

THE CARDINAL CHIRP

VOL XLV ISSUE NO. 5

FEBRUARY 26

Mission Statement: "ALMA: Providing quality educational opportunities to Adapt, Learn, Motivate, & Achieve"

From the Desk of the Superintendent

Mr. Jon Davis, Superintendent

School Board Reorganizes for 2026

At the January Board of Education meeting, the Board selected Nick Simonson as President, Kate Hopkins as Vice President, Mike Stemper as Treasurer, and Jessica Miller as Recording Secretary. Board members were appointed to the following committees:

- **Negotiations:** Randy Heckenlively, Kate Hopkins, Nick Simonson
- **Curriculum, Americanism, and Staff Relations:** Kate Hopkins, Mike Stemper, Christina Teager
- **Transportation and Facilities:** Randy Heckenlively, Mike Stemper, Allen Brugh
- **Budget, Policy, and Administrative Review:** Nick Simonson, Allen Brugh, Christina Teager
- **Humpert Scholarship Advisory Committee Representative:** Kate Hopkins

2026-2027 School Calendar Approved

The 2026–2027 school calendar was reviewed and approved. The calendar is similar to the 2025–2026 school calendar, with the first day of school scheduled for Wednesday, August 12, with a 2:00 p.m. dismissal. The last day of school is scheduled for Wednesday, May 19. The calendar is included in this newsletter.

School Improvement External Visit

As part of the school accreditation process, the Nebraska Department of Education requires an external team visit to assist schools in selecting and fulfilling continuous improvement goals. The external team is an outside group of educators with an objective view of the school's continuous improvement procedures.

The external team spent a day and a half reviewing procedures; talking with students, parents, teachers, and administrators; visiting classrooms; and observing teachers in action. The team also reviewed the school improvement plan, goals, and expected outcomes.

At the end of the visit, the external team provided an exit report to administrators and the school improvement team. The report addressed progress toward school improvement goals and provided written recommendations. A copy of the report was sent to the Nebraska Department of Education (NDE). External visits are conducted at least once every five years in all Nebraska schools.

(continued on page 2)

Mark Your Calendar

Feb 12th-- 1:00 Dismissal

Feb 12th-- 2:30-7:30 Parent-Teacher Conf.

Feb 19th-- 2:00 Dismissal- Winter Break

Feb 20th-- No School- Winter Break

From the Desk of the Supt.

(continued from page 1)

The exit report was very complimentary of the school, students, parents, staff, teachers, and administrators involved during the visit. The recommendations are relevant and will help prepare for the next school improvement cycle, which has already begun. The exit report was presented at the February 9, school board meeting.

Facilities Improvement Project

As mentioned in the December/January *Cardinal Chirp*, the Board approved proceeding with the facilities improvement project that has been in development for several years. The project will take place after school is out in May and is expected to be completed prior to the start of school in August.

If you missed the December/January *Cardinal Chirp*, please refer to it for a full description of the project. Below are some of the questions that have been received regarding the project.

Questions & Answers

1. What will the facilities improvement project approved by the Board of Education in December involve?

In the December/January newsletter, details of the facilities project were shared. The majority of the project will focus on infrastructure improvements, with most of the work centered on the 1940 high school building. Non-infrastructure work will include remodeling the four bathrooms in the 1940 building, as well as updating other public bathrooms throughout the school.

2. What other parts of the school will be impacted by the project?

The project will include replacing windows in the 1990 addition, replacing boilers and pumps in the south mechanical room, upgrading the fire alarm panel, and installing new detectors, speakers, and devices throughout the facility.

3. Are there any plans to build a new gym or other additions to the school?

There are no immediate plans for new building additions at this time. The Board has discussed future building projects and has identified potential future needs of the school district. A few years ago, at my request, Wilkins Architecture, Design, and Planning developed preliminary concept plans for future construction. These plans were used to help guide the Board in proceeding with the current project. When the Board decides to move forward with a major building project, the community will be involved from the beginning, and input will be requested before any plans are finalized.

4. If there are plans for a future building project, why invest money in the 1940 building?

The simplest answer is cost savings. The 1940 building has been inspected by architects and engineers, and all reports indicate it is a well-built, solid structure that can be used well into the future. While the building will require additional interior updates, much of the infrastructure will already be in place. It is estimated that maintaining and upgrading this building will save the school district millions of dollars in demolition costs, site work, and construction of a new building of similar size.

5. Who decides whether to move forward with a major building project?

The elected school board makes the formal decision. In reality, the final determination involves the patrons of the Alma School District. This is a significant decision that will impact the community. The process must be thoughtful and inclusive, ensuring community involvement in identifying school district needs and understanding the financial impact of any future project.

If you have any specific questions that you would like answered regarding school-related issues, please contact me by calling the school at 308-928-2131 or by sending your question by email to jon.davis@almacardinals.org.

A Season of Growth in 4th Grade

Mrs. Ashley Hays, Fourth Grade

We hope everyone had a wonderful winter break! Since returning to school, our classroom has been full of energy, learning, and lots of exciting activities.

In math, students have been diving into the world of fractions! We've been learning how to convert fractions, as well as add and subtract fractions with confidence. These are big skills, and your students have been working hard to master them.

In reading, we've explored engaging texts including historical fiction and narrative nonfiction. Students have enjoyed discovering how authors blend storytelling with real events and facts while practicing important comprehension strategies.

We also had a blast celebrating the 100th Day of School! From completing 100-piece puzzles to special math activities and challenges, it was a fun way to celebrate how far we've come this year.

With Valentine's Day just around the corner, we're looking forward to spreading kindness and positivity in our classroom as we continue learning and growing together.

Thank you for your continued support at home. It's amazing to see how much progress our 4th graders have made already this year!

Winter Blues? Not Us!

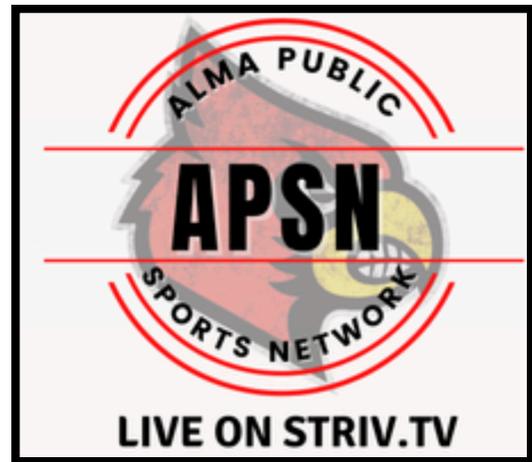

Mrs. Ali McCord, Fifth Grade

Getting back into the groove after Christmas Break can be tough, but January has given us plenty to look forward to at school! Our 5th and 6th-graders kicked things off by enjoying rewards they earned for their outstanding effort on winter MAP tests before the break. Their celebration included a fun-filled day with a movie, popcorn, and a New Year's digital breakout.

Several students also earned individual rewards for exceptional personal growth, such as lunch with friends in the classroom or the opportunity to serve as helpers in younger elementary classrooms. A group of our classroom helpers assisted 1st graders in Mrs. Christensen's class with a writing project, and it was a joy to see both groups having such a great time learning together.

January also brought the 100th day of school! I asked the 5th and 6th graders to share things their homeroom teachers have said 100 times, which led to some truly comical responses. My homeroom class also reflected on personal goals through a "Before I Turn 100..." writing assignment. While many students wrote about travel dreams, others shared goals involving future careers, pets, special purchases, and spending time with family and friends.

Looking ahead, at the beginning of February, our 5th graders will celebrate their 1,000th day of elementary school—an exciting milestone I can't wait to celebrate with them!

Catch your favorite home events live on Striv.tv!

Hard Work Pays Off: FFA Members Excel at LDEs

Kaitlyn Bradley, FFA Reporter

During the past few weeks, many members of our FFA chapter have been busy preparing for our LDE competition. On Wednesday, January 21, we took 32 members to Aurora to compete in speeches, demonstrations, and parliamentary procedure. Our chapter returned home with many ribbons, including four individuals who qualified for state. The results are as follows:

Junior High:

Dakota Evans, Ag Literacy (state qualifier)

Truman Fennel, Discovery Speaking

Hudson Schmidt, Discovery Speaking

Jaelyn Bradley, Creed Speaking

Conduct of Chapter Meetings Team 2 (Jaelyn Bradley, Grady Nech, Juno Tischner, Kenley Hausserman, Dakota Evans, Easton Frecks, Cash Schnuerle)

High School:

Abbie Pool, Jr Public Speaking (state qualifier)

Brynlee Koch, Jr Public Speaking

Kaitlyn Bradley, Sr Public Speaking

Amy Luke, Sr Public Speaking

Alee Shicksnider, Cooperative Speaking (state qualifier)

Hannah Buss, Employment Skills

Archer Goosic, Employment Skills

Hayden Deyle, Nat Resources Speaking (state qualifier)

Ag Demonstration (Austin Barwick, Taylor Pool, Cloey Crooker)
Conduct of Chapter Meetings Team 1 (Taryn Siebels, Dylan Webster, Tucker Peak, Brynlee Koch, Kinley Ford, Dylan Lyne, Cooper Deyle)

Parli Pro (Ava Dunse, Josie Nech, West Bennett, Cooper Quinn, Reese Molzahn, Barrett Zikmund)

Coming up, we have FFA week. We're excited to host our K-6 Barnyard day and dress up for the themes we have each day. Looking forward, we will be focusing on preparing for CDEs and State Degrees, which will take place at CCC in Hastings in early March. We have 11 individuals working toward earning their State Degrees with interviews on February 4th.

RPAC Art Competition Showcases Alma's Talent

Mrs. Kim Ritter, Art

It's Winter! That means it's time for the RPAC Art Competition. On January 21st, the RPAC Art Competition was held in Cambridge.

Students representing Alma were Jocelyn Dunse, Aiden English, Faith Christensen, Joshua Russell, Ashlyn Mulvihill, Haydenn Kindler, Kelly Tayler, Kamryn Scott, Vaughn Fennel, Serenity Zade, and Milah Boseck.

Junior Vaughn Fennel received the Best in School Medal for his white pencil drawing entitled *Possibilities*. Sophomore Kelly Tayler was awarded 1st Honorable Mention for her watercolor painting, *Silently Free*. Vaughn Fennel was also honored with 2nd Honorable Mention for his acrylic painting, *Whispers of Autumn Light*. The 3rd Honorable Mention recipient was junior Kamryn Scott for her watercolor painting entitled *Marsh Light*.

Congratulations to our students on their outstanding achievements!

Big Growth, Little Learners

Mrs. Maria Ehrke, First Grade

First grade is officially back in the swing of things, and our classroom is buzzing with learning! Each day, our students are growing more confident and getting more and more ready to be big second graders.

We also recently hit a big milestone—100 days of school! And just for fun, we didn't stop there... We celebrated being 101 Days Smarter with a 101 Dalmatians-themed day. From spots and smiles to lots of laughs, it was a fun and clever way to celebrate how much learning has already taken place this year.

In math, we are working hard on and exploring different ways to show tens and ones in two-digit numbers. Using models, drawings, and hands-on activities, our first graders are learning that numbers can be shown in many ways—and they love showing what they know!

During reading and language time, students are learning about contractions with "not", such as can't and won't. In writing, we are focusing on writing complete sentences with detail and remembering to use correct punctuation and capitalization. It has been exciting to see their writing grow stronger and more expressive each week.

Beyond academics, we are working on becoming more independent, self-starting learners. From beginning tasks on their own to taking pride in their work, it's been so fun to watch their confidence grow day by day.

Oh, and did you know? All snowflakes start as a tiny hexagon, which is why they always have six sides! We love sneaking in fun facts and sparking curiosity whenever we can.

First grade is full of growth, learning, and lots of fun—and we are so proud of all our students are accomplishing. Second grade, here we come! 🌟✏️

Speech Team Builds Momentum Toward Conference Meet

Mrs. Courtney Stottler, Speech Team

The Alma Speech Team is preparing for its upcoming conference meet. The RPAC meet will be held at Medicine Valley High School in Curtis, Nebraska.

The team has enjoyed a successful season so far, competing at the CNFL Meet in Grand Island, the Gothenburg Speech Meet, and the Minden Speech Meet.

Students representing Alma Speech this year include:

Lydia Sikes in Extemporaneous Speaking and Oral Interpretation of Poetry

Cloey Crooker in Informative Speaking

Faith Christensen in Oral Interpretation of Poetry

Gianna Schneider in Serious Prose

Tyler Hoard in Informative Speaking

Caden Reents in Informative Speaking

Carson Stoelting in Extemporaneous Speaking.

We wish these students the best of luck as they continue their season at the conference meet.

Counseling News

Mrs. Brittney Biskup, Guidance Counselor

Spring semester is always a busy time for the students and myself. First off, at the end of the first semester we administered our NWEA Measures of Academic Progress (MAP) tests. These tests are integral to track our progress from first semester and helps us understand what skills are still needing to be built before our state testing later this spring. The teachers utilize this data not only to place students into small groups in the elementary but also guide advising and class placements in the high school. In short, these tests are an important piece of your child's education and we always hope that students "do their best on the test." The students set goals in their Cardinal Communities around their MAP scores and we were blown away with the results! Great job to all! Mr. Hageman's Cardinal Community won the elementary goal challenge with the biggest average gain on the winter test and Mr. Mahalek's Community won the secondary contest.

Speaking of class placements, registration is just around the corner for next year! The students in grades 9-11 will have meetings with me individually during February to determine the classes they will be registered for next school year. The 8th graders and their parents will meet with me for planning for high school on February 12th at 7:00 pm in the school library. This is toward the end of Parent Teacher Conference evening. Each child and one parent is required to attend in order to register for their high school classes. It's important to each student to choose not only classes that interest them, but also classes that help them achieve their goals both in high school and beyond. While many students in eighth grade may not know their future careers, it's important to plan for the highest education possible so they are ready to achieve any goals they set for themselves in the future. In Alma we are fortunate that the students get to pre-register for classes early, then the schedule is created from those requests. It's important for students to choose wisely since the schedule is made to meet their needs! Last year we used our PowerSchool program, "PowerScheduler" to create the schedule based on the preregistered classes and 97% of the requests were met. We plan to use the computer program to create the schedule again this year, so it is important to choose wisely!

Seniors are to the point of seeing all that planning and hard work pay off for them with graduation just around the corner! Senior parents, NOW is the time to dig out the old photo albums and get your child's pictures to Mrs. Biskup for graduation preparation. A Google Drive has been opened with folders making it easy for you and your senior to submit photos for graduation as soon as possible! Many seniors are preparing for college by applying for scholarships and putting final plans in place to enter the next phase of life. Even though this is a challenging and busy time, it's also very exciting! Learning of college acceptance, getting recognized through scholarship offers and seeing the future unfold is the best part of senior year!

Besides scholarships, our students are benefitting from learning life skills during the second semester. Guest speakers from the community are sharing their expertise with students helping them learn important information about Adulthood. Some of our speakers will be presenting on taxes, banking, credit, identity theft, safety, volunteering, interviewing, insurance, etc. I am excited to hear all the great information they will share. I hope you may the students feel confident to tackle the adult world!

Finally, Elementary Skills for Growing classes brings a lot of fun to my week. The classes are working on various skills right now from active listening, size of problem, empathy and self esteem. The sixth graders are working through a short unit on understanding money and money management provided through EverFi. There are so many life skills to teach, it keeps us busy. Working with the elementary students is always fun and brings a smile to my day!

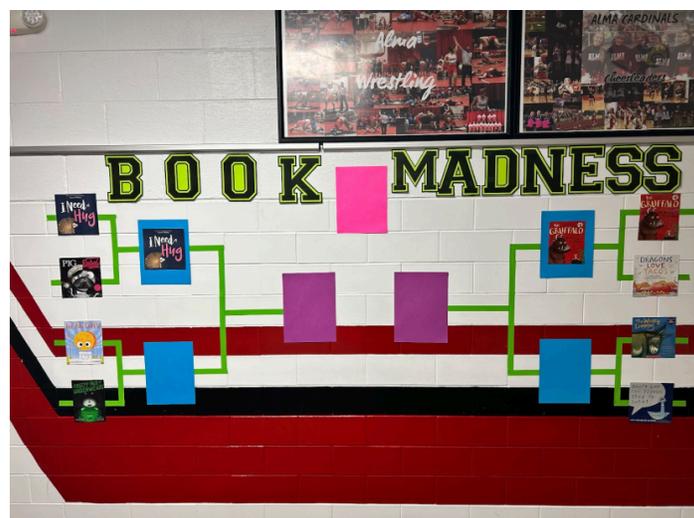

As always, if parents ever have any concerns or questions, I can be reached easiest by email: Brittney.biskup@almacardinals.org. The days are quite busy and the year always goes fast! Looking forward to a successful spring semester!

Book Madness is Back!

Mrs. Hannah Robison, Title Reading

This school year is flying by with March right around the corner. March is National Reading Month. In my classroom, we celebrate National Reading Month through Book Madness with a tournament of books. I create a large bracket of books on the wall in the hallway. We read each book in class and the students get to vote for their favorite book to move on in the tournament. I have done this for several years and the students are always very excited for this activity. It is a fun and interactive way to get students excited about reading.

Pictured below is last year's bracket.

Building Skills and Sportmanship

Mrs. Jodie Schuller, Physical Education

In Schuller's physical education class, students in grades 4, 5, and 6 have been participating in pickleball and table tennis since the beginning of January. They are learning the basic skills for each activity while also practicing keeping score, following the rules, and demonstrating good sportsmanship during gameplay. At the same time, my kindergarten and first-grade students have been focusing on jump-rope skills this last week of January. They have been working hard, showing improvement in coordination and timing, and are becoming more confident each day. If your young child does not have a jump rope at home, it would make a great gift for the Easter basket. As always, KEEP MOVING!
