad brush and does require the employee to participate in off-duty and sometimes out of station trainings such as those offered by the Virginia Department of Fire Programs and/or the National Fire Academy. Administration skills and ability training dovetails into Officer Training as the further an employee advances in their career, the more administration is required. This growth begins at entry level positions and as such we encourage all employees to develop their writing skills and abilities through the monthly NFIRS training. Additionally, all personnel are expected to be familiar with local and regional policies and procedures.

Station and Apparatus

The City of Manassas Park Fire and Rescue Department operates out of a single fire and EMS station (509) located at 9080 Manassas Drive, Manassas Park, VA 20111. The station was built in 2004-05, with occupancy taking place in April of 2005. The station is geographically in the middle of the city to improve response times. The location of the station plus the recent addition of AVL dispatching has greatly improved response and unit on scene times for the entire NOVA region not only Manassas Park Fire and Rescue.

The station has been updated or in the process of being completed with new CAD monitors throughout the station for enhanced situational awareness of 911 emergency calls, updated 911 alerting system West Net, new apparatus bay doors, and new apparatus ventilation system for vehicle exhaust capturing. These projects are part of the departments comprehensive capital improvement plan (CIP). The department maintains a CIP plan for building needs, Fire & EMS equipment, and apparatus replacement. The CIP plan is reviewed by the City Manager each year and approved by both the Planning Commission and Elected Officials, who make up the governing body for all city business.

The Department operates the following response ready apparatus:

- **2017 Pierce Velocity** 2000 gallons per minute Waterous pump with 750 gallons of water with a 40-gallon foam cell (AFFF Class B). The unit can carry a total staffing of 5 personnel.

2008 Pierce Enforcer 1750 gallon per minute Waterous pump, with 750 gallons of water with a 40-gallon foam cell (AFFF Class B). This unit can carry a total staffing of 6 personnel.

Coming Soon!!!
