Ps. 19:14"May the words of my mouth and the meditation of my heart
be pleasing in your sight,
O LORD, my Rock and my Redeemer. "

Psalm 19 starts with David's observation of God's revealing Himself through creation - general revelation. Most likely those observations took place while he was a shepherd. Then David moves to the Law of God - special revelation. He comments on the the immense affect it has had on the world, ending with how both general revelation and special revelation compel David to self-meditation. That is such a healthy response. A great indicator of how healthy you are with your relationship to the Lord can be assessed by monitoring your speech and thought life. Prayerfully, your conclusion is the same as David's - "O LORD, my Rock and my Redeemer."

Family Reunion

It was a rough trip up! Due to cancelled flights, flights leaving late which led to missed connections it turned into a 22 hour day. Grandchildren can't be bothered with your travel experience. Needless to say, Sandy and I have been buried in hugs, kisses, and gleeful screams. Our annual family reunion is by far one of our highlights of the year. One of our supporters lends us their beach home in New Jersey. It is a big enough house to fit us all. Our hearts are filled with joy and gratitude.

Building

The construction continues. I left the necessary money for materials, salaries, and food for the staff and students. We had to order more tiles for the second floor due to cuts and some of the tile arrived broken. The workers are now installing the tile on the main floor, focusing on the kitchen. Juan and Susy have been very gracious allowing us to be amongst them while the building gets finished.

Students and Staff

Before leaving, I was able to spent time alone with two students. I am encouraged that these young people are taking their faith seriously. They have a deep desire to serve the Lord and make their life count for Him. At the same time, there is much dysfunction in their family life. I am deeply grateful to our staff for the great job they are doing. Benja and Keila, Juan and Susy are doing a fantastic job.

Prayer Requests:

1. Please pray for our students to understand their calling and to be obedient to His calling.
2. Please pray we get electricity soon.
3. Please pray for rain.
4. Please pray for our students to have a clear understanding of their calling.
