SECTION 2 STANDARD TERMS AND CONDITIONS

The signed and dated contract between the SFA and the Vendor shall be governed in accordance with the laws of the State of Georgia and all applicable Federal regulations.

I. LOBBYING CERTIFICATE (for bids over \$100k)

A Lobbying Certification and Disclosure must be completed for all bids \$100,000 and over. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352): Vendors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. See and complete *Attachment D*.

II. DEBARMENT AND SUSPENSION VERIFICATION (for bids over \$25k)

Institutions shall solicit offers from, award contracts to, and consent to subcontracts with responsible vendors and/or principals only. The serious nature of debarment and suspension requires that sanctions be imposed only in the public interest for the Government's protection and not for purposes of punishment. Institutions shall impose debarment or suspension to protect the Government's interest and only for the causes and in accordance with the procedures set forth in 2 CFR 200.213.

The Vendor certifies that the Vendor and/or any of its sub vendors or principals have not been debarred, suspended, or declared ineligible by any agency of the State of Georgia or any agency of the Federal government or as defined in the 2 CFR 200.213 which states "Non-federal entities are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180.

These regulations restrict awards, sub awards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities." The Vendor will immediately notify the School Food Authority if Vendor is debarred or placed on the Consolidated List of Debarred, Suspended, and Ineligible Vendors by a federal entity.

By signing this agreement, the Vendor is testifying that they are not debarred, suspended, or has any ineligible or voluntary exclusions with the U.S. Department of Agriculture or any other Federal or State Agency.

All responses will be verified. Debarment and Suspension (Executive Orders 12549 and 12689): A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. See *Attachment E*

III. DOMESTIC PREFERENCE FOR GOODS AND MATERIALS (Applicable to non-food only) 2 CFR 200.322

As appropriate and to the extent consistent with law, the recipient and/or sub recipient should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all sub awards including all contracts and purchase orders for work or products under this award.

For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Federal agencies providing Federal financial assistance for infrastructure projects must implement the Buy American preferences set forth in 2 CFR part 184.

IV. REMEDY FOR NON-PERFORMANCE/ TERMINATION OF CONTRACT [2 CFR Appendix II to Part 200 (B)]

All contracts in excess of \$10,000 must address termination for cause and for convenience by the recipient and/or sub recipient including the manner by which it will be affected and the basis for settlement:

(a) **Termination for Cause.** The SFA may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the SFA, upon request, with adequate assurances of future performance. The SFA shall provide the Contractor with a written notice thirty (30) days prior to the contract termination date, outlining the reasons for the termination and specifying the remedies the SFA intends to pursue. In the event of termination for cause, the SFA shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the SFA for any and all rights and remedies provided by law. The Contractor may also terminate this contract under the same set of aforementioned conditions.

The occurrence of any one or more of the following events shall constitute cause for the SFA to declare the Vendor in default of its obligation under the Contract:

- (i) The Vendor fails to deliver or has delivered nonconforming goods or services or fails to perform, to the SFA's satisfaction, any material requirement of the Contract or is in violation of a material provision of Contract, including, but without limitation, the express warranties made;
- (ii) The SFA determines that satisfactory performance of the Contract is substantially endangered or that a default is likely to occur;
- (iii) The Vendor fails to make substantial and timely progress toward performance of the Contract;
- (iv) The Vendor becomes subject to any bankruptcy or insolvency proceeding under federal or state law to the extent allowed by applicable federal or state law including bankruptcy laws; the Vendor terminates or suspends its business; or the SFA reasonably believes that the Vendor has become insolvent or unable to pay its obligations as they accrue consistent with applicable federal or state law;
- (v) The Vendor has failed to comply with applicable federal, state, and local laws, rules, ordinances, regulations and orders when performing within the scope of the Contract;
- (vi) The Vendor has engaged in conduct that has or may expose the SFA or the State to liability, as determined in the SFA's sole discretion; or
- (vii) The Vendor has infringed any patent, trademark, copyright, trade dress or any other intellectual property rights of the SFA, the state, or a third party.

- (viii) **Immediate Termination.** This contract will terminate immediately and absolutely if the SFA determines that adequate funds are not appropriated or granted or funds are de-appropriated such that the SFA cannot fulfill its obligations under the Contract, which determination is at the SFA's sole discretion and shall be conclusive. Following thirty (30) days' written notice, the SFA may terminate the Contract in whole or in part without the payment of any penalty or incurring any further obligation to the Vendor. Following termination upon notice, the Vendor shall be entitled to compensation, upon submission of invoices and proper proof of claim, for goods and services provided under the Contract to the SFA up to and including date of termination. Further, the SFA may terminate the Contract for any one or more of the following reasons effective immediately without advance notice:
1. In the event the Vendor is required to be certified or licensed as a condition precedent to providing goods and services, the revocation or loss of such license or certification may result in immediate termination of the Contract effective as of the date on which the license or certification is no longer in effect;
 2. The SFA determines that the actions, or failure to act, of the Vendor, its agents, employees or sub vendors have caused, or reasonably could cause, life, health or safety to be jeopardized;
 3. The Vendor fails to comply with confidentiality laws or provisions;
 4. The Vendor furnished any statement, representation, or certification in connection with the Contract or the bidding process, which is materially false, deceptive, incorrect, or incomplete; and/or
 5. The Vendor or SFA commits a material breach of this Contract.
- (b) **Termination for Convenience.** The SFA may terminate this contract for any reason, provided that the SFA shall be required to provide the Contractor with a prior sixty (60) days' written notice of the effective date of such termination (the "Termination for Convenience Date"). The Contractor may also terminate this contract under the same set of aforementioned conditions. The contractor will be compensated for work performed and costs incurred up to the date of termination, as well as any charges that directly result from the termination.
- (c) **Notice of Default.** If there is a default event caused by the Vendor, the SFA shall provide written notice to the Vendor requesting that the breach or noncompliance be remedied within the period of time specified in the SFA's written notice to the Vendor. If the breach or noncompliance is not remedied within the period of time specified in the written notice, the SFA may:
- (i) Immediately terminate the Contract without additional written notice; and/or
 - (ii) Procure substitute goods or services from another source and charge the difference between the Contract and the substitute contract to the defaulting Vendor, and/or,
 - (iii) Enforce the terms and conditions of the Contract and seek any legal or equitable remedies.
- (d) **Termination Due to Change in Law.** The SFA shall have the right to terminate this Contract without penalty by giving thirty (30) days' written notice to the Vendor as a result of the following:
- (i) The SFA's authorization to operate is withdrawn or there is a material alternation in the programs administered by the SFA; and/or
 - (ii) The SFA's duties are substantially modified.
- (e) **Payment Limitation in Event of Termination.** In the event of termination of the Contract for any reason by the SFA, the SFA shall pay only those amounts, if any, due and owing to the Vendor for goods and services actually rendered up to and including the date of termination of the Contract and for which the SFA is obligated to pay pursuant to the Contract or Purchase Instrument. Payment will be made only upon submission of invoices and proper proof of the Vendor's claim. This provision in no way limits the remedies available to the SFA under the Contract in the event of termination. The SFA shall not be liable for any costs incurred by the Vendor in its performance of the Contract, including, but not limited to, startup costs, overhead or other costs associated with the performance of the Contract.

(f) **The Vendor's Termination Duties.** Upon receipt of notice of termination or upon request of the SFA, the Vendor shall:

- (i) Cease work under the Contract and take all necessary or appropriate steps to limit disbursements and minimize costs, and furnish a report within thirty (30) days of the date of notice of termination, describing the status of all work under the Contract, including, without limitation, results accomplished, conclusions resulting there from, and any other matters the SFA may require;
 - (ii) Immediately cease using and return to the SFA, any personal property or materials, whether tangible or intangible, provided by the SFA to the Vendor;
 - (iii) Comply with the SFA's instructions for the timely transfer of any active files and work product by the Vendor under the Contract;
 - (iv) Cooperate in good faith with the SFA, its employees, agents, and vendors during the transition period between the notification of termination and the substitution of any replacement vendor;
 - (v) Immediately return to the SFA any payments made by the SFA for goods and services that were not delivered or rendered by the Vendor; and
- Understand that all supplemental contracts, purchase orders, and/or orders for goods or services issued by the SFA and accepted by the vendor shall survive the expiration or termination of this contract.

V. HUB (Historically Underutilized Business) STATEMENT

It is the intent of the SFA to provide maximum practicable opportunities in its solicitations to minority firms, women's business enterprises, labor surplus area firms and veteran-owned businesses.

Small businesses, women and minority-owned business sources, labor surplus area firms and veteran-owned businesses will not be given unfair advantage when evaluating competitive purchases i.e., simplified acquisition purchases, sealed bids, proposals, or noncompetitive procurement (2 CFR 200.321).

When possible, the recipient or sub recipient should ensure that small businesses, minority businesses, women's business enterprises, veteran-owned businesses, and labor surplus area firms (See U.S. Department of Labor's list) are considered as set forth below. Such consideration means:

- (2) These business types are solicited whenever they are deemed eligible as potential sources;
- (3) Dividing procurement transactions into separate procurements to permit maximum participation by these business types;
- (4) Establishing delivery schedules (for example, the percentage of an order to be delivered by a given date of each month) that encourage participation by these business types;
- (5) Utilizing organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
- (6) Requiring a contractor under a Federal award to apply this section to sub contracts.

the SFA shall participate in selection or in award or administration of a contract supported by the School Nutrition Program funds if conflict of interest, real or apparent, would be involved. Conflicts of interest arise when one of the following has a financial or other interest in the firm selected for the award:

- The employee, office, or agent;
- Any member of his/her immediate family;
- His or her partner;
- An organization which employs or is about to employ one of the above.

Further, the employees, officers, or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from vendors or parties to sub-agreements; and the purchase of any food or service from a vendor for individual use is prohibited; and the removal of any food, supplies, equipment, or school property, such as records, recipe books, supplies and the like is

prohibited; and outside sale of such items as used oil, empty cans, and the like will be sold by contract between the Board of Education and an outside agency. Individual sales by any school person to an outside agency or other school person is prohibited. Failure of any employee, officer, or agent to abide by the above states code could result in a fine, suspension, or both, and dismissal. Interpretation of the code will be given at any time by contacting the School Nutrition Department.

The SFA will not be responsible for any other explanation or interpretation which anyone presumes to make on behalf of the Board of Education.

XIII. DUTY TO EXAMINE

It is the responsibility of each Bidder to examine the entire solicitation, seek clarification in writing, and check for accuracy before submitting the offer. Lack of care in preparing shall not be grounds for withdrawing after the offer due date and time nor shall it give rise to any contract claim.

XIV. EXCEPTIONS TO TERMS AND CONDITIONS

A bid that takes exception to a material requirement of any part of this solicitation, including a material term and condition, shall be rejected.

XV. VELOCITY REPORT (where applicable)

Vendor shall supply a velocity report to the School Nutrition Director upon request. It must include Year to Date totals of individual items purchased.

XVI. VENDOR AFFIDAVIT (under O.C.G.A. § 13-10-91(b) (1))

Vendor verifies its compliance with O.C.G.A. § 13-10-91 and is authorized to use and uses the federal work authorization program commonly known as E-Verify, by completing *Attachment I*.

XVII. INTERNAL CONTROLS 2 CFR 200.303

Take reasonable cybersecurity and other measures to safeguard information including protected personally identifiable information (PII) and other types of information. This also includes information the Federal agency or pass-through entity designates as sensitive or other information the recipient or sub recipient considers sensitive and is consistent with applicable Federal, State, local, and tribal laws regarding privacy and responsibility over confidentiality.

SECTION 3

SPECIAL TERMS AND CONDITIONS

I. PROPRIETARY INFORMATION

If a Bidder submits any document with the bid that is considered to be proprietary in nature or is considered to be a trade secret, the Bidder shall notify the school district that the documents are included in the bid. The school district will honor the request unless or until a competing Bidder asks to have access to the information. In such case, the school district will notify the affected Bidder that a challenge has been made. If the affected Bidder can produce a court issued restraining order within ten calendar days subsequent to the notification, the information will remain confidential and shall not be released pending subsequent court action. If the restraining order is not received within the ten working day period, the information will be released, and the school district shall not be held liable.

II. TRADE NAME, LABELS AND OTHER REQUESTS (Where applicable)

- a) All items shall be properly labeled. No private labels will be accepted on commercial products.

III. PRICING INFORMATION AND METHOD OF PAYMENT

- a) Prices: All prices offered shall be firm against any increase for 6 months/183 days from the date of the contract award. Subsequently, the SFA may entertain a request for escalation/de-escalation on a 6-month basis. These price adjustments must be based on changes in market conditions and verified in accordance with the most recent publication from a valid third party such as from:
 - Yearly Percentage Change in the Consumer Price Index (CPI) for All Urban Consumers, as published by the U.S. Department of Labor, Bureau of Labor Statistics
 - And/or other valid third party

Request for price increases and/or decreases must be submitted to the SFA 30 days prior to taking effect. The aforementioned third-party publication/documentation must accompany requested price increases.

The SFA reserves the right to accept or reject the request for a price increase and will maintain documentation of approval or denial. If price increases escalate above 10 % per the awarded price of each product, the SFA reserves the right to provisionally purchase the product from another source if an equal and more reasonably priced option can be acquired, based on specifications. This clause also obligates vendor to provide price decreases from de-escalation on the same terms.

If administrative/operational fixed fees are also significantly affected by market conditions during periods of unprecedented economic instability, that are beyond the control of either the SFA or the vendor, a fixed fee price adjustment can also be increased up to 10 % on a 6-month basis. This fixed fee price increase must be verified by the current applicable CPI, such as the monthly CPI motor fuel index for times when fuel prices unexpectedly increase rapidly. The publication/documentation must accompany associated requested price increases.

- b) The successful Bidder warrants that the bid price(s), terms, and conditions stated in the bid shall be firm through the bid process and until the time the award is made at which time prices shall remain firm and fixed for the contract period and in accordance with terms listed within the Escalation/De-escalation Clause, if applicable.
- c) All bid prices must include all charges for packing and transporting to the individual schools listed at the addresses on the attached sheet. Separate fuel charges will not be added to invoices.
- d) Prices will not include Federal Excise Tax or State Sales Tax.
- e) The SFA will make payment within thirty (30) days of receipt of the invoice for properly received goods and services after inspection and acceptance of the product by the SFA. Advance billings are not allowed. When partial delivery is made, invoice for such part shall be made upon delivery, and payment made within thirty (30) days under the conditions as above.
- f) Invoicing
 - i) Invoices, at minimum, shall consist of the following information:
 1. Delivery location and date of delivery
 2. Item description and cost
 3. Extended cost for total quantity purchased
 4. Total cost of all products purchased
 5. Signature of acceptance

ii) Monthly statements will be broken down by school invoice and mailed or emailed to the:

SFA School Nutrition Director or designee

IV. METHOD OF SHIPMENT/ORDERS & DELIVERY INFORMATION

- a) Orders and deliveries: Orders and deliveries shall be supplied by the vendor as requested and specified except during an emergency and on holidays. No partial deliveries will be accepted. Inspection: Upon delivery of product(s), the item(s) will be inspected by the facility, and if found to be defective or failing in any way to meet specifications as indicated, the item(s) may be rejected or returned. Problems found with products due to concealed damage will be addressed on a case-by-case basis. Rejected product(s) must be picked up immediately.
- b) Credit: Credit or replacement will be issued for damaged or unacceptable items. All such transactions are to be worked out with each designee. Replacement of damaged or unacceptable items will be made upon a mutually agreed time and date.
- c) All orders are to be delivered Freight on Board (F.O.B) to addresses as indicated on Attachment C.
- d) In an emergency situation in which the SFA requires delivery in less than 2 days and the vendor cannot provide the goods within the emergency delivery period, the SFA has the option to purchase those goods from another source with no penalty to either party.
- e) Delivery schedules that fall on a holiday will be made the following business day unless other arrangements have been made and agreed upon by both parties.
- f) Delivery of product(s). All deliveries shall be placed in the area designated by the designee. Under no circumstances may a delivery be left outside the building. Deliveries must be received as specified.
- g) Two invoices are to be provided and must be reviewed and signed at the time of delivery and if any discrepancies are noted during delivery those will be initialed and dated by the driver and school nutrition employee receiving the order.

The Three Strikes Rule: (if applicable and warranted)

(1) After vendor's first offense of providing sub-par quality product, late delivery and/or poor customer service, the SFA will call vendor to report contract violation. The SFA will follow-up with a written letter to the vendor documenting occurrence and putting the vendor on notice that the documented occurrence is unacceptable.

(2) After vendor's second offense of providing sub-par product, late delivery and/or poor customer service, the SFA will send a certified notice to the vendor documenting that this is the second offense, and a third offense will result in termination of the contract for cause. If the offense is providing sub-par product, then the vendor agrees to pay the School Food Authority to purchase quality product at the vendor's expense.

(3) After the vendor's third and final offense of the aforementioned, the SFA will terminate the contract for cause in writing via email and regular mail, copying the District Purchasing Compliance Officer.

V. EVALUATION FACTORS

- a) Bids will be evaluated in accordance with the required specifications as listed in this IFB. At the SFA's discretion, a bid may be eliminated from consideration for failure to comply with any required specifications, depending on the nature and extent of non-compliance. In addition to meeting mandated specifications, bids will be evaluated for the ability of the Bidder to provide, in the SFA's opinion, the best overall solution to meet the SFA's specifications.
- b) The SFA reserves the right to award a single contract for the total requirement of the IFB or award multiple contracts on a group or line-item basis in any combination that best serves the interest of the SFA.

VI. EQUIVALENT/ALTERNATE PRODUCTS

Equivalent/alternate products must be bid on items where a brand name or equal is specified, provided the quality, grade and/or performance of the proposed meets or exceeds the specifications as indicated within the bid specifications for each item. Samples of alternate/equivalent products shall be provided upon request as indicated below.

The following should be provided with the bid documents for all alternate/equivalent items bid:

1. Product identification, including manufacturer and/or distributor's name and number, brand name, product code, product label, quantity per case, and item number.
2. Manufacturer's product literature/specifications, including but not limited to product description.
3. Product has been personally investigated and determined that it is equal or superior in all respects to that specified.
4. Vendor will provide the same guarantee for the equivalent/alternate item as they would for specified product indicated in the bid documents.

VII. SUBSTITUTION CLAUSE (where applicable)

Shipments of items with brand name or specifications other than those listed on the bid shall be rejected or returned to the vendor at the vendor's expense unless prior arrangements have been made with the Director of School Nutrition.

Substitutions may be made only with prior approval of the Director of School Nutrition.

All substitutions must be of equal or greater quality. In no case will an item be accepted if the quality is lower than stated in the bid. Substitutions are to be priced at the same cost as the original awarded item.

VIII. AMENDMENTS AND MODIFICATIONS OF CONTRACT

The contract between the SFA and the Vendor shall not be amended or modified, nor shall any of its terms be waived, except in writing and executed and agreed upon by both parties.

IX. ASSIGNMENT

The Vendor shall not assign, transfer, convey, delegate, sublet, or otherwise dispose of its agreements with the SFA, or its rights, title, or interest herein, or its power to execute such agreement, to any other person, company, or corporation without the previous consent and written approval by the SFA.

X. INDEPENDENT VENDOR AND INDEMNITY

The Vendor shall act as an independent Vendor and not as an employee of the School Nutrition Program. Vendor agrees to indemnify and hold harmless the SFA, its elected officials, employees and agents from and against any and all liability, damages, claims, suits, liens, and judgments (including reasonable attorney's fees), of whatever nature, for injuries to or death of any person or persons, or loss of or damage to property, to the extent attributable to the negligent acts of vendor, its sub vendors or its respective agents, servants, or employees or such parties' failure to perform in accordance with the provisions of the contract resulting from this IFB.

XI. TIME OF PERFORMANCE

- a) Notwithstanding any delay in the preparation and execution of the formal contract agreement, the Vendor shall be prepared, upon written notice of bid award, to commence delivery of goods pursuant to the award on "Start Date" shown on the Invitation for Bid Timeline.
- b) The Vendor must comply with the time of performance.

XII. FORCE MAJEURE

If the SFA, in its reasonable discretion, determines that the Force Majeure Event is likely to delay Vendor's performance for more than thirty (30) days, the SFA reserves the right to cancel the agreement between the parties. In that event, neither party shall have any further liability to the other, subject only to the SFA's obligation to pay the Vendor for work already completed by the Vendor and the Vendor's warranty for work already completed.

XIII. EVIDENCE OF INSURANCE

- a) The successful Bidder, at its expense, shall always carry and maintain in full force during the term of the contract resulting from this IFB the following insurance:

Coverage	Limits of Liability
Workmen's Compensation	Statutory
General Liability/Property Damage	\$2,000,000 each occurrence \$10,000,000 aggregate
Personal Injury	\$5,000,000 each occurrence \$10,000,000 aggregate
Automobile Liability/Property Damage	\$5,000,000 combined single limitation
Bodily Injury	\$500,000 each occurrence \$1,000,000 aggregate

- b) Prior to commencement of performance of this Agreement, Vendor shall furnish to the SFA a certificate of liability insurance evidencing all required coverage in at least the limits required herein, naming the SFA, its elected officials, agents, and employees as additional insured under the Comprehensive General Liability coverage, and providing that no policies may be cancelled without ten (10) days advance written notice to the SFA. Such a certificate shall be issued to the SFA.

- c) Said policies shall remain in full force and effect until the expiration of the terms of the contract or until completion of all duties to be performed hereunder by the Vendor, whichever shall occur later.

XIV. EXCEPTIONS

A Bid submitted in response to this IFB constitutes a binding offer to comply with all terms, conditions, special conditions, general specifications, and requirements stated in this IFB, except to the extent that a Bidder takes exception to such provisions. To take exception to a provision of this IFB, the Bidder must clearly identify in the BID EXCEPTION FORM:

- (a) the number and title of each section of this IFB that the Bidder takes exception to;
- (b) the specific sentence within such section that the Bidder takes exception to; and
- (c) any alternate provision proposed by the Bidder.

See Attachment G

XV. WARRANTY

Successful Bidder shall fully warrant all products furnished under the terms of this contract, against poor and inferior quality. Time is of the essence of this contract. While under warranty, successful Bidder shall replace any damaged or inferior product in a timely manner to minimize the disruption of the SFA's operations.

XVI. GIFTS AND GRATUITIES

Acceptance of gifts from vendors and the offering of gifts by vendors are prohibited. No employee of the school district purchasing products under provisions of the contract issued as a result of this invitation shall accept, solicit, or receive, either directly or indirectly, from any person, firm, or corporation any gift or gratuity.

SAMPLES: The SFA reserves the right to request samples of any/all items indicated on the bid schedule. Samples shall be provided within five (5) business days upon request. It will be the responsibility of the supplier to incur all costs associated with the request for samples. Each sample is to be labeled with the Bidder's name, the item number as indicated on the Quote Sheets, and the bid number. Product labels on selected samples will be kept for verification when shipments are received. Products without such information may not be considered.

XVII. SEVERABILITY

The provisions of this contract are severable. Any term or condition deemed illegal or invalid shall not affect any other term or condition of the contract.

XVIII. WAIVER AND REJECTION RIGHTS

Notwithstanding any other provisions of the solicitation, the school district reserves the right to:

- Waive any immaterial defect or informality;
- Reject any and all offers or portions thereof; or
- Cancel a solicitation.

XIX. RELEASE FROM CONTRACT

In the event the market for a product covered by this request escalates to a point that the vendor is delivering product at less than cost, the vendor may petition for release from the contract. The petition shall be supported by a third-party market bulletin. The decision to release the vendor from the contract will be based on the difference between the market at the time of the bid opening and the current market for this item.

XX. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT (Appendix II to 2 CFR 200(f)) (if applicable)

If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or sub-recipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment, or performance of experimental, developmental, or research work under that "funding agreement," the recipient or sub-recipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

XXI. PROCUREMENT OF RECOVERED MATERIALS (2 CFR 200.323) (if applicable)

An SFA and its vendors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in the guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines. The recipient or sub recipient should, to the greatest extent practicable and consistent with law, purchase, acquire, or use products and services that can be reused, refurbished, or recycled; contain recycled content, are bio based, or are energy and water efficient; and are sustainable. This may include purchasing compostable items and other products and services that reduce the use of single-use plastic products. See Executive Order 14057, section 101, Policy.

Instructions for Certification

- 1) By signing and submitting this form, the prospective primary participant is providing the certification set out on page 1 in accordance with these instructions.
- 2) The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant must submit an explanation of why it cannot provide the certification set out on this form. The certification or explanation will be considered in connection with the Department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation will disqualify such person from participation in this transaction.
- 3) The certification in this clause is a material representation of fact upon which reliance was placed when the Department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Department or agency may terminate this transaction for cause or default.
- 4) The prospective primary participant must provide immediate written notice to the Department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- 5) The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549, at 2 CFR Parts 180 and 417. You may contact the Department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
- 6) The prospective primary participant agrees by submitting this form that, should the proposed covered transaction be entered into, it may not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department or agency entering into this transaction.
- 7) The prospective primary participant further agrees by submitting this form that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by the Department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- 8) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the General Services Administration's System for Award Management Exclusions database.
- 9) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- 10) Except for transactions authorized under paragraph (6) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the Department or agency may terminate this transaction for cause or default.
