MEET MRS. CHEEZIC

Judson's SRBI Coordinator

About Me

I have been a teacher for 20 years. I grew up in Woodbury and started my career teaching at the same elementary school where I went as a child. I taught 3rd grade at Polk School for 5 years before coming to Judson in 2020. When I am not at Judson you can find me spending time with my husband and my two children, Max (20, college junior) and Anna (17, high school senior).

I have a bachelor's degree in Psychology from CCSU , a masters in Elementary Ed from the University of Bridgeport and a second masters in Education/ Language Arts from the University of Saint Joseph.

Fun Facts About Me

I have two cats. Their names are Remus and Scarlett.

I am a Harry Potter fan!

I love watching movies with my family. The best movies make you both laugh and cry, but I also like scary movies!

I am an avid reader and book lover!

My favorite season is fall, but I **love** summer at the beach!

My Role at Judson

As the SRBI Coordinator at Judson , I help support all students by overseeing benchmark testing, managing student data, and guiding our school's intervention process. I lead our Early Intervention Team (EIT) and facilitate meetings such as PPT and 504 sessions to make sure every student gets the support they need.

You might see me helping out with iReady testing, stepping in when Mrs. Raymond is out of the building, or spending time in academies, where I've enjoyed running the Judson Joy Squad and Chill Champions. My goal is to help every student feel successful and supported at school.!
