COYOTE Caller

June 1, 2026

Last week was a busy week as we made it through end-of-year NWEA testing, grade level concerts, and our Art Show! Thank you for encouraging your student to do their best and persevere when tasks felt challenging. Your support makes a tremendous difference.

It's hard to believe this fantastic school year will come to a close in just a few short weeks. Together, we've created countless memories, celebrated achievements, learned new skills, and watched our Coyotes grow into confident, capable learners. Their hard work, kindness, and determination have been inspiring to see, and we couldn't be prouder of all they have accomplished this year. We look forward to making the most of these final weeks as we celebrate another successful year of learning and growth!

Reminders:

- **Final Days:** As we head into the final weeks of the school year, we are making the most of our time together! Students are wrapping up their final units in math and literacy while also taking time to reflect on their growth, accomplishments, and memories from this year.
- **Ice Cream Social**: We hope to see everyone on Thursday evening for our final family engagement event of the year! Every student who attends will receive a ticket for a chance to either pie a teacher in the face or silly-string a staff member during Field Day. Additional tickets will be available for purchase to increase their chances, so feel free to bring some cash if you'd like to participate.
- **Field Day:** Students are encouraged to wear their grade-level color as they participate in a variety of outdoor activities around our campus. Please make sure your child dresses appropriately for the weather and applies sunscreen at home before arriving at school. As a reminder, staff members are not permitted to apply sunscreen. Students may only bring sunscreen to school if the nurse has received a signed parent permission note in advance. If you are interested in volunteering for Field Day, please email ltibbetts@sanford.org. We appreciate your support and look forward to a fun-filled day!

- 6/16: Last Day of School for grades 1-4

BUILDING HEALTHY HABITS FOR LIFE:

As we head toward the end of the school year, students have been busy learning important health and wellness topics in class! All grade levels have been learning about personal hygiene and healthy habits to help care for their bodies. Students have discussed topics such as hand washing, dental care, bathing, wearing clean clothes and making healthy choices each day. These lessons help students build independence and confidence in taking care of themselves.

Our fourth grade students have also been learning about puberty and they physical and emotional changes that happen as children grow. Students have had thoughtful discussions about body changes, personal care and the importance of respect and kindness toward themselves and others.

As summer approaches, all grades will begin to learn about bike and water safety. These lessons will focus on ways students can stay safe while enjoying outdoor summer activities. We encourage families to continue these conversations at home and help reinforce safe habits throughout the summer months. We hope everyone has a safe, healthy and fun summer ahead.

MIGHTY COOL STUDENT AWARDS

A BUG-TASTIC CELEBRATION!

Last Friday, our second grade students proudly showcased their learning during their Insect Celebration! Families were invited into the classroom to admire the students' creative insect sculptures and listen as they shared their informative writing pieces. Over the past several weeks, students researched a specific insect, learning fascinating facts about its habitat, diet, life cycle, and unique characteristics. They then transformed their learning into detailed writing projects and impressive sculptures that highlighted their chosen insect. The celebration provided students with an opportunity to practice their speaking skills and celebrate all of their hard work. We are so proud of the confidence, creativity, and dedication our second graders demonstrated throughout this project. Thank you to all the family members who joined us to make the event so special!

A "P"-FECT DAY OF CELEBRATION!

Mrs. Civiello's class recently celebrated an achievement after filling their pom-pom jar through hard work, positive behavior, and teamwork! To mark the occasion, students enjoyed a special "P Day" packed with fun activities with all beginning with the letter P. The celebration included pancakes, a pizza picnic, and the chance to spend the day in their pajamas. Students had a wonderful time celebrating their success together and were proud of the effort it took to reach their goal.
