RINGWOOD BOARD OF EDUCATION

Snow Removal Procedures

DISTRICT OPERATIONS & SAFETY PROTOCOL

The Ringwood Board of Education is implementing the following procedures to safeguard community members and employees while they are on school property during or after a snowfall:

1. **Grounds Access Restrictions:** Access to school grounds will not be permitted during snow removal. Appropriate signs will be posted at all entrances to all schools.

2. **Clearance of School Premises:** Anyone on school premises, other than district employees, will be required to leave prior to the commencement of snow removal.

3. **On-Site Enforcement at Ryerson School:** Ryerson School will have a district employee posted at the bottom of the school's driveway to help enforce these procedures.

4. **Plowing Deployment Sequence:** We will begin snow removal at Ryerson first and deploy the appropriate number of plows to clear the grounds as quickly and safely as possible.

We thank everyone for your anticipated cooperation in this important matter.
