Cameron Mahoney Memorial Scholarship

The Cameron Mahoney Scholarship was established in loving memory of Cameron Mahoney, whose exceptional aptitude for mechanical work and passion for hands-on problem solving left a lasting impression on all who knew him. Cameron approached life with fearless enthusiasm, a love of adventure, and a particular interest in motorsports, especially dirt bikes. Through his dedication to working on and repairing them, he developed a strong foundation in mechanical skill and craftsmanship.

A 2024 graduate of Wells High School and Sanford Regional Technical Center, Cameron earned a certificate in Collision Repair, reflecting his commitment to pursuing a career in the skilled trades.

This scholarship is awarded to a student who is pursuing a career in a skilled trade. The recipient demonstrates a clear interest in hands-on work, mechanical systems, or repair-based fields, along with a strong work ethic and sense of purpose. Applicants are asked to share the experiences or motivations that have inspired their chosen path.

To honor Cameron’s legacy, not only as someone who could fix anything, but as an individual who took pride in using his talents to help others, this scholarship seeks to financially assist students who share Cameron’s passion and dedication to the trade and community.

2026 SRTC Student of the Year

Student of the Year Winner: Sofia Sharood
Sports Medicine
Kennebunk High School

In the fall of 2025, SRTC launched a brand-new Sports Medicine program. Within months, one student had already made it her own.

Sofia Sharood is a junior from Kennebunk High School who recognized immediately that SRTC’s Sports Medicine program aligned with her passion and her plan. She applied, was accepted, and has not slowed down since. This year alone, she has earned four professional certifications, participated in emergency response simulations, interned with the Kennebunk athletic training staff, organized her school’s Healthcare Club Blood Drive, and volunteered as a tour guide at SRTC’s Sports Medicine Open House. This spring she joined NTHS and earned a Bronze medal in Career Pathways Health at SkillsUSA Maine.

Sofia’s goals are clear and ambitious — a master’s degree in Athletic Training, a Doctor of Osteopathic Medicine degree, and a career serving collegiate or professional athletes as both a D.O. and a certified Athletic Trainer. She is not dreaming about her future — she is building it.

In her own words: “When education is connected to purpose, it becomes powerful.”

Sofia, on behalf of the faculty, staff, and students of Sanford Regional Technical Center — we are incredibly proud of you!

2026 MPA Administrative Assistant of the Year

SRTC's very own Darlene Breton

Sanford Regional Technical Center Administrative Assistant Darlene Breton has been named the 2026 Maine Principals' Association Administrative Assistant of the Year. The award recognizes school administrative professionals across Maine who demonstrate exceptional dedication, leadership, and service to their school communities.

Darlene has served SRTC since November of 1983, making her one of the longest-serving staff members in the center's history. Over that time, she has worked alongside every director the school has had and has witnessed SRTC grow from approximately 300 students to nearly 800 today.

Ms. Breton keeps the school's complex day-to-day operations running seamlessly. Her leadership is steady, reliable, and indispensable. She does so without fanfare, ensuring that every teacher, every student, and every program has what it needs to succeed. That is leadership in its truest form. She is an exceptional listener who takes the time to truly hear the needs of those around her — whether it is a staff member navigating a difficult situation, a student seeking support, or an administrator working through a challenge. Her patience is remarkable, and her ability to remain calm and composed in the face of a demanding, fast-paced environment sets a tone of stability and trust throughout our building.

The Sanford Regional Technical Center is a better school because of Darlene Breton and Maine's students are better served because of people like her.
